CompTIA Network+

INDUSTRY-BASED CERTIFICATION DESCRIPTION

The Comp TIA Network+ certification exam measures critical security concepts to helping networking professionals work with security practitioners, key cloud computing best practices and typical service models,coverage of newer hardware and virtualization techniques, and concepts to give individuals the combination of skills to keep the network resilient.

There will be questions on the Networking+ exam that are performance based. These performance-based questions test your ability to solve problems in a simulated environment.

Candidates should have the recommended experience of at least nine to twelve months of networking experience and have earned the CompTIA A+ certification prior.
