

Graduation Deployed Family Member Information

We are currently gathering information for graduating seniors with Military or Civilian Contractor family members, currently deployed or who anticipate having deployed family members at the time of Graduation**.

The Gradcast project links graduates to their loved ones during one of the most memorable times in their lives. This collaborative project connects seniors graduating from area schools (Belton, Temple, Cove and KISD High Schools) with deployed family members allowing them to view graduation as well as providing an optional 1 to 1 interactive video conference with their loved ones either before or after their graduation ceremony. Media magnification enhances the graduation while **real time Video Conferencing during graduation allow graduates to see their loved ones down range as they accept their diploma** and allows loved ones to celebrate the graduate's success of the day.

Forms can be picked up from each Campus Student Activities Coordinator or go to the GradCast website at <http://www.gradcast.org> to enter this information online.

A live stream viewing of the graduation is also available at www.gradcast.org

***Seniors with deployed family members NOT deployed from Fort Hood may submit requests however all information MUST be submitted and there is no guarantee of connection.**

****Completing a request form does not guarantee a GradCast connection or participation of deployed family member.**
