Introduction

Purpose
This manual sets forth the policies and procedures used by the Killeen Independent School District (the District) to administer federal funds pursuant to Title 2 of the Code of Federal Regulations (2 CFR) Part 200, which took effect for non-federal entities on December 26, 2014. It also includes requirements and references from the federal regulations in EDGAR (Education Department General Administrative Regulations) as well as certain policies and laws pertaining specifically to Texas school districts.

The manual contains the internal controls and grant management standards used by the District to ensure that all federal funds are lawfully expended. It describes in detail or references the District’s financial management system, including cash management procedures; procurement policies; inventory management protocols; procedures for determining the allowability of federal expenditures; time-and-effort reporting; record retention; and monitoring responsibilities. All employees of the District who deal with federal funds in any capacity are expected to review this manual to gain familiarity and understanding of the District’s rules and practices and to comply with all requirements.

Effective Date
For awards made prior to December 26, 2014, the uniform requirements found in 34 CFR Parts 74 and 80 of EDGAR still apply. For awards made on or after December 26, 2014, the uniform grant guidance in 2 CFR Part 200 applies. Much of the substance found in the previous 34 CFR Parts 74 and 80 is now found in 2 CFR Part 200. Therefore, for formula grants administered by the Texas Education Agency (TEA), the policies and procedures in this document are in effect beginning July 1, 2015, in conjunction with the formula grant period that begins July 1, 2015. These policies and procedures will also be in effect for any new discretionary grants administered by TEA that begin on or after July 1, 2015. For existing multi-year discretionary grants administered by TEA or by another awarding agency where the initial grant period began before July 1, 2015, the policies and procedures that were previously in effect remain in effect for the duration of that multi-year project period unless significant changes are made to the program. In that case, the policies and procedures in this document are in effect beginning with the year that significant changes were in effect.

In all cases, the Notice of Grant Award (NOGA) from TEA or the Grant Award Notification (GAN) from another awarding agency will specify which set of rules is in effect for that particular grant. If the grant award specifies that grantees must comply with 2 CFR Part 200 or with the requirements in EDGAR, then the policies and procedures contained in this manual must be followed.
Type of Grant                                      | Effective Date of These Policies and Procedures |
-------------------------------------------------|-------------------------------------------------|
Formula grants administered by TEA that begin on or after July 1, 2015 | July 1, 2015                                      |
Discretionary grants administered by TEA that begin on or after July 1, 2015 | July 1, 2015                                      |
Multi-year discretionary grants that began prior to July 1, 2015 | Follow the policies and procedures that were in effect prior to these unless there are significant changes to the discretionary grant, at which time the policies and procedures in this document will take effect. |

Special Note: The District must maintain all policies and procedures that previously applied to federal grants for five years after the ending date of those grants for audit and monitoring purposes. The previously-used policies and procedures are in effect for any grants that were awarded prior to December 26, 2014.

Scope
The policies and procedures contained within this manual apply to all federal grants received by the District and to all employees of the District.

Monitoring for Compliance and Consequences for Non-compliance
The District is responsible for complying with all requirements of each federal award (2 CFR 200.300[b]). Compliance with these policies and procedures is monitored by the District. Failure of a district employee to comply with any of these requirements may result in disciplinary action, up to and including termination.

Definitions
Definitions as they pertain to federal grants appear in two places: 34 CFR Part 77 - Definitions That Apply to Department Regulations, and 2 CFR Part 200, Subpart A, which relate to the policies and procedures in this document. District employees who deal with federal grants must be familiar with the definitions in both.

Two terms used frequently in 2 CFR Part 200 are “state-administered grants” and “direct grants.” “State-administered grants” are those grants that pass through a state agency (i.e., a pass-through agency) such as TEA. The majority of grants the District receives are state-administered grants. Both TEA and the sub-grantees must comply with the requirements in 34 CFR Part 76 in addition to the requirements in 2 CFR Part 200.

“Direct grants” are those grants that do not pass through another agency such as TEA and are awarded directly by the federal awarding agency to the grantee organization. These are usually discretionary grants that are awarded by the U.S. Department of Education (USDE) or by another federal awarding agency. In many instances, TEA may apply for a direct grant from the USDE on a competitive basis and then award sub-grants. Or the District may apply directly from the USDE for a competitive grant. In either case, these grants are “direct grants,” and the District must comply with the requirements in 34 CFR Part 75 in addition to the requirements in 2 CFR Part 200.

All of the requirements outlined in these policies and procedures apply to both direct grants and state-administered grants. The federal provisions contained and referenced in this document apply to all non-federal entities receiving and expending federal funds. A “non-federal entity” as
defined in 2 CFR Part 200 means, “a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a federal award as a recipient or sub-recipient.” Thus, for the purposes of these federal grant policies and procedures, a “non-federal entity” means a school district, open-enrollment charter school, or regional education service center (ESC).

**Education Department General Administrative Regulations (EDGAR)**

The USDE adopts the uniform grant guidance in 2 CFR Part 200 as its regulations in 2 CFR Part 3474 (with two minor exceptions), which gives regulatory effect to the Office of Management and Budget (OMB) guidance in 2 CFR Part 200. Therefore, as of December 26, 2014, EDGAR now consists of:

<table>

</tbody>
</table>
CFR Part 200 in its entirety with two minor exceptions

2 CFR Part 3485 – Non-procurement Debarment and Suspension

Applies to all entities that receive federal grants, sub-grants, and subcontracts (government-wide)

34 CFR Part 74, which previously applied to IHEs and non-profit organizations, was removed from EDGAR. 34 CFR Part 80, which previously applied to state and local governments (including school districts, open-enrollment charter schools, and ESCs), was also removed in the new EDGAR but is reserved for future use. The uniform grant requirements that were previously in 34 CFR Parts 74 and 80 are now outlined in 2 CFR Part 200.

For grants that were awarded prior to December 26, 2014, the regulations in 34 CFR Parts 74 and 80 still apply. Grantees must maintain access to those parts as long as those grants are in effect and for five years after the ending date of the grant.

The following table provides the regulations that were in effect prior to December 26, 2014, and the regulations that are in effect on or after December 26, 2014.

Organization of District
The District is organized into the following departments and divisions:

The Superintendent supervises the Deputy Superintendent, the Assistant Superintendent, the Chief Communications and Marketing Officer, the Director of District Operations, the Executive Director of Technology Services, the Chief of Police, and the PEIMS Coordinator and Demographer.

The Deputy Superintendent supervises the Director of District Safety and Investigations, the Chief Human Resource Officer, the Chief Financial Officer, the Executive Director for Student Services, the Executive Director for Facilities Services, and the Executive Director of Athletics.

The Assistant Superintendent for Learning Services oversees the Chief Learning Officer for Elementary Schools, the Chief Learning Officer for Secondary Schools, and the Chief CCMR Officer. In addition, the Assistant Superintendent oversees the departments of Assessment and Accountability, Elementary Curriculum and Professional Development, Secondary Curriculum and Professional Development, Guidance Services, Special Education, and Special Programs. The Special Programs Department includes all ESSA programs.

See Appendix 1 for the full district organization chart or click here for the interactive chart.
Federal Grant Application Process

TEA Grants
The majority of federal grants the District applies for and receives are formula grants administered by TEA (i.e., state-administered grants). The District may also apply for and receive discretionary grants from TEA or directly from the USDE or another federal awarding agency. The policies and procedures outlined in this document apply to all federal formula and discretionary grants, regardless of the awarding agency. Federal agencies that award direct grants may impose requirements or conditions that are not addressed herein and that may result in the need to create additional policies and/or procedures to comply with those requirements.

Refer to TEA’s Applying for a Grant for information on the application process, descriptions of the various types of grants, as well as information about negotiations and grant amendments.

Request for Application (RFA)
TEA publishes a Request for Application (RFA) for each grant (formula and discretionary) and posts all grants on the TEA Grant Opportunities page. Some grants are available only in eGrants, while others are available only in paper. Applicants for eGrants must be approved for access to TEA Login (TEAL) before applying for an eGrant. Each District staff member who wishes to access the application must ensure they are approved for access to eGrants in sufficient time to allow timely access to the electronic application.

The process an applicant must follow to apply for funds is different for eGrants than for paper applications. Applicants can find detailed information about individual grants by selecting a grant from the Application Name dropdown list on the TEA Grant Opportunities page. For each individual grant available, the following information is displayed:

- **Program Information:** Briefly describes the program purpose and lists eligible applicants and eligibility criteria
- **Eligibility:** Describes organizations that are eligible to apply for the grant
- **Statutory Authority:** Cites the legislation that authorizes the grant
- **Funding Information:** Provides the start and ending date of the grant, whether it is state or federal, and the total amount that will be awarded
- **Application and Support Information:** Lists links to components of the Request for Application (RFA) such as the General and Fiscal Guidelines, Program Guidelines, Application, and any other pertinent grant materials, such as the announcement letter and any issued errata notices
- **Critical Events:** Lists all deadlines associated with the grant, including the application due date, amendment due date, and fiscal and programmatic reporting due dates
- **Contact Information:** Lists the TEA program and fiscal contacts. The TEA Program Contact can provide information about eligibility, program purpose or description, or allowable uses of funds. The TEA Funding Contact can answer questions about the grant application, including allocation and amendment questions.

Each RFA published by TEA includes the General and Fiscal Guidelines that apply to all federal and state grants, the Program Guidelines (that apply to a specific grant program), and the
General Provisions and Assurances that apply to all grants administered by TEA. District employees who manage the program or fiscal aspects of any TEA grant should consult the General and Fiscal Guidelines regularly and frequently, as they may change or be updated periodically.

All employees who deal with federal grants must also carefully review and be familiar with all Provisions and Assurances, as applicable:

- **General Provisions and Assurances**: Required for every TEA grant agreement
- **Debarment and Suspension**: Required for all federal grants, regardless of dollar amount
- **Lobbying Certification**: Required for all federal grants greater than $100,000
- **No Child Left Behind Act of 2001**: Required for all programs funded under the Elementary and Secondary Education Act of 1965, as amended by Public Law 107-110, No Child Left Behind Act of 2001
- **Every Student Succeeds Act of 2015**: Required for all programs funded under the Elementary and Secondary Education Act of 1965, as amended by Public Law 114-95, Every Student Succeeds Act of 2015

The RFA also includes the grant application (i.e., Standard Application System, or SAS) and the instructions for completing the SAS schedules (i.e., forms). Program managers preparing grant applications should carefully review all contents of the RFA package prior to planning and developing a grant application to ensure all requirements are met and the application is completed correctly. Some applications require advance coordination among district staff and/or among other entities such as local businesses, community organizations, or institutions of higher education (IHEs, i.e., colleges and universities).

**Submitting Complete Applications on Time**

It is equally important that federal grant applications be prepared and submitted on time. For formula grants administered by TEA that usually begin July 1, the District cannot obligate funds and begin grant activities until the District submits the application to TEA in substantially approvable form. In order to prevent unnecessary delays in program implementation and the provision of services to students, it is the policy of the District that all formula grant applications will be submitted as soon as possible but no later than July 1 unless a later grant beginning date is published by TEA. TEA will process the applications in the order received.

For competitive discretionary grants, it is the policy of the District that those applications be submitted in sufficient time for TEA to receive the application by the established deadline date and time specified in the competitive RFA. Failure for TEA to receive the application by the specified deadline date and time will render the application ineligible for consideration for review and scoring and for funding. In addition, all required forms must be completed in accordance with the instructions in the RFA in order to be eligible for consideration for funding. The program manager assigned to the grant is responsible for ensuring the application is completed accurately and submitted on time to TEA.

**Authorized Official**

The person signing/certifying the application must be an authorized official of the District who will represent the District in the event of a legal dispute. In KISD, the Superintendent has specified certain staff as his designee for each grant. The Grant Manager for each fund is the authorized
official for this District. By signing/certifying the application, the authorized official is certifying that he or she will comply with the terms and conditions of the grant, all applicable provisions and assurances, and the approved application. The signed/certified application submitted to TEA, and the NOGA issued by TEA, together constitute a legally binding contractual agreement between the District and TEA. Campus principals do not have the authority to submit a grant application.

District program staff, fiscal staff, and management are responsible for knowing all requirements and for complying with them. It is the policy of the District that the grant program described in the application is carried out in compliance with applicable statutes, regulations, rules, and guidelines, and in accordance with the approved application to achieve maximum efficiency and effectiveness with the goal of providing an integrated, coordinated delivery of services for students. Grant funds will be obligated, expended, and accounted for in an environment based on ethical principles and sound business practices.

The District grant manager assigned to the grant program is responsible and held accountable for knowing the program requirements, fiscal requirements, and reporting requirements. In addition to the policies and procedures outlined in this manual, the grant manager may be required to develop additional policies and procedures in order to comply with the specific requirements that may apply to a particular grant program. Any such additional policies and procedures must be used in conjunction with the policies and procedures outlined in this manual.

TEA monitors federal grants for compliance with fiscal and program requirements. In addition, the District’s independent auditor is required to determine compliance with certain requirements during the annual independent audit. Failure to comply with applicable statutes, regulations, rules, and guidelines or to implement the grant program in accordance with the approved application could result in the District being identified as a high-risk grantee and having corrective actions or additional sanctions imposed by TEA or other awarding agency; the repayment of federal dollars as a result of monitoring or audit findings; or termination of the grant. Refer to TEA’s Corrective Actions Related to Federal Grants for more information related to potential actions for noncompliance.

Other Federal Grants
The assigned grant manager is responsible for monitoring grant opportunities that may be available from agencies other than TEA. Approval from the Central Administration Advisory Group to pursue the grant opportunity must be obtained in advance of completing and submitting the application. An authorized official of the District (as previously described) must sign/certify the application prior to submittal.

Opportunities for other federal grants passed through other state agencies might be published in the Texas Register in the “IN ADDITION” section. Opportunities for federal grants available directly from the USDE or from another federal awarding agency are published in www.grants.gov.

Financial Management System

Overview
Federal regulations require grantees to use fiscal control and fund accounting procedures that ensure proper disbursement of and accounting for federal funds (34 CFR 76.702 and 2 CFR 200.302). Implementing and maintaining a proper accounting system is a fiduciary responsibility associated with receiving a federal award. The acceptance of an award creates a legal duty on the part of the District to use the funds or property made available under the award in accordance with the terms and conditions of the grant. The approved grant application itself constitutes an accounting document in that it establishes the purpose and amount of the awarding agency’s obligation to the grantee. In turn, it establishes a commitment by the District to perform and expend funds in accordance with the approved grant agreement and the applicable laws, regulations, rules, and guidelines. 2 CFR § 200.300(b)

The District maintains a proper financial management system in order to receive both direct and state-administered grants and to expend funds associated with a grant award. Certain fiscal controls and procedures are in place to ensure that all federal financial management system requirements are met. Failure by the District to meet a requirement may result in return of funds or termination of the award. Financial management requirements for Texas school districts are established through a pyramid consisting of:

- Federal regulations
- Texas Education Code (TEC)
- Texas Administrative Code (TAC), Title 19
- TEA’s Financial Accountability System Resource Guide (FASRG)

Texas Law and Rule
TEC, Section 44.007 requires the State Board of Education (SBOE) to establish a mandatory fiscal accounting system with which all school districts, ESCs, and open-enrollment charter schools in Texas must comply. TEC further requires each school district and open-enrollment charter school to adopt and install a standard accounting system that conforms to generally accepted accounting principles (GAAP) and that meets the minimum requirements prescribed by the commissioner of education. It also requires these entities to maintain records of all revenues and expenditures.
Title 19 of the Texas Administrative Code (19 TAC), Chapter 109, establishes the SBOE rule for school district budgeting, accounting, and financial reporting. The detailed requirements of the financial accounting system adopted by the SBOE are published in TEA’s FASRG (Financial Accountability System Resource Guide), adopted and incorporated by reference as TEA’s official rule.

FASRG currently consists of the following 6 modules:
- Module 1 – Financial Accounting & Reporting (FAR) and FAR Appendices
- Module 2 – Special Supplement – Charter Schools
- Module 3 – Special Supplement – Non-profit Charter Schools Chart of Accounts
- Module 4 – Auditing
- Module 5 – Purchasing
- Module 6 – Compensatory Education, Guidelines, Financial Treatment, and an Auditing and Reporting System

Financial Management Standards
The federal standards for financial management systems are found at 2 CFR § 200.302. The mandatory accounting requirements established by TEA in the FASRG conform to these federal financial management standards. Therefore, in accordance with federal regulations, the District’s financial management system, including records documenting compliance with federal statutes, regulations, and the terms and conditions of the award, is sufficient to permit:
- preparation of reports required by general and program-specific terms and conditions; and
- tracing of funds to a level of expenditures adequate to establish that funds have been used according to the federal statutes, regulations, and the terms and conditions of the federal award.

The District complies with the required federal standards for financial management systems by complying with the minimum budgeting, accounting, auditing, and reporting requirements established in TEA’s Financial Accounting and Reporting (FAR) Module 1 of the FASRG. Based on generally accepted accounting principles, FAR details a mandatory account code structure which all school districts, ESCs, and open-enrollment charter schools must use in accounting for all funds received and expended, including state and local funds and federal grant funds.

FAR establishes uniformity in governmental accounting and specifies a mandatory account code structure consisting of a minimum of 15 digits, plus 5 digits used at local option (for a total of 20 possible digits). For each accounting transaction, the minimum 15-digit account code structure consists of a fund code, function code, object code, organization code, fiscal year code, and program intent code, each serving a different purpose in designating the use of funds, campus served, and student population served.

The mandatory account code structure begins with a 3-digit fund code, which designates the funding source, e.g., the general fund, food service fund, a specific grant (referred to as a special revenue code), etc. A different 3-digit fund code is provided for fiscal agents of a shared services arrangement (SSA).

Each accounting transaction recorded in the general ledger must begin with the 3-digit fund code (net asset code for nonprofit open-enrollment charter schools). For example, the 3-digit fund...
The code for Title I, Part A is 211. The budget and all revenues and expenditures for Title I, Part A must be recorded in the accounting records using this specific fund code.

Additionally, 2 CFR § 76.760(b) authorizes grantees to use more than one program to support an activity if the grantee has an accounting system that permits the identification of costs paid for under each program. The fund accounting system in FAR accommodates this requirement.

**Identification of All Federal Awards**
The District identifies, in its accounts, all federal awards received and expended and the federal programs under which they were received. Federal program and award identification includes, as applicable, the Catalog of Federal Domestic Assistance (CFDA) title and number, federal award identification number and year, name of the federal agency, and, if applicable, name of the pass-through entity. Upon receipt of each grant award, the District obtains the required information from TEA’s Notice of Grant Award (NOGA) or other awarding agency’s Grant Award Notification (GAN) and enters the information in the general ledger using the assigned 3-digit fund code.

The TEAMS/Frontline ERP financial software keeps records of all funds, CFDA title and number. The Coordinator of Budgetary Services reviews this information for accuracy annually and updates the NOGA IDs when received from the issuing agency.

**Financial Reporting**
Accountability is the paramount objective of financial reporting. Accurate, current, and complete disclosure of the financial results of each federal award or program is made in accordance with the financial reporting requirements set forth in 2 CFR § 200.327 - .328 and in EDGAR. The District collects and reports financial information with the frequency required in the terms and conditions of the award and monitors its activities under federal awards to assure compliance with applicable federal requirements.

The Budget Analyst reviews expenditures monthly. The expenditure reports are prepared for each grant. These reports are reviewed by the Coordinator of Budgetary Services and the Director of Financial Reporting. The reports are then entered into TEA’s TEAL system for expenditure reporting and then certified by the Chief Financial Officer.
Accounting Records

The District maintains records which adequately identify the source and application (i.e., use) of funds provided for federally-assisted activities. In accordance with federal regulations, these records contain information pertaining to grant or sub-grant awards, authorizations, obligations, unobligated balances, assets, expenditures, income, and interest. All transactions are supported by source documentation (i.e., purchase orders/requisitions, invoices, receipts, travel vouchers, time-and-effort documentation and employee salary records, copies of checks, etc.).

The accounting system mandated in FAR conforms to generally accepted accounting principles (GAAP). The accounting structure is organized and operated on a fund basis and is organization-wide covering all funds. The District uses the 3-digit fund code specified in FAR for each grant received to identify the source of funds. The use of funds is identified by using the required function code, object code, organization code, program intent code, and fiscal year code specified in FAR.

The District uses the minimum 15-digit account code structure mandated in FAR to record all revenues, encumbrances, and expenditures. The Budget Analyst is responsible for creating and ensuring that the correct 15-digit account code is used for all accounting transactions. The campus or department originates the requisition in the TEAMS financial software. It then follows the workflow for approvals shown in the table below. The items are received in by the Distribution Center, and then delivered to the originating campus or department.

ESSA funds are utilized at both the campus and district levels. All strategies using those funds are outlined in campus improvement plans or the district improvement plan. The approval process begins with the review of the CIP for each campus. The Director of Federal & State Programs reads each CIP and looks for alignment of expenditures with the comprehensive needs assessment as well as that the proper account code has been selected for the resources needed to implement each strategy. In addition, the allowability of each expenditure is considered based on the Texas Education Agency publications Budgeting Costs Guidance Handbooks and the Supplement, Not Supplant Handbook. Expenditures are evaluated to be sure they are reasonable, necessary and allocable. Campuses that have expenditures that do not meet each requirement must revise the CIP. Once a CIP has received initial approval, the Budget Analyst sets up the appropriate codes in the district’s accounting software, TEAMS. She also checks to be sure the proper budget code has been selected. A CIP Amendment Process is used for CIP changes after the initial approval. (See Appendix 2) In addition, all entries using ESSA funds in the District’s accounting software, TEAMS, contain the goal, objective and strategy number from either the campus improvement plan (CIP) or the district improvement plan (DIP). This links expenditures not only to the CIP/DIP, but also to the comprehensive needs assessment conducted each year.

The following tables outline the transaction approval chain for each federal fund in KISD. Each approver in the chain reviews specific details of the expenditure to ensure that all federal, state, and local requirements are met.

Internal Controls

Effective control and accountability must be established and maintained for all funds, real property (i.e., land and buildings), personal property, and other assets. The District must adequately safeguard all such property and must assure that it is used solely for authorized purposes.

Internal controls are tools (i.e., policies, procedures, best practices, and activities) to help program and financial managers achieve results and safeguard the integrity of their program. The District’s internal controls are in compliance with guidance in the Standards for Internal Control in the Federal Government (the Green Book) issued by the Comptroller General of the United States and the Internal Control Integrated Framework, issued by the Committee of Sponsoring Organizations.
of the Treadway Commission (COSO), and are designed to provide *effective and efficient operations* based on demonstration of the following principles:

- A commitment to integrity and ethical values
- Independent oversight over the development and performance of internal controls
- Clearly defined organizational structure, clear reporting lines, and appropriate authorities
- A commitment to attract, develop, and retain competent individuals, and
- Maintaining a level of competence that allows personnel to accomplish their assigned duties and holding individuals accountable

In accordance with 2 CFR § 200.61, “internal controls” means a process implemented by the District to provide reasonable assurance regarding the achievement of objectives in the following categories:

(a) Effectiveness and efficiency of operations
(b) Reliability of reporting for internal and external use, and
(c) Compliance with applicable laws and regulations

“Internal control over compliance requirements for federal awards” means a process implemented by the District designed to provide reasonable assurance regarding the achievement of the following objectives for federal awards:

- Transactions are properly recorded and accounted for in order to
  o Permit the preparation of reliable financial statements and federal reports.
  o Maintain accountability over assets.
  o Demonstrate compliance with statutes, regulations, and the terms and conditions of the award.

- Transactions are executed in compliance with
  o laws, regulations, and the terms and conditions of the award that could have a direct and material effect on a federal program
  o any other statutes and regulations that are identified in the Audit Compliance Supplement

- Funds, property, and other assets are safeguarded against loss and from unauthorized use or disposition.

To accomplish these objectives, the District:

- Develops and maintains policies, procedures, and effective practices to ensure federal funds are properly administered and spent and federal property is safeguarded against loss and from unauthorized use or disposition. The District also ensures all employees who deal with federal funds are aware of the policies and procedures and are properly trained in the use of them. In accordance with School Board Policy BP Local, the Superintendent and administrative staff shall be responsible for developing and enforcing procedures for the operation of the District. These procedures shall constitute the administrative regulations of the District and shall consist of guidelines, handbooks, manuals, forms, and
any other documents defining standard operating procedures. The Superintendent, or his
designee, shall approve this Federal Grants Manual as needed, or as appropriate, if
federal, state or local changes in regulations or policy warrant immediate changes.
Administrative procedures are subject to Board review but shall not be adopted by the
Board.

- Ensures employees comply by regularly and frequently evaluating and monitoring their
  compliance with the policies and procedures, statutes, regulations, and the terms and
  conditions of the award. Each position in the approval chain monitors every transaction
  for compliance with all applicable policies, procedures, statutes, regulations, terms and
  conditions of each award.
- Takes prompt action when instances of noncompliance are identified, including
  noncompliance identified in audit findings, and taking the appropriate disciplinary action
  for employees who do not comply, and
- Takes reasonable measures to safeguard protected personally identifiable information
  and other information designated as sensitive consistent with applicable federal, state,
  and local laws regarding privacy and obligations of confidentiality. FERPA requires school
districts to protect the personally identifiable information of students’ educational records.
The District requires parents to consent to disclose the student’s information, unless a
statutory exception applies. The use of strong passwords, encryption, filtering, security
software, security patches, antivirus software, limited network connectivity, monitoring
servers for hacking attempts, oversight, policies, audits, contracts that adequately protect
data, training, properly vetting apps, exercising due diligence before hiring service
providers, and basic security measures are standard practices to help prevent data
breaches and lessen a school district’s liability and damages.

The District uses the following, at least in part, to determine if internal controls are effective:
- Only valid or authorized transactions are processed.
- Transactions occurred during the grant period and were verified and processed in a timely
  manner.
- No proper transactions were omitted from the accounting records.
- Transactions are calculated using an appropriate methodology.
- Transactions appear reasonable relative to other data.
- Property (including supplies and equipment) is tracked and used only for authorized
  purposes.
- Property is properly disposed of.

Budget Control
The budget for each federal award is recorded in the general ledger in accordance with FAR
using the designated 3-digit fund code. Obligations/encumbrances and expenditures are also
recorded in the general ledger for each federal award. On a regular basis, the District compares
actual expenditures or outlays with budgeted amounts for each federal award. The Budget
Analyst enters a budget change request to place the revenue and expenditure budgets into the
TEAMS financial system. For ESSA funds, the campuses receive funds when the Campus
Improvement Plan is approved by the Director of Federal & State Programs. Encumbrances are
entered into the general ledger when the campus or department enters a requisition. For all other
federal funds, the encumbrances are entered into the general ledger when the department
enters a requisition. The Director of Federal & State Programs ensures that all requests are approved in the Campus Improvement Plan and the Budget Analyst ensures that no obligations are outside of the allowable grant period.

**Cash Management**
The District maintains written procedures to implement the cash management requirements found in 2 CFR § 200.305 and in EDGAR.

Please see *Federal Cash Management Policy/Procedures* of this document for these written cash management procedures.

**Allowable Costs**
The District maintains written procedures for determining *allowability* of costs in accordance with 2 CFR § 200.302(b)(7) and EDGAR. Please see *Financial Management System, Expending Grant Funds* of this document for the written procedures for determining allowability of costs.

Please see *Expending Grant Funds* of this document for the written procedures for determining allowability of costs.

**Budgeting Grant Funds**

**Planning Phase: Meetings and Discussions**
The grant budget must be based on the proposed activities planned and described in the grant application. Prior to developing the budget, the grant manager must know the intent of the federal program and the activities that are allowable to be conducted with grant funds. The grant manager must coordinate with other District staff as appropriate to conduct the appropriate needs analysis using the appropriate data to determine the goals and objectives for the program and the activities that will be implemented to accomplish the goals and objectives. Once the goals, objectives, strategies, and activities are outlined, then the budget to carry out the identified strategies and activities should be developed.

Prior to completing the application, the grant manager develops a budget separate from the application. The grant manager coordinates with the Budgetary Services Departments in preparing the budget to ensure budgeted items are categorized according to the proper class/object code. This budget, which serves as the guide for expenditures and becomes part of the “working papers” maintained by the grant manager, is used to complete the application. In most instances, particularly for formula grants, the budget entered into the grant application will not be as detailed. The detailed budget is to be modified or revised as necessary to accommodate changes, which may result in an amendment to the application prior to incurring certain expenditures.

If the grant program will be implemented on a Title I schoolwide campus, the planned activities and expenditures must be identified in the campus improvement plan (CIP). Conducting activities and expending funds that are not included in the campus improvement plan could result in an audit exception or monitoring finding for the District. Therefore, the grant manager is responsible
for ensuring the activities and anticipated expenditures are described in the campus improvement plan.

The district Site-Based Decision-Making Committee conducts a comprehensive needs assessment each year. The Director of Federal & State Programs works with the Assistant Superintendent for Curriculum and Instruction to determine campus allocations for Title I as well as the amount and type of set asides based on needs outlined in the comprehensive needs assessment. The Assistant Superintendent for Curriculum and Instruction and the Director for Elementary Curriculum and Professional Development collaborate as to how Title I set asides for professional development should be spent, again, based on the district’s needs assessment. Based on these meetings, the Director of Federal & State Programs creates proposals for these funds. The dollar amount of these proposals is based on the prior year’s TEA Planning Amount. Adjustments are made to the budget once the actual NOGA is received. Proposals are presented to the Instructional Topics Committee which consists of the Superintendent, Deputy Superintendent, Assistant Superintendent for Curriculum and Instruction, Assistant Superintendent for Leadership, Executive Directors for Leadership, Executive Director for Career and Technology Education, Directors for Curriculum and Professional Development, Director of Assessment and Accountability, Director for STEM, and the Director of Federal & State Programs. Each proposal is discussed with members of the committee providing input. The Superintendent selects the proposal that best meets the needs of the district. The Director of Federal & State Programs completes the ESSA application and submits it in TEAL. The final approval of a grant application shall be the Superintendent or designee.

Once the district adopts a new program or instructional practice, a committee reviews the resources necessary to implement the program/practice successfully. The committee also reviews the resources and equipment readily available to determine what additional, if any, resources would be necessary to implement the program/practice with fidelity. The committee representative brings suggestions to the Instructional Topics committee for review and approval before going to the school board for final approval.

Reviewing and Approving the Budget Prior to Submitting the Application: By the times listed in the table below, the grant manager and the Budget Analyst will review the items in the proposed budget to ensure budgeted items are listed in the correct class/object code according to FAR and the District’s classification chart and to ensure the items are allowable. The budget is also reviewed to ensure that any costs requiring specific or prior approval are specifically identified and listed.
See Expending Grant Funds, for a discussion on performing allowability determinations.

In ESSA, items which require specific approval (field trips, out of state travel, and sponsoring conferences) are not included in the grant application. This was a District decision made once EDGAR was implemented. If a grant manager or anyone in the approval chain determines that a cost is not allowable, then that staff member contacts the person who has made the unallowable request so that funds can be redirected to an allowable purchase.

For IDEA B expenditure requests, a justification form is completed and submitted to the Director for Special Education and/or Executive Director for Special Education. The requested item is reviewed to ensure that it aligns to the district improvement plan and is an allowable expenditure through the grant. If denied, the justification form is returned with an explanation to the requestor as to the reason for the denial.

Once the grant manager and Budget Analyst determine that all budgeted items are allowable and are budgeted in the proper class/object code according to FAR, the budgets for ESSA, IDEA, and TEHCY are sent to the Assistant Superintendent for Curriculum and Instruction while Perkins is sent to the Assistant Superintendent for Leadership for final review and approval. Generally, the budget receives final approval by the timeframe listed in the table above. The assigned grant manager then enters the final approved budget into the appropriate budget schedules of the grant application.

Negotiating the Submitted Application

Once the grant application is submitted to the awarding agency, the grant manager is available in the event that the awarding agency needs to contact the District to negotiate the application or to ask questions or seek clarification related to the proposed program and/or budget. The assigned grant manager will seek guidance, if needed, from appropriate District personnel and will respond to any inquiries from the awarding agency within 24 to 48 hours. A delay in contacting the awarding agency delays final approval of the grant application, which delays grant program implementation and providing services to intended beneficiaries of the grant.
After Receiving the Approved Application and NOGA/GAN

Within two business days of receiving the approved application and NOGA/GAN from the awarding agency, the grant manager will forward a complete copy of the application and NOGA/GAN to the Budget Analyst.

In addition, the following steps are taken to ensure the District is prepared to implement the grant on the beginning date of the grant to maximize the effectiveness of the grant.

Campus Improvement Plans are due in June so that they can be reviewed for alignment to data in the comprehensive needs assessment, allowability of expenditures, and correct budget codes. The goal is for CIPs to be approved by the start of the ESSA program year on September 1. A deadline is set to ensure that campuses move funds out of plug accounts and into budget codes approved in the CIP so that strategies can be implemented in a timely manner. Spending deadlines are set each year to ensure that funds are expended as early in the school year as possible. In addition, the Director of Federal & State Programs sends out monthly Funds Status Reports to all campus principals. These reports show the balances of each budget code and the percentage of each grant that has been spent. The goal is for each campus to spend 100% of the ESSA funds allocated to them. The Funds Status Report is also sent to the Assistant Superintendent for Curriculum and Instruction and the Director of Elementary Curriculum and Professional Development. This report shows balances remaining and percent of funds expended for all ESSA grant funds.

Amending the Application

The District consults and complies with the guidelines and procedures provided by TEA or other awarding agency as it pertains to when and how to submit an amendment to an approved application. TEA publishes its requirements for when to amend the application online. Specific deadlines for submitting amendments are published in the corresponding RFA and/or in the Critical Events calendar on the TEA Grant Opportunities Page for the specific grant program. Procedures are in place to ensure the District does not exceed any maximum allowable variation in the budget.

Monitoring and Amending the Budget: For ESSA funds, the Director of Federal & State Programs and the Budget Analyst track budget change requests to ensure that the total amount moved from one object series to another does not exceed 25% of the total ESSA grant allocation. This is done at the end of each month when the Director of Federal & State Programs compiles the Funds Status Reports. When an amendment is needed, the Director of Federal & State Programs consults the “when to amend” requirements and writes the amendment. It is sent to the Assistant Superintendent for Curriculum and Instruction for approval. Once approved, the amendment is submitted in eGrants.

Monitoring and Amending the Program Description: An amendment for the IDEA B grant is requested when the staff ratio exceeds the planned amount. ESSA programs are monitored on a monthly basis. Any changes that are needed to the program description are discussed with the Assistant Superintendent of Curriculum and Instruction as well as with the District leadership team prior to an amendment being submitted.
Timely Obligation of Funds

When Obligations are Made
“Obligations” are defined as orders placed for property and services, contracts and sub-awards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period. (This does not mean obligations for which goods and services will be delivered in a future grant period.) Essentially, an obligation is a commitment to pay.

All obligations for all goods and services must occur during the grant period (i.e., between the beginning and ending dates as stated on the NOGA), and those goods and services must be delivered during the grant period in sufficient time to provide substantial benefit to the grant to be considered necessary to carry out the objectives of the grant. 34 CFR § 200.71

Per TEA’s General and Fiscal Guidelines, in some instances, goods or services delivered near the end of the grant period may be viewed by TEA as not necessary to accomplish the objectives of the current grant program. TEA will evaluate such expenditures on a case-by-case basis. Please note that a TEA monitor or an auditor may disallow those expenditures if the District is unable to (1) document the need for the expenditures, (2) demonstrate that program beneficiaries receive benefit from the late expenditures, or (3) negate the appearance of “stockpiling” supplies or equipment.

The following table illustrates when funds are determined to be obligated under federal regulations:

<table>
<thead>
<tr>
<th>If the obligation is for:</th>
<th>The obligation is made:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acquisition of property</td>
<td>On the date which the District makes a binding written commitment to acquire the property</td>
</tr>
<tr>
<td>Personal services by an employee of the District</td>
<td>When the services are performed</td>
</tr>
<tr>
<td>Personal services by a contractor who is not an employee of the District</td>
<td>On the date which the District makes a binding written commitment to obtain the services</td>
</tr>
<tr>
<td>Public utility services</td>
<td>When the District receives the services</td>
</tr>
<tr>
<td>Travel</td>
<td>When the travel is taken</td>
</tr>
<tr>
<td>Rental of property</td>
<td>When the District uses the property</td>
</tr>
<tr>
<td>A pre-agreement cost that was properly approved by TEA prior to the obligation</td>
<td>On the first day of the grant project period.</td>
</tr>
</tbody>
</table>

34 CFR § 75.707; 34 CFR § 76.707.

In addition, TEA’s FAR requires encumbrance accounting. The amount committed (or obligated) must also be known to avoid over-expenditure of budgeted funds. An encumbrance accounting system is a method of ascertaining the availability of funds and then reserving funds to cover outstanding obligations.

Encumbrances represent commitments (i.e., obligations) related to contracts not yet performed (executory contracts), and are used to control expenditures for the year and to enhance cash management. A school district often issues purchase orders or signs contracts for the purchase of goods and services to be received during the grant period. At the time these commitments or
obligations are made, which in its simplest form means that when a purchase order is prepared, the appropriate account is checked for available funds. If an adequate balance exists, the amount of the order is immediately charged to the account to reduce the available balance for control purposes. The encumbrance account does not represent an expenditure for the period, only a commitment to expend resources.

**Period of Availability of Federal Funds**

All obligations must occur on or between the beginning and ending dates of the grant project. 34 CFR § 76.707. This period of time is known as the *period of availability*. The *period of availability*, or the period between the beginning and ending dates of the grant, are dictated by statute and will be indicated on TEA’s NOGA or other awarding agency’s GAN. Further, certain grants have specific requirements for carryover funds that must be adhered to.

**TEA Grants:** As a general rule, federal funds administered by TEA are available for obligation within the fiscal year for which Congress appropriated the funds. However, given the unique nature of educational institutions, for many formula education grants, pursuant to provisions in the General Education Provisions Act (GEPA), the *period of availability* is 27 months. This consists of an initial grant period of 15 months (i.e., July 1 – September 30 of the following year), plus a 12-month carryover period authorized by the “Tydings Amendment.” 34 CFR § 76.709. For example, funds awarded on July 1, 2015, would remain available for obligation by TEA through September 30, 2017.

<td>12 months</td>
</tr>
<tr>
<td></td>
<td>27 months</td>
</tr>
</tbody>
</table>

Federal education formula grant funds are typically awarded on July 1 of each year. While funds not obligated during the initial 15-month grant period remain available as carryover in the subsequent 12-month period, the District will always plan to spend to the best of its ability all current grant funds within the year for which the funds were initially appropriated. Per TEA, excess carryover and lapsing of funds may be an indicator in TEA’s risk assessment process.

TEA calculates and manages the carryover process each year after final expenditure reports from the prior year are processed. Any carryover funds from the prior year are added to the application and NOGA for the subsequent year. Carryover funds must be used in accordance with the federal statute and regulations in effect for the carryover period and with any approved state plan or application. 34 CFR 76.710

**Direct Grants:** In general, the *period of availability* for funds authorized under *direct* grants is identified in the GAN.

**Liquidation of Obligations**

The District must liquidate (i.e., make the final payment because the goods or services were received during the grant period, or cancel the obligation because the goods or services were not received during the grant period) all obligations incurred under the award in accordance...
with the requirements of TEA or other awarding agency. For TEA formula grants, this is usually within 30 calendar days after the ending date of the formula grant to coincide with submittal of the final expenditure report to TEA. For direct grants from the Department of Education, this may be no later than 90 days after the end of the funding period unless an extension is authorized. 2 CFR § 200.343(b).

Any funds not obligated within the period of availability or not liquidated within the appropriate timeframe are said to lapse and must be returned to the awarding agency. 2 CFR § 200.343(d). Lapsing of funds is usually considered by TEA to be an indicator of poor planning and may cause the District to be identified as high risk. Consequently, the District closely monitors grant spending throughout the grant cycle.

The District sets spending deadlines each year for all federal funds. Campuses and departments receive a monthly fund status report that shows which deadlines apply to funds. The Director of Federal & State Programs contacts campuses with large amounts of unexpended funds prior to deadlines to offer assistance in getting purchases made.

**Carryover**

TEA Grants: As previously described, the Tydings Amendment typically extends the period of availability for formula grants for an additional 12 months. Accordingly, the District may have multiple years of grant funds available under the same program at the same time.

Usually, TEA discretionary grants do not have a carryover period, as any unobligated and unexpended funds are carried over at the state level and are used to issue NOGAs for the subsequent funding period. TEA discretionary grantees must request to extend the ending date of the project/NOGA directly from TEA if such an extension is allowable pursuant to the guidelines related to a particular grant.

Direct Grants: Grantees receiving direct grants are not covered by the 12-month Tydings period. However, under 2 CFR § 200.308, direct grantees enjoy unique authority to expand the period of availability of federal funds. The District is authorized to extend a direct grant automatically for one 12-month period. Prior approval is not required in these circumstances; however, in order to obtain this extension, the District must provide written notice to the federal awarding agency at least 10 calendar days before the end of the period of performance specified in the award. This one-time extension may not be exercised merely for the purpose of using unobligated balances. The District will seek written prior approval from the federal agency when the extension will not be contrary to federal statute, regulation or grant conditions and when:

- The terms and conditions of the Federal award prohibit the extension;
- The extension requires additional Federal funds; or
- The extension involves any change in the approved objectives or scope of the project.

2 CFR § 200.308(d)(2)

**Accounting Records**

The Business Office is responsible for maintaining the official accounting records of the District. All grant budgets are entered into the accounts of the District in the general ledger. Funds are
accounted for and records are kept in accordance with the requirements in TEA’s FAR. The chart of accounts provided in FAR provides the framework for the accounting system, and the District uses the accounting terminology specified in FAR and generally accepted accounting principles (GAAP).

The Business Office maintains (on paper or electronically) original source documentation to support all expenditures recorded in the general ledger. Source documentation may include but is not limited to purchase orders/requisitions, invoices, itemized receipts, travel authorizations and travel vouchers, contracts, proof of delivery, copies of checks, bank statements, etc. Documentation is also stored electronically in the TEAMS financial system. The Accounts Payable Department maintains check copies in accordance to the retention schedule.

If electronic source documentation is maintained, the District ensures the documentation is easily retrievable and is readable in accordance with the requirements in 2 CFR § 200.335. Refer to Section VII. Record Keeping of this manual for more information about these requirements.

**Documentation Associated With Using District Credit Cards**

Purchases made with credit cards or procurement cards must be closely controlled and monitored to prevent fraud, waste, and abuse. The appropriate and corresponding entries must be made in the general ledger as with any other individual purchase.

Employees who receive and use district-issued credit cards must submit the original itemized receipt that identifies each item purchased (and not just the credit card receipt). The itemized receipt constitutes the required original source documentation and must be legible and must clearly identify the date of the transaction and each item that was purchased. The employee must provide documentation, either on the receipt itself, or in a separate file cross-referencing that particular transaction, how each item was used to benefit the grant program. If the employee does not provide an itemized receipt, the expenditure will not be charged to a federal grant.

The District must also maintain all other appropriate internal accounting records, such as travel vouchers, expense reimbursement vouchers, purchase orders, etc., related to the credit card purchase.

The classification of costs by funding source and expense type and the maintenance of adequate original source documentation are necessary for reporting purposes to TEA or other awarding agency. It is also necessary to demonstrate compliance with state and federal cost principles, standards of financial management systems, and conformance with GAAP. Lastly, it is a requirement of the Internal Revenue Code applicable to all business entities. The District’s general ledger will reflect each individual charge on each credit card statement with each of the following:

- The individual vendor name (not just the credit card company name)
- The grant funding source/fund code
- The actual date of the charge (as opposed to the billing statement or the date the credit card bill was paid)
Rebates on Purchase Cards: Per TEA, any rebates on a district-issued purchase card will be credited to the original funding source(s) for which the card is used to make purchases. The District may prorate rebates based on a percentage of the total amount of funds used from each funding source.

Expending Grant Funds
All costs charged to a federal grant are classified as either direct or indirect. While developing and reviewing the grant budget and when expending grant funds, program and fiscal staff should keep in mind the difference between direct costs and indirect costs as defined in the federal cost principles. All costs must be properly and consistently identified as either direct or indirect in the accounting system.

Direct and Indirect Costs
Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy. 2 CFR § 200.413(a).
Indirect costs are those that have been incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. 2 CFR § 200.56. Costs incurred for the same purpose in like circumstances must be treated consistently as either direct costs or indirect costs. 2 CFR § 200.413(a). Indirect costs usually support areas that benefit all activities of the District, such as Accounting, Budget, Human Resources, Purchasing, Building Maintenance, etc.

Cost Objective: A cost objective is a program, function, activity, award, organizational subdivision, contract, or work unit. A cost objective may be a major function of the District, a particular service or project, a federal award, or an indirect cost activity.

Identification with the federal award, rather than the nature of the goods and services involved, is the determining factor in distinguishing direct from indirect costs of federal awards. Typical costs charged directly to a federal award are the compensation of employees who conduct program activities for that award, their related fringe benefit costs, and the costs of materials and other items of expense incurred to carry out the objectives of the federal award. 2 CFR § 200.413(b).

The salaries of administrative and clerical staff should normally be treated as indirect costs. 2 CFR § 200.413(c). Direct charging of these costs may be appropriate only if all of the following conditions are met:
- Administrative or clerical services are integral to a project or activity.
- Individuals involved can be specifically identified with the project or activity.
- Such costs are explicitly included in the budget or have the prior written approval of TEA or other awarding agency.
- The costs are not also recovered as indirect costs.

Indirect Cost Rate
Pursuant to 34 CFR §§ 75.561 and 76.561, TEA, as the cognizant agency, approves federal indirect cost rates for school districts, ESCs, and open-enrollment charter schools in Texas. The rates are
calculated using costs specified in the District’s indirect cost plan/proposal submitted to TEA and is effective July 1 through June 30 of each year.

Two indirect cost rates are approved by TEA and are used by the District. The restricted rate is used for federal grants containing the supplement, not supplant requirement (34 CFR §§ 76.563 and .564). The unrestricted rate may be used for federal grants that do not contain the supplement, not supplant requirement. The Budget Analyst is responsible for gathering data and the Chief Financial Officer will submit required reports to TEA.

**Applying the Indirect Cost Rate:** The District must have a current, approved federal indirect cost rate to charge indirect costs to a federal grant. Once the District has an approved indirect cost rate, the percentage is multiplied against the actual direct costs (excluding distorting items specified by TEA or other awarding agency, such as the portion of each contract in excess of $25,000, sub-grants, capital outlay, debt service, etc.) incurred under a particular grant to produce the dollar amount of indirect costs allowable to that award. 34 CFR § 75.564; 34 CFR § 76.569. Once the District applies the approved rate, the funds that may be claimed for indirect costs have no federal accountability and may be used as if they were non-federal funds. For **Direct Grants**, reimbursement of indirect costs is subject to the availability of funds and statutory or administrative restrictions. 34 CFR § 75.564.

Indirect costs are part of administrative costs (vs. program costs). Where a federal program has a specific cap on the percentage of administrative costs that may be charged to a grant, that cap must include all direct administrative charges as well as any recovered indirect charges. If administrative costs are limited to 5%, for example, the total direct administrative costs plus indirect costs claimed for the grant cannot exceed 5%.

Indirect costs are not necessarily budgeted in the grant application in the corresponding line item. Although the maximum allowable indirect costs may be budgeted in the application, indirect costs can only be charged to the grant based on actual expenditures of direct costs. Therefore, if the District does not expend all of its funds during the grant period, the maximum amount of indirect costs budgeted based on the total grant award cannot be charged to the grant. Prior to finalizing expenditures for the grant and submitting the final expenditure report to TEA or other awarding agency, the District adjusts the final amount charged to indirect costs based on the actual expenditures. The Budget Analyst is responsible for filing final expenditure reports and requesting indirect costs.

**Determining Allowability of Costs**

Grantees are required to have written procedures for determining the allowability of costs charged to federal grants. 2 CFR § 200.302(b)(7). All costs must be allowable under the federal cost principles in 2 CFR Part 200, Subpart E, and under the terms and conditions of the specific federal award.

Expenditures must be aligned with budgeted items in the approved grant application. Certain changes or variations from the approved budget and grant application need prior approval from TEA or other awarding agency. Refer to TEA’s guidelines on [When to Submit an Amendment](#).
(under Amendment Submission Guidance) to determine when an amendment to the budget is required for TEA grants.

When determining how the District will spend grant funds, the grant managers listed in the table below will review the proposed cost to determine whether it is an allowable use of federal grant funds before obligating and spending those funds on the proposed goods or services. All expenditures made with federal education funds must meet the standards outlined in EDGAR, 2 CFR Part 3474, and 2 CFR Part 200. The assigned grant manager and fiscal staff must consider the following factors when making an allowability determination.

</table>

Factors Affecting Allowability of Costs

In general, District staff must consider the following elements when determining the allowability of a cost. In accordance with the federal cost principles, all costs budgeted and charged to a federal grant must be:

✔ **Necessary and Reasonable for the performance of the federal award.**

Reasonable Costs: A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. "Reasonable” means that sound business practices were followed, and purchases were comparable to current market prices.

A cost can be reasonable if it meets all of the following conditions:

- Prudence was used in making the decision to incur the cost, considering the person’s responsibilities to the District, its employees, the public, and the federal government.
- It is necessary to carry out the objectives of the grant program or is recognized as an ordinary cost to operate the organization.
- The District applied sound business practices; arm’s-length bargaining (i.e., the transaction was with an unrelated third party); federal, state, and other laws and regulations; and the terms and conditions of the award in making the decision.
- The price is comparable to that of the current fair market value for equivalent goods or services.
- There were no significant deviations from the established practices of the organization which may unjustifiably increase the cost. 2 CFR § 200.404

Necessary Costs: While 2 CFR § 200.404 does not provide specific descriptions of what satisfies the “necessary" element beyond its inclusion in the reasonableness analysis above, necessary is determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. It means it is...
vital or required in order to meet the objectives of the grant or for the grant to be successful. Necessary does not mean “nice to have”. “Nice to have” means it is not necessary to accomplish the objectives of the program in that it is not vital or required for the success of the program.

A key aspect in determining whether a cost is necessary is whether the district can demonstrate that the cost addresses an existing need and can prove it. For example, the district may deem a language skills software program necessary for a limited English proficiency program.

When determining whether a cost is necessary, the District considers:

- Whether the cost is needed for the proper and efficient performance of the grant program;
- Whether the cost is identified in the approved budget or application;
- Whether there is an educational benefit associated with the cost;
- Whether the cost aligns with identified needs based on results and findings from a needs assessment; and
- Whether the cost addresses program goals and objectives and is based on program data.

✓ Allocable to the federal award. A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefits received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. 2 CFR § 200.405. For example, if 50% of a supplementary teacher’s salary is paid with grant funds, then that teacher must spend at least 50% of his or her time on the grant program. Additionally, if equipment or supplies purchased with grant funds benefits more than one grant program, the purchase must be “split-funded” among the grant programs receiving benefit. The District must be able to demonstrate how a particular cost benefits the specific population being served in the grant. This is an area of frequent audit exceptions.

✓ Consistent with policies and procedures that apply uniformly to both federally-financed and other activities of the District. For example, personnel whose travel is paid with federal funds is reimbursed at the same rates as personnel whose travel is paid with state or local funds, and the grant is charged accordingly.

✓ Conform to any limitations or exclusions set forth as cost principles in 2 CFR Part 200, Subpart E, or in the terms and conditions of the federal award.

✓ Consistent treatment. A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.

✓ Adequately documented. All expenditures must be properly documented with original source documentation that is clearly written and maintained on file (either electronically or on paper) with accounting records. Documentation includes purchase
orders/requisitions, invoices, receipts, verification of receipt of goods and services, travel authorizations and vouchers, contracts, time-and-effort records, copies of checks, bank statements, etc. Expenditures that are not supported by source documentation cannot be charged to the grant.

✓ Determined in accordance with generally accepted accounting principles (GAAP), unless provided otherwise in 2 CFR Part 200.

✓ Not included as a match or cost-share of another federal program, unless the specific federal program authorizes federal costs to be treated as such. Some federal program statutes require the grantee to contribute a certain amount of non-federal resources to be eligible for the federal program.

✓ The net of all applicable credits. The term “applicable credits” refers to those receipts or reduction of expenditures that operate to offset or reduce expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges, such as credits. To the extent that such credits accruing to or received by the District relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. 2 CFR § 200.406.

Treatment of miles, points, or awards accrued for travel: Any miles, points, credits, or awards accrued or earned for employee travel using a district-issued credit card (where the credit card bill is paid directly by the District) are the property of the District and will be used for employees travelling on behalf of the District to reduce the overall cost to the District. Any such miles, points, credits, or awards accrued will not be used for personal travel.

2 CFR Part 200’s cost guidelines must be considered when federal grant funds are expended. Federal rules require state- and District-level requirements and policies regarding expenditures to be followed as well. For example, state and/or District policies relating to travel or equipment may be narrower or more restrictive than the federal rules. In this case, the stricter State and/or District policies must be followed.

**Requesting Prior Written Approval**

Some costs discussed in the following sections and in the instructions to completing the grant application require prior written approval from the awarding agency. For TEA grants, prior written approval must be requested in accordance with TEA’s process. The District must submit the request in writing to the TEA Chief Grants Administrator. The Chief Grants Administrator may request additional information, as applicable, and may meet or consult with applicable TEA staff prior to responding to the District in writing.

In addition, for certain costs that it may be difficult to determine reasonableness or allocability, the District may seek prior written approval for “special or unusual costs” not identified in the regulations in advance of the incurrence of such costs. This may prevent future disallowance or
dispute based on “unreasonableness” or “non-allocability.” Prior written approval should include the timeframe or scope of the agreement. 2 CFR § 200.407

The grant managers listed in the table below will determine if and when the District should seek prior written approval for a certain cost prior to incurring the cost. Federal grant funds will not be expended for any costs that require prior written approval in accordance with 2 CFR 200, Subpart E, or the grant application instructions, if such prior written approval was not properly secured.

**Selected Items of Cost – 2 CFR Part 200, Subpart E**

2 CFR Part 200, Subpart E, examines the allowability of 55 specific cost items (commonly referred to as Selected Items of Cost) at 2 CFR §§ 200.420 -.475. These cost items are listed in the chart below along with the citation where it is discussed. Please do not assume that an item is allowable because it is specifically listed, as it may be unallowable despite its inclusion in the selected items of cost section, or it may be allowable only under certain conditions, including prior written approval.

The expenditure may be unallowable for a number of reasons, including: the express language of the regulation states the item is unallowable; the terms and conditions of the grant deem the item unallowable; or State/local restrictions dictate that the item is unallowable or allowable only under certain conditions or circumstances. The item may also be unallowable because it does not meet one of the factors affecting allowability of costs, such as being reasonable because it is considered too expensive. If an item is unallowable for any of these reasons, the District does not use federal funds to purchase it. The selected items of cost addressed in 2 CFR Part 200, Subpart E include the following (in alphabetical order):

</tbody>
</table>

Likewise, it is possible for the State and/or District to put additional requirements on a specific item of cost. Under such circumstances, the stricter requirements must be met for a cost to be allowable. Accordingly, employees consult federal, State and District requirements when spending federal funds. For example, the travel rules for grants administered by TEA are more restrictive than the federal cost principles allow, which means TEA’s policies must be followed.
Other Considerations for Allowability

In order for a cost to be allowable, the expenditure must also be allowable under the applicable federal program statute (e.g., Title I of the Elementary and Secondary Education Act [ESEA], or the Carl D. Perkins Career and Technical Education Act [Perkins]), along with accompanying program regulations, non-regulatory guidance, and grant award notifications.

Most federal programs also contain the supplement, not supplant requirements. In general, this means that the District cannot use federal grant funds to pay for a cost or activity that is usually supported by state or local funds. See Supplement, Not Supplant, of this manual for more information about this requirement.

In summary, for a cost to be allowable under a federal grant program, the District ensures it meets all of the following conditions. A cost that does not meet all of these conditions could be questioned during an audit or monitoring visit and could require repayment to the awarding agency. The cost must be:

- reasonable in cost (as described above)
- necessary to accomplish the objectives of the grant program (as described above)
- based on an identified need, concern, or area of weakness within the grant program
- appropriate under the authorizing program statute
- consistent with the underlying needs of the program in that it benefits the intended population of students or teachers for which the funds are appropriated
- allocable to the grant based on the relative benefits received (as described above)
- authorized or not prohibited under state or local laws or regulations
- consistent with policies, regulations, and procedures that apply to all activities, including other grants and state and local activities
- treated consistently as either a direct cost or as an indirect cost
- determined in accordance with GAAP
- not used to meet cost sharing or matching requirements of another federal grant (unless specifically permitted in the other program statute or regulations)
- consistent with the terms and conditions of the grant award
- budgeted in the approved grant application
- adequately documented with appropriate supporting original source documentation
- the net of any applicable credits such as rebates or discounts
- allowable under the federal cost principles
- in most cases, supplemental to the core foundation program of the school and to other activities normally conducted by the school (i.e., supplement, not supplant)
- if the school is a Title I schoolwide program, the grant program’s activities and applicable costs must be included in the schoolwide plan, the school must have conducted a comprehensive needs assessment, and the plan must contain the required components specified in statute (see Title I, Part A, §1114[b]).

District personnel responsible for spending federal grant funds and for determining allowability must be familiar with the Part 200 selected items of cost section. District employees are required to follow these rules when charging these specific expenditures to a federal grant. In addition to checking the selected items of cost in Part 200, District staff must check costs against TEA’s Budgeting Costs Guidance Handbook, the Request for Application (RFA), local district policy, and any grant program restrictions to ensure the cost is allowable.
All expenditures must be reasonable, necessary, allowable and allocable. ESSA expenditures are evaluated for all four items. This begins with the Campus Improvement Plan approval process for each campus. The Director of Federal & State Programs reads each CIP and looks for alignment of expenditures with the comprehensive needs assessment. In addition, the allowability of each expenditure is considered based on the Texas Education Agency publications Budgeting Costs Guidance Handbooks and the Supplement, Not Supplant Handbook. The allocability is measured per specific program guidelines for each ESSA fund as well as through the use of TEA’s General Fiscal Guidelines. Campuses that have expenditures that do not meet each requirement must revise the CIP. A CIP Amendment Process is used for CIP changes after the initial approval. (See Appendix 2) All entries (check requests, employee reimbursement requests and requisitions/purchase orders using ESSA funds in the District’s accounting software contain the goal, objective and strategy number from either the campus improvement plan (CIP) or the district improvement plan (DIP). This links expenditures not only to the CIP/DIP, but also to the comprehensive needs assessment conducted each year and assures that the expenditure is reasonable, necessary, allowable and allocable.

**Costs That Require Special Attention**

In addition to the aforementioned, certain types of costs may be allowable under federal law but may not be allowable under state law or guidelines, or may only be allowable under certain circumstances and conditions. TEA’s [Budgeting Costs Guidance Handbook](#) outlines several other types of costs that require special attention due to the fact some costs frequently cause audit exceptions or monitoring findings. Included in that guidance are descriptions of allowable awards and incentives; cell phones; employer contributions to voluntary retirement plans; field trips; printing costs; food costs, including for hosting meetings and conferences; fundraising; gifts; promotional items; social events; and training on grant writing.

The District makes every effort to comply with these guidelines in the expenditure of federal grant funds to avoid audit exceptions. District employees engaged in federally-funded activities are required to consult this document regularly and be familiar with its contents.

Documents that outline allowable and unallowable purchases are posted on the KISD Special Programs Department State and Federal Programs Internal Documents SharePoint site. In addition, the Director of Federal & State Programs emails these documents to principals each year. The documents help principals and their Site-Based Decision-Making committees as they write campus improvement plans know what is and is not allowable for a particular fund. The Director of Federal & State Programs must approve all ESSA expenditures in TEAMS, the district accounting software. During the approval process, she checks to be sure that the goal, objective, and strategy from the CIP or DIP is included in the justification field and that the specific purchase is reasonable, necessary, allowable and allocable. Other approvers in the chain check these areas as well as items that are required per state and local policy or procedure. The approval chain provides a system of checks and balances to ensure that all expenditures are appropriate.

The state and/or District rules related to some specific cost items are discussed below. District employees must be aware of these State and District rules and ensure they are complying with these requirements.
Travel
Travel costs are the expenses for transportation, lodging, subsistence (i.e., meals), and related items incurred by employees who are in travel status on official business of the District. TEA’s policy for reimbursing travel is more restrictive than the federal cost principles allow. In an effort to keep travel costs reasonable, TEA restricts reimbursement for travel paid from federal and state grants to rates that are specified in the State of Texas General Appropriations Bill, Article IX, General Provisions, Travel Regulations, in effect for the particular grant period. TEA regularly publishes information and guidance about allowable travel costs and rates on the Administering a Grant page (See Travel Guidelines and Current Reimbursement Rates under Handbooks and Other Guidance).

The federal cost principles allow for reimbursement for meals on a per diem basis, whether or not the employee actually spends the entire per diem. TEA, however, in following the travel restrictions specified in the Appropriations Bill for state employees, allows for reimbursement of meals at actual costs, not to exceed the federal rate for the locale, or local policy, whichever is less. Travel allowances (where the employee is reimbursed the per diem rather than actual costs whether or not the employee actually spends all of the maximum allowable per diem) are not allowable charges to state and federal grants in Texas. The State of Texas defines reimbursement of the difference between the maximum per diem and the actual amount spent on meals as a “gift of public funds”, which is unallowable per the Texas Constitution. Therefore, the District ensures that its travel policy and reimbursement practices reflect this requirement.

Additionally, if local District policy provides for reimbursement for travel expenses at an amount that exceeds the rates allowed by TEA, the District pays the difference from state or local funds. District policy does not provide for reimbursement of travel expenses at a higher rate as specified in the District’s written travel policies.

In general, reimbursement from state or federal grants for employees on travel is limited to the following:
- the actual cost of meals incurred by the employee per day, not to exceed the maximum allowable federal per diem rate
- the actual cost of lodging, not to exceed the current federal rate in the locale to which the employee is travelling
- the actual cost of coach airfare
- actual mileage in a personal vehicle

Travel costs for dependents are unallowable. The District does not reimburse employees for temporary dependent care costs. See Administrative Procedure V-B.

Documentation that Travel Costs are reasonable and justifiable: Additionally, costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, must be deemed by the District to be reasonable and otherwise allowable only to the extent such costs do not exceed charges normally allowed by the District in its regular operations as the result of its written travel policy.
Pursuant to the requirements in 2 CFR § 200.474(b), documentation must be maintained that justifies that (1) participation of the particular individual is necessary to the federal award; and (2) the costs are reasonable and consistent with the District’s established policy.

KISD Board Policy DEE Local complies with TEA’s guidelines related to travel, for specific provisions related to travel. 2 CFR § 200.474(a).

Request for Professional Leave
Employees who plan to travel must complete a Request for Professional Leave form prior to travel, detailing the dates of the proposed travel, purpose of the travel, how it will benefit the grant program, and estimated travel expenses. The Request for Professional Leave form must be approved by the employee’s supervisor and the TEAMS financial system workflow as previously documented. When entering the request into the TEAMS financial system, the originator must include the Goals, Objectives and Strategy that explains why the trip is necessary and accomplishes the objectives of the grant. The supervisor will verify that the travel by the particular individual is necessary to accomplish the objectives of the grant program. The Accounting Department will verify that costs are reasonable and consistent with the District’s travel policies. The Accounting Department will also ensure that sufficient funds are budgeted and available for travel in the appropriate grant program prior to the employee incurring any travel expenditures.

Professional Leave Travel Reimbursement Form
Travel costs must be properly documented to be reimbursable by the District. The employee must document travel costs paid out of pocket with the Professional Leave Travel Reimbursement Form that is completed after the travel has occurred. The Professional Leave Travel Reimbursement Form must include the following at a minimum:

- Name of the individual claiming travel reimbursement
- Destination and purpose of the trip, including how it was necessary for this particular individual to travel on this particular trip in order to accomplish the objectives of the grant program
- Dates of travel
- Actual mileage (not to exceed reimbursement at the maximum allowable rate).
- Travelers are required to calculate mileage by using Google Maps. The traveler must print out the driving directions provided by the site and attach them to the travel voucher. Exceptions made by the Director of Purchasing Services when an address does not exist in Google Maps system
- Travelers are required to select the shortest and most economical route but may justify the selection of another route if it was chosen for safety reasons and specific justification of the selection is given.
- Actual amount expended on lodging per day, with a receipt attached (may not exceed the federal rate for the locale)
- Actual amount expended on meals per day (must not exceed the federal rate for the locale; tips and gratuities are not reimbursable). Receipts for meals are not required by TEA but are required per local District policy.
- Actual amount of airfare (receipt must be attached; a printed copy of an online receipt is acceptable)
• Actual amount expended on public transportation, such as taxis and shuttles (receipt not required by TEA but are required per local District policy)
• Actual cost of parking (receipt may be required at the local level, but is not required by TEA)
• Actual amount expended on incidentals, such as hotel taxes, copying of materials, and other costs associated with the travel (receipts must be attached)
• The amount of any cash advance paid to the employee prior to the travel
• Total amount to be reimbursed to the employee
• The signature and date of the employee
• The signature and date of the supervisor or other manager

Travel costs that are not supported by proper documentation as described above are not allowable to be charged to the grant and are subject to disallowance by state and federal auditors and monitors.

**Advertising and Public Relations Costs**

Pursuant to the requirements in 2 CFR § 200.421, the costs of advertising are allowable only for the recruitment of grant personnel; the procurement of goods and services for the award; disposal of scrap or surplus materials acquired under the award; and program outreach.

Allowable public relations costs are those necessary to communicate with the public and press pertaining to specific activities or accomplishments or as necessary to keep the public informed on matters of public concern. All advertising and public relations costs must be necessary for the performance of the particular award, and must not be for the purpose of advertising or relating to the public with regard to the district in general.

**Hosting Meetings and Conferences**

2 CFR § 200.432 discusses the allowability of conference costs paid by the district as a sponsor or host of the conference. A conference is defined as “a meeting, retreat, seminar, symposium, workshop or event whose primary purpose is the dissemination of technical information beyond the non-federal entity (i.e., the conference is for non-employees) and is necessary and reasonable for successful performance under the award.” These federal guidelines state that costs may include rental of facilities, cost of meals and refreshments, local transportation, and other items incidental to such conferences unless further restricted by the terms and conditions of the federal award. Per the guidance, conference hosts/sponsors must exercise discretion and judgment in ensuring that conference costs are appropriate, necessary, and managed in a manner that minimizes the costs to the federal award.

However, the USDE issued more restrictive guidance related to the use of funds for conferences and meetings (under Allowable Cost Guidance), particularly with regard to food costs such as meals, snacks, and refreshments.

Per guidance from the USDE:

“Generally, there is a very high burden of proof to show that paying for food and beverages with Federal funds is necessary to meet the goals and objectives of a Federal grant. When a grantee is hosting a meeting, the grantee should structure
the agenda for the meeting so that there is time for participants to purchase their own food, beverages, and snacks. In addition, when planning a meeting, grantees may want to consider a location in which participants have easy access to food and beverages.

While these determinations will be made on a case-by-case basis, and there may be some circumstances where the cost would be permissible, it is likely that those circumstances will be rare. Grantees, therefore, will have to make a compelling case that the unique circumstances they have identified would justify these costs as reasonable and necessary."

Additionally, the USDE guidance states that grantees should consider whether a face-to-face meeting or conference is the most effective or efficient way to achieve the desired result and whether there are alternatives, such as webinars or video conferences, that would be equally or similarly effective and more efficient in terms of time and costs than a face-to-face meeting. The USDE guidance also states that grantees should consider how the meeting or conference will be perceived by the public; for example, will the meeting or conference be perceived as a good use of taxpayer dollars?

These and more specific guidelines are also discussed in Budgeting Costs Guidance Handbook in the Food and Beverage Costs section.

District staff will adhere to these guidelines if and when hosting a meeting or conference for non-employees. Prior to planning a meeting or conference, approval will be obtained from the Assistant Superintendent for Curriculum and Instruction. The proposed meeting or conference will be budgeted in the approved application and the District will obtain prior approval from TEA as specified in the Guidelines Related to Specific Costs.

It is district practice that ESSA funds are not used to sponsor or host conferences which non-employees attend.

Cost of Identifying Local Dependent Care: Pursuant to the provisions in 2 CFR § 200.432, the District may use grant funds to pay for identifying, but not providing, locally available dependent-care resources for those attending the conference. For example, allowable costs might include accessing, compiling, and providing a list of nearby child care facilities for attendees at a conference.

The District does not use grant funds to pay for identifying locally available dependent care resources.

Entertainment Costs and Field Trips
Pursuant to 2 CFR § 200.438, costs of entertainment, including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose. TEA interprets this section to include some field trips, depending on the nature and purpose of the field trip. All field trips require the prior written approval of TEA.
TEA’s Budgeting Costs Guidance Handbook includes information about allowable and unallowable field trips. District staff will consult these guidelines and secure prior written approval from TEA prior to planning and scheduling any field trips.

Use of Federal Funds for Religion Prohibited

Without exception, federal funds will not be used to pay for any of the following:

- religious worship, instruction, or proselytization
- equipment or supplies to be used for any of those activities
  34 CFR §§ 75.532 and 76.532

Use of Federal Funds for Construction or Major Remodeling and Renovation

Federal funds will not be used to purchase real property or for construction unless the costs are specifically permitted by the authorizing program statute or implementing regulations for the program, and the costs are properly budgeted and approved in the applicable federal grant application. 34 CFR § 76.533.

Remodeling and Renovation: Major remodeling and renovation is defined as construction. Therefore, all of the federal requirements apply to any major remodeling or renovation paid with federal funds.

The term construction does not include minor remodeling and renovation. Minor remodeling as defined in 34 CFR Part 77 means

“minor alterations (that do not affect structural supports) in a previously completed building. The term also includes the extension of utility lines, such as water and electricity, from points beyond the confines of the space in which the minor remodeling is undertaken but within the confines of the previously completed building. The term does not include building construction, structural alterations to buildings, building maintenance, or repairs.”

The purchase of a portable building is a capital purchase (i.e., equipment) and may be allowable under certain federal programs if necessary to carry out the objectives of the grant program, if appropriate for the circumstances, and if approved in the applicable grant application. However, preparing the site for the installation of the portable building, including ground leveling, electrical wiring, plumbing, and constructing a sidewalk and steps, is considered construction and is not allowable from a federal grant unless the authorizing federal program statute specifically permits construction and it is approved in the grant application.

If construction and/or major remodeling and renovation are allowable and approved under a particular federal program, there are numerous laws and regulations with which the District must comply. The District will comply with all applicable state and federal laws, regulations, and guidelines for construction and/or major remodeling and renovation, including those found in 34 § CFR 76.600 and in 34 CFR §§ 75.600 - .617, as well as those found in 2 CFR §§ 200.317 - .326 related to procurement. In addition, the District will comply with requirements under the Department of Labor’s Davis-Bacon and related Acts, as well as bonding requirements specified in 2 CFR § 200.325. Failure to comply with these requirements could result in the repayment of funds.
It is district practice that we do not use ESSA funds for construction, remodeling or renovation.

**Use of Federal Funds Benefitting Students and Teachers in Private Schools**

Some federal programs contain the requirement that equitable services be provided to qualifying students and teachers in private nonprofit schools if the officials of the nonprofit school desire that their children and teachers receive the benefits of those federal programs. In the event that private nonprofit schools wish to participate, there are restrictions with regard to the use and control of funds which benefit those students and teachers. 34 CFR §§ 76.658 - .662.

The expenditure of all federal funds for the benefit of participating private school students and teachers is directly related to the specific federal program under which private school students and teachers are receiving benefit. The following provisions will be adhered to in the use of federal funds for the benefit of private school students and teachers.

- The District shall maintain continuing administrative direction and control over funds and property that benefit private school teachers and students. No funds will ever be paid to a private school. All goods and services are purchased by the District on behalf of and for use by the participating private school.
- The District will monitor participating private schools to verify compliance with these requirements.
- The District shall not use funds to finance the existing level of instruction in a private school or to otherwise benefit the private school.
- The District shall use funds to meet the specific program needs of students enrolled in private schools, rather than the needs of a private school or the general needs of the students enrolled in a private school.
- The District may use funds to make District personnel available in other than District facilities to the extent necessary to provide equitable program benefits designed for students enrolled in a private school and if those benefits are not normally provided by the school.
- The District may use funds to pay for the services of a private school employee if the employee performs the services outside of his or her regular hours of duty and the employee performs the services under the supervision and control of the District or other public entity.
- **Equipment and Supplies**
  - The District must keep title to and exercise continuing administrative control of all equipment and supplies that the District acquires with federal funds. The District will only place equipment and supplies in a private school for the period of time needed for the federal grant project. (The equipment and supplies are “on loan” to the private school for the duration of the grant project.)
  - The District will monitor to ensure that the equipment or supplies placed in a private school are used only for the purposes of the project and can be recovered from the private school without remodeling the private school facilities.
  - The District will remove the equipment or supplies from a private school if the equipment or supplies are no longer needed for the purposes of the project or if removal is necessary to avoid use of the equipment or supplies for other than project purposes.
- The District will ensure that federal funds are not used for the construction of private school facilities.
The Special Programs Compliance Specialist coordinates services to all participating private, non-profit schools. The Compliance Specialist consults with private, non-profit schools in a timely manner. The Compliance Specialist works with the private, non-profit school to create a budget based on needs of students and staff. The results of those consultations are reported to the Director of Federal & State Programs who completes the ESSA application. An inventory of supplies and equipment is maintained in the Special Programs Department and a reconciliation of that inventory is conducted twice each school year: once in the fall and again in the spring at the end of the term. All expenditures are monitored by the Director of Federal & State Programs via TEAMS to ensure that funds are expended appropriately.

For additional information pertaining to the requirements for participation by students enrolled in private nonprofit schools, see Private Nonprofit School Participation in this manual.

**Reporting Expenditures**

The General Provisions and Assurances that accompany every grant application funded by or through TEA contains an assurance that grantees agree to comply with expenditure reporting requirements. The District will submit expenditure reports in the time and manner requested by TEA. TEA requires that districts and other grantees use a standard format for reporting expenditures for grants funded through TEA. Reports are submitted electronically through the automated Expenditure Reporting (ER) system by class/object code. The Program Guidelines for each RFA published by TEA and/or the Critical Events calendar provided on the TEA Grant Opportunities page for a specific program identify the required expenditure reporting dates. However, even though dates for submitting interim expenditure reports may not be specified, the District will submit expenditure reports more frequently, such as monthly, to indicate that grant activities and expenditures are occurring as planned and there are no major delays in the project.

Final expenditure reports are generally due 30 days after the ending date of the grant. If the grant program has a cost share or matching funds requirement, the District must also report the total cost share or matching funds in ER.

Each District employee who reports and/or certifies expenditures in ER is required to have a TEASE (TEA Secure Environment) username and password to access ER. (As of the writing of this template, TEA was in the process of migrating to a new secure environment, TEA Login (TEAL), which replaces the older TEASE. ER and eGrants will eventually be transferred to TEAL.) The District reports cumulative expenditures to date in ER, and the system automatically calculates the amount already paid to the District and the amount owed and generates a payment to the District.

When filing interim reports, the District will only report actual expenditures, and any expenditures that will be paid out within three business days once payment is received by the District. In addition, the District will comply with the cash management procedures described in II. Financial Management System, H. Federal Cash Management Policy/Procedures of this manual.

The Budget Analyst submits the reports in ER. Each report is certified by the Chief Financial Officer, an authorized official who attests that expenditures are true and correct. Effective July 1, 2015,
the fiscal reports requesting payment will include a certification signed/certified by an official who is authorized to legally bind the District. 2 CFR § 200.415. The certification reads as follows:

"By signing this report, I certify to the best of my knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the federal award. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, or false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812)."

See Federal Cash Management Policy/Procedures in this manual for more information on requesting grant payments and the “three-day rule,” as well as the calculation of interest earned on funds not paid out upon receipt.

The ER system automatically rejects expenditure reports if:

- The District is claiming expenditures in a class/object code not budgeted in the application.
- The total amount reported exceeds the total amount awarded.

TEA (or other agency administering the grant on behalf of TEA) reserves the right to require supporting documentation (such as an accounting ledger) that lists the individual expenditures by object code, as well as invoices, receipts, travel vouchers, and other expenditure documents for expenditures at any time during or after the grant period for as long as the records are retained according to requirements for record retention. The District will be required to reimburse all expenditures that are unsupported by appropriate documentation or found to be unallowable under the grant. Depending upon the severity of noncompliance with allowable cost principles, additional sanctions may be imposed, up to and including termination of the grant and refund of all unallowable costs.

In addition, failure to submit the expenditure reports according to the required reporting dates could cause the grantee to be identified as high risk and could result in additional sanctions. (See TEA Monitoring, Identification as a High-Risk Grantee in this manual.)

**Refunds Due to TEA**

If the final expenditure report indicates that a refund is due to TEA, within 30 days of notification that a refund is due, the District will submit a refund check to the following address:

Texas Education Agency—MSC
P.O. Box 13717
Austin TX 78711-3717

The District will write the name of the grant program and the NOGA ID number on the refund check and note the reason for the refund (e.g., due to an internal audit or an annual audit). Failure to comply with the requirements for submitting a refund within 30 days will result in an enforcement action by TEA to withhold future payments. 2 CFR § 200.338
**Grants from Other Awarding Agencies**
The District will submit expenditure reports to other awarding agencies in the time and manner requested by the agency. The District will comply with the cash management procedures described in the following section.

**Federal Cash Management Policy and Procedures**
Generally, grantees receiving state and federal grants from TEA receive payment from TEA by reporting cumulative expenditures (by class/object code) and requesting payment in TEA’s electronic Expenditure Reporting (ER) system. Specific expenditure reporting requirements are provided in TEA’s [General and Fiscal Guidelines](#) that accompany each Request for Application (RFA) from TEA. These guidelines are updated regularly and must be consulted on a regular basis. Payments through ER are deposited into the District’s depository bank by the state comptroller’s office within six to seven business days of the payment request (provided TEA receives any supporting documentation requested in a timely manner and there are no other complications with the automated system).

Two methods of payment are provided in federal regulations: advance and reimbursement. The District uses the reimbursement method for requesting grant payments from TEA and other awarding agencies.

**Reimbursement Method**
All reimbursements are based on actual disbursements (i.e., payments already made), not on obligations. The Budget Analyst will request reimbursement for actual expenditures incurred under the federal grants monthly or as specified by TEA or other awarding agency through TEA’s ER System (described above) or through other awarding agency’s system, such as the Department of Education’s G5 system, for direct grants. When using this method, the District will only request reimbursement for funds actually already paid out. Reimbursements of actual expenditures do not require interest calculations as detailed in the Advance Method section.

**Noncompliance with Cash Management Requirements**
Pursuant to the provisions of 2 CFR § 200.338, grantees that fail to comply with cash management requirements, including the repayment of interest earned, may be subject to the following special conditions or enforcement actions:

- Identification as a high-risk grantee, pursuant to the provisions of 2 CFR § 3474.10 and 2 CFR § 200.207, which may involve the imposition of special conditions and being placed on reimbursement basis only (District would not be able to draw down its own funds in the ER system without first submitting supporting documentation for expenditures)
- Temporarily withholding cash payments pending correction of the deficiency
- Disallowing all or part of a cost not in compliance
- Suspension or termination of the award
- Withholding further awards for future grants from TEA
- Debarment or suspension from receiving any future federal funds from any entity
- Other remedies that may be legally available
Procurement System

Module 5 of TEA’s Financial Accountability System Resource Guide outlines requirements and best practices related to the purchasing function. Reflecting state (and some federal) requirements for purchasing, Module 5 is based on statutes containing requirements for districts for competitive purchasing/contracting processes found in the Texas Education Code, Local Government Code, Texas Government Code, Texas Revised Civil Statutes, Texas Attorney General Opinions, federal regulations and other sources. The Financial Accountability System Resource Guide, Module 5, was written to provide information about purchasing and also be a ready reference regarding:

- Purchasing ethics
- Questions and answers on bidding and purchasing topics
- Example purchasing documents
- Purchasing laws
- Texas Attorney General Opinions
- Definitions of purchasing terms

According to Section 271.003(9), Local Government Code, “school district” means an independent school district, common school district, community college district, junior college district or regional college district organized under the laws of this state. Therefore, the District is required to comply with all requirements outlined in Module 5 and in state law.

In accordance with TEA’s purchasing policy established in Module 5, the District’s objective is to purchase the best products, materials, and services at the lowest practical prices within relevant statutes and policies. It is important to acquire goods and services for the best price through fair and open competition to protect the interest of the local, state, and federal government while still maintaining the desired quality and minimizing exposure to misuse of funds.

Also in accordance with Module 5, the District’s administrative procedures pertaining to purchasing goods and services shall reflect quality assurance and quality control, including an analysis of products provided through the procurement process, a review of services provided, and a review of vendor performance. Additionally, the District’s purchasing practices and procedures must comply with federal procurement standards, some of which are already incorporated into Module 5. It should be noted that some state requirements for purchasing are more restrictive than the federal requirements. Key state requirements that are more restrictive are noted in this section.

Refer to the District’s Purchasing Manual for policies and procedures related to the procurement of goods and services.

Conflict of Interest Requirements
Substantial state and federal requirements exist pertaining to standards of conduct and conflict of interest. It is the intent of the District for all employees, officers, or agents to conduct all activities associated with procurements in compliance with the highest ethical standards, including the avoidance of any real or perceived conflict of interest. It is also the intent of the District to impose
appropriate sanctions or disciplinary actions, including but not limited to termination and/or prosecution, for any employees or officers who violate any of these requirements.

**Standards of Conduct**

**State Requirements**

It is a serious breach of the public trust to subvert the public purchasing process by directing purchases to certain favored vendors, or to tamper with the purchasing process, whether it is done for kickbacks, friendship or any other reason. State law relating to violation of purchasing requirements imposes upon violators certain criminal penalties, which are found in Section 44.032, Texas Education Code, and Chapter 271.029, Local Government Code.

The following common standards of ethics shall govern the conduct of District employees involved in the purchasing function:

1. It is a breach of ethics to attempt to realize personal gain through public employment with a school district by any conduct inconsistent with the proper discharge of the employee's duties.

2. It is a breach of ethics to attempt to influence any public employee of a school district to breach the standards of ethical conduct set forth in this code.

3. It is a breach of ethics for any employee of a school district to participate directly or indirectly in a procurement when the employee knows that:
   - The employee or any member of the employee's immediate family has a financial interest pertaining to the procurement;
   - A business or organization in which the employee, or any member of the employee's immediate family, has a financial interest pertaining to the procurement; or
   - Any other person, business or organization with whom the employee or any member of the employee's immediate family is negotiating or has an arrangement concerning prospective employment is involved in the procurement.

4. Gratuities: It is a breach of ethics to offer, give or agree to give any employee or former employee of a school district, or for any employee or former employee of a school district to solicit, demand, accept or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing, or in any other advisory capacity in any proceeding or application, request for ruling, determination, claim or controversy, or other particular matter pertaining to any program requirement or a contract or subcontract, or to any solicitation or proposal therefore pending before this government. Acceptance of gratuities may be construed as a criminal offense. In addition, Texas law makes a gift (an item valued at $50 or more, cash of any amount, or a negotiable instrument of any value) to a public employee a Class A misdemeanor if the employee is someone who exercises some influence in the purchasing process of the governmental body. (Texas Penal Code, 36.09[d] and [h]). Refer to the District’s Purchasing Manual for policies and procedures related to the acceptance of gratuities.
5. Kickbacks: It is a breach of ethics for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor for any contract of a school district, or any person associated therewith, as an inducement for the award of a subcontract or order.

6. Contract Clause: The prohibition against gratuities and kickbacks prescribed above should be conspicuously set forth in every contract and solicitation therefore.

7. It is a breach of ethics for any employee or former employee of a school district knowingly to use confidential information for actual or anticipated personal gain, or for the actual or anticipated gain of any person.

The Comptroller has published purchasing guidance, titled the State of Texas Procurement and Contract Management Guide, that includes related ethics information. The Texas Local Government Code, Chapter 176, provides information regarding conflict-of-interest statements to be filed by vendors and certain school district employees. Refer to the Texas Ethics Commission for additional information and sample conflict of interest forms.

If a school district board member or other official has a substantial interest in a procurement, that person shall abstain from discussion and decisions regarding the award of the procurement contract. (See the Texas Local Government Code, Chapter 171, for definition of substantial interest.) In addition, the board member should disclose this substantial interest by filing an affidavit with the district.

**Federal Requirements**

In addition to the state requirements pertaining to standards of conduct and avoiding conflict of interest, in accordance with 2 C.F.R. § 200.18(c)(1), the District’s standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award, and administration of federal contracts include the following federal standards.

- No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

- The officers, employees, and agents of the District may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts, unless the gift is an unsolicited item of nominal value. (See state requirements above pertaining to defining “nominal value.”)

Refer to the District’s Purchasing Manual for additional policies and procedures related to written standards of conduct.

**Organizational Conflicts**

Refer to the District’s Purchasing Manual for policies and procedures related to organizational conflicts.
Disciplinary Actions
The District will impose appropriate sanctions or disciplinary actions, including but not limited to termination and/or prosecution, for any employee or officer who violates any of these requirements related to standards of conduct and conflict of interest. 2 CFR § 200.318(c)(1)
Refer to the District’s Purchasing Manual for policies and procedures related to disciplinary actions.

Mandatory Disclosure
Upon discovery of any potential conflict, the District will disclose in writing the potential conflict to TEA or other federal awarding agency in accordance with applicable TEA or other federal awarding agency policy. 2 CFR § 200.112.
In addition, the District will disclose, in a timely manner, in writing to TEA or other federal awarding agency, all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. 2 CFR § 200.113. Failure to make required disclosures can result in any of the remedies described in 2 CFR § 200.338, Remedies for Noncompliance, including Debarment and Suspension. Refer to the District’s Purchasing Manual for policies and procedures related to mandatory disclosure.

Full and Open Competition
All procurement transactions paid with federal funds are conducted in a manner providing full and open competition consistent with 2 C.F.R § 200.319. In an environment of full and open competition, no proposer or bidder has a competitive advantage over another. All potential proposers and bidders must be provided the same information and have the same opportunity to submit a bid or proposal. Providing a competitive advantage to one or more potential proposers or bidders over another can open up the potential for disputes and lawsuits that can be costly and can significantly delay the completion of projects.

In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals (RFPs) are excluded from competing for such procurements. The District does not engage in the following situations that may restrict full and open competition, including but not limited to:

- placing unreasonable requirements on firms in order for them to qualify to do business;
- requiring unnecessary experience and excessive bonding;
- noncompetitive pricing practices between firms or between affiliated companies;
- noncompetitive contracts to consultants that are on retainer contracts;
- organizational conflicts of interest;
- specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement; and
- any arbitrary action in the procurement process. 2 CFR § 200.319(a)

The District also complies with the following requirements in 2 CFR 200 to ensure full and open competition when purchasing with federal funds. Refer to the District’s Purchasing Manual for additional policies and procedures related to full and open competition.
Geographical Preferences Prohibited
The District conducts federal procurements in a manner that prohibits the use of statutorily or administratively imposed state or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. 2 CFR § 200.319(b). Accordingly, when purchasing with federal funds, the District does not give preference to a contractor/vendor which is located in Texas or the local or surrounding community simply due to the location. Nothing in this section preempts state licensing laws.

When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided an appropriate number of qualified firms, given the nature and size of the project, are left to compete for the contract.

Refer to the District’s Purchasing Manual for additional policies and procedures related to prohibiting geographical preferences.

Contracting with Small and Minority Businesses
The District takes all necessary affirmative steps to assure that historically underutilized businesses (HUBs), including minority businesses and women’s business enterprises, and labor surplus area firms are used when possible. 2 CFR § 200.321. To accomplish this, the District uses the following required affirmative steps:

- placing qualified small and minority businesses and women’s business enterprises on solicitation lists
- assuring that small and minority business, and women’s business enterprises are solicited whenever they are potential sources
- dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women’s business enterprises
- establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women’s business enterprises
- using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce, and
- requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed above.

Refer to the District’s Purchasing Manual for additional policies and procedures related to contracting with small and minority businesses.

Prequalified Lists
The District ensures that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. 2 CFR § 200.319(d). The District accomplishes this by conducting internet searches, including using vendor searches available through the Texas Comptroller of Public Accounts, and by using other less technologically advanced tools to locate
and identify potential contractors. Refer to the District’s Purchasing Manual for the sources consulted to determine an adequate number of qualified vendors.

Also, the District will not preclude potential bidders from qualifying during the solicitation period. The Director of Purchasing is responsible for reviewing prequalified lists and determining if they include an adequate number of qualified sources.

**Solicitation Language**

All solicitations will incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description will not, in competitive procurements, contain features which unduly restrict competition. The description will include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, will set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications will be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers will be clearly stated and will identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals. 2 CFR § 200.319(c) Refer to the District’s Purchasing Manual for policies and procedures related to ensuring this requirement is met.

**Federal Procurement System Standards**

In addition to avoiding conflicts of interest and ensuring full and open competition as described above, the District’s written procurement procedures for purchases made with federal funds reflect applicable state and local laws and regulations and conform to the following federal standards for procuring goods and services with federal funds. 2 CFR § 200.318

**Avoiding Acquisition of Unnecessary or Duplicative Items**

The District avoids the acquisition of unnecessary or duplicative items. Additionally, the District considers consolidating or breaking out procurements to obtain a more economical purchase. And, where appropriate, the District makes an analysis of leases versus purchase alternatives, and other appropriate analyses to determine the most economical approach. 2 CFR § 200.318(d)

These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. See II. Financial Management Standards, F. Expending Grant Funds, Determining Allowability of Costs, for written procedures on determining allowability. Refer to the District’s Purchasing Manual for policies and procedures related to avoiding the purchase of unnecessary or duplicative items.
Use of Intergovernmental Agreements
To foster greater economy and efficiency, the District enters into state and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services. 2 CFR § 200.318(e). This includes cooperative purchasing agreements as well as shared services arrangements (SSAs) where practical and beneficial. Cooperative purchasing programs provide awarded vendors that can be used to obtain price quotes (provided that the procurement was EDGAR compliant. Cooperative purchasing programs used by the District include, but are not limited to:

- Central Texas Purchasing Alliance (CTPA)
- Choice Partners (HCDE)
- Education Service Center, Region 12
- Houston Galveston Area Council (HGACBuy)
- Multi Region Purchasing Cooperative Region 10
- National Intergovernmental Purchasing Alliance (National IPA – formerly TCPN)
- National Joint Powers Alliance (NJPA)
- Purchasing Association of Cooperative Entities (PACE)
- State of Texas Coop Purchasing Program
- Texas Association of School Boards (Buyboard)
- The Interlocal Purchasing System and Texas-Arkansas Purchasing System (TIPS/TAPS)
- Texas Department of Information Resources (DIR)
- US Communities (USC)
Use of Federal Excess and Surplus Property and Procurement of Recovered Materials

The District considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs. 2 CFR § 200.318(f)

Procurement of Recovered Materials: In addition, the District complies with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. 2 CFR § 200.322. The requirements of section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition. The requirements apply to state and local governments, including school districts, and include the purchase of everyday items such as paper products, non-paper office products, office furniture, floor mats, and awards and plaques, as well as many other items, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000. Requirements also include:

- procuring solid waste management services in a manner that maximizes energy and resource recovery and
- establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

Pursuant to section 6002, the decision not to procure recovered materials must be based on a determination that such procurement items—

A. are not reasonably available within a reasonable period of time;

B. fail to meet the performance standards set forth in the applicable specifications or fail to meet the reasonable performance standards of the District; or

C. are only available at an unreasonable price. Any determination under subparagraph (B) shall be made on the basis of the guidelines of the Bureau of Standards in any case in which the material is covered by the guidelines.

Refer to the District’s Purchasing Manual for policies and procedures related to determining if any item being purchased is on EPA’s list of recovered materials and the steps that will be used to ensure the purchase complies with this requirement.

Awarding Contracts to Responsible Contractors

The District awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. The District considers such matters as contractor integrity and business ethics, compliance with public policy, ability to complete the project on time and in accordance with specifications, record of past performance, and the contractor’s financial and technical resources. 2 CFR § 200.318(h)

The District will check references where possible and engage in practical activities such as checking with the local Better Business Bureau and the Texas Attorney General’s office to ensure there are no outstanding complaints against the contractor.

The District will award a contract to a contractor who has the appropriate experience, expertise, qualifications, and any required certifications, necessary to perform the work. Contractors should also have the financial resources to sustain the project while the initial work is being completed.
and during each service period until he or she submits invoices for payment to the District as work is completed (for example, at the end of each month). Contractors should have the proper equipment or the capability to subcontract for the proper equipment necessary to complete the contracted work. For example, if the contractor is to develop curriculum guidelines on a computer, the contractor should already have his or her own computer with the appropriate software.

Debarment and Suspension: The District will not subcontract with or award sub-grants to any person or company who is debarred or suspended from receiving federal funds. The Purchasing Department Contract Specialist is required to check for excluded parties at the System for Award Management (SAM) website before any procurement transaction paid with federal funds. This list is located at: http://www.sam.gov/, 2 CFR Part 180 and 2 CFR Part 3485.

Refer to the District’s Purchasing Manual for policies and procedures related to awarding contracts to responsible contractors and the positions responsible.

State Rules for Selecting Vendors
In addition to federal standards for making awards only to responsible contractors, TEC § 44.031 establishes nine criteria that school districts must use in determining contract awards to vendors, whether using state, local, or federal funds. All nine criteria must be considered unless federal law prohibits it or is more restrictive as noted below. These criteria are as follows:

1. Purchase price
2. Reputation of the vendor and of the vendor’s goods or services
3. Quality of the vendor’s goods or services
4. Extent to which the goods or services meet the district’s needs
5. Vendor’s past relationship with the district
6. Impact on the ability of the district to comply with laws and rules relating to historically underutilized businesses
7. Total long-term cost to the district to acquire the vendor’s goods or services
8. For a contract for goods and services, other than goods and services related to telecommunications and information services, building construction and maintenance, or instructional materials, whether the vendor or the vendor’s ultimate parent company or majority owner:
   A. has its principal place of business in this state; or
   B. employs at least 500 persons in this state
   (Note: Federal requirements prohibit geographic preference when purchasing with federal funds. Therefore, this requirement cannot be used to select a contractor when the purchase is made with federal funds.)
9. Any other relevant factor specifically listed in the request for bids or proposals. Factors that a school district may consider under this criteria would include vendor response time and compatibility of goods/products purchased with those already in use in the district.
Contract Provisions
In all federally-funded contracts, the District includes the applicable provisions described in Appendix II to 2 CFR Part 200 – Contract Provisions for non-Federal Entity Contracts under Federal Awards. 2 CFR § 200.326. Provisions include the following:

1. All contracts paid from state or federal grants administered by TEA must retain copyright for the Texas Education Agency (TEA) and for the federal government (if a federally funded contract) unless otherwise negotiated in writing with TEA. Pursuant to the provisions in 2 CFR § 200.315, title to intangible property vests in the District as long as such property is used for authorized purposes. However, TEA and the federal awarding agency reserve a royalty-free, nonexclusive and irrevocable right to reproduce, publish, or otherwise use the work for federal purposes, and to authorize others to do so.

2. All contracts greater than $150,000 must address administrative, contractual, or legal remedies.

3. All contracts greater than $10,000 must address termination for cause and for convenience.

4. All construction contracts must include the Equal Employment Opportunity clause.

5. All prime construction contracts in excess of $2,000 must include a provision for compliance with the Davis-Bacon Act and its implementing regulations.

6. All contracts in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with the Contract Work Hours and Safety Standards Act and its implementing regulations.

7. All contracts that meet the definition of “funding agreement” and where the District wishes to enter into a contract with a small business firm or nonprofit organization must include a provision for compliance with the Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts, and Cooperative Agreements.

8. All contracts and sub-grants greater than $150,000 must contain a provision for compliance with the Clean Air Act and the Federal Water Pollution Control Act and their implementing regulations.

9. All contracts must include compliance with the Energy Policy and Conservation Act pertaining to mandatory standards and policies relating to energy efficiency contained in the state energy conservation plan.

10. A contract or subcontract must not be made to any party that is debarred or suspended from receiving federal funds.

11. Lobbying Certification and Disclosure of Lobbying (Byrd Anti-Lobbying Amendment) – All contractors that apply or bid for an award of $100,000 or more must file the required Lobbying Certification that it has not and will not use any federal funds to lobby. If non-federal funds are used to lobby, the contractor must complete the Disclosure of Lobbying and forward the disclosure to the next tier, who must forward it through each tier to the federal awarding agency.

12. All contracts greater than $10,000 must include compliance with section 6002 of the Solid Waste Disposal Act and its implementing regulations. 2 CFR § 200.322

The District also adheres to the best practices recommended by TEA as it pertains to professional services contracts paid from federal grants. See Contract Administration.
Maintenance of Procurement Records

Per Module 5 of FASRG,

“accurate record-keeping and documentation should be a fundamental element of the procurement process. Precise and systematic record-keeping and records management withstands the constant scrutiny of various interested groups including vendors, the general public, and outside agencies as well as internal groups which are the users or customers of the purchasing system. This records management function should support the school district’s overall information management plan described in the Data Collection and Reporting module and generally provide for:

- Both the flow and retention of forms including requisitions, purchase orders, petty cash and cash reimbursement receipts.
- Full documentation of all competitive procurements with comprehensive competitive procurement files containing specifications, competitive procurement advertisement, pre-competitive procurement conference minutes (as appropriate), competitive procurements submitted, competitive procurement tabulation, board minutes indicating competitive procurement awards (or a similar award notice) and related records.
- Full documentation of procurement procedures utilized to obtain goods and services through competitive sealed proposals, design/build contracts and other procurement options.
- Documentation of price quotations obtained when purchasing with federal funds.

The records management function may rely on electronic formats including automated systems, diskettes, CD-ROM, imaging and microfiche. Alternatively, it may use hard copy or a combination of methods.”

Therefore, the District will select the methods best suited to its needs. In addition, in accordance with federal standards, the District maintains records sufficient to detail the history of all federal procurements, including but not necessarily limited to, the following:

- the method of procurement and the rationale for choosing that method (i.e., the reason the District chose procurement by micro-purchase, small purchase procedures, sealed bid, competitive proposals, or noncompetitive proposals)
- the type of contractual agreement or instrument used and rationale for using that type
- the process used to either select the contractor or to reject the contractor (what was the process and what were the factors considered in selecting or rejecting the contractor; this must be in writing)
- the basis used for determining the price of the contract (including a cost or price analysis), and
- verification that the contractor is not suspended or debarred. 2 CFR § 200.318(i)

Please see section VII, Record Keeping for more information on the District’s records management policies.

Time and Materials Contracts

Time and materials contracts are a hybrid of fixed-price and cost-reimbursement contracts. They present the highest risk to the government and the lowest risk to the contractor. Therefore, they
are the least desirable for the federal or state government and are rarely awarded. 2 CFR § 200.318(j)

Time and materials type contract means a contract whose cost to the District is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. In other words, the contractor is saying it will work until the task is completed, but it has no idea how long it will take, nor how much money it will cost. This obviously can be very cost prohibitive and can encourage fraudulent behavior by some unscrupulous contractors. Therefore, federal regulations permit the use of a time and materials contract only after a determination is made that no other contract is suitable and only if the contract includes a ceiling price that the contractor exceeds at its own risk. Further, the District must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls. The District may use a time and materials type contract paid with federal funds in accordance with the above and only (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk.

Refer to the District’s Purchasing Manual for policies and procedures related to how (i.e., procedures/steps) and when (i.e., under what circumstances) the District may use or prohibit this type of contract and the position responsible for determining when it is appropriate to use.

**Settlements of Issues Arising Out of Procurements**

The District alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements made with federal funds. 2 CFR § 200.318(k). These issues include, but are not limited to, source evaluation (i.e., analyzing information sources in order to assess their credibility), protests, disputes, and claims. These standards do not relieve the District of any contractual responsibilities under its contracts. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction. The Director of Purchasing in the District is the primary office responsible for handling and coordinating the settlement of any contractual and administrative issues arising out of procurements.

**Protest Procedures to Resolve Disputes**

The District maintains protest procedures to handle and resolve disputes relating to procurements made with federal funds and, in all instances, discloses information regarding the protest to TEA or other awarding agency. 2 CFR § 200.318(k). The protestor must exhaust all administrative remedies with the District before pursuing a protest with a federal agency. The Director of Purchasing in the District is the primary office responsible for handling and coordinating any disputes relating to procurements.

Refer to the District’s Purchasing Manual for policies and procedures related to how potential vendors receive notice of ability to protest, what position/office receives the protest; what
position/office reviews the protest; whether a report of the review is provided to the complainant; and timeframes for both making the protest and reviewing the protest.

Responsibility for Purchasing
The Director of Purchasing is responsible for overseeing all procurements of the District. This includes development and revision of the policies and procedures related to the purchasing function, training staff in how to use and implement the policies and procedures and monitoring for employee compliance with policies and procedures. It also includes reporting any potential or realized conflicts of interest to TEA and implementing the appropriate sanctions or disciplinary actions for employees who fail to comply with the policies and procedures.

Refer to the District’s Purchasing Manual for policies and procedures related to what position has the authority to initiate purchases, which department will be responsible for processing contracts/purchase orders, and who will make the final determination on any proposed purchase where budgetary or other conditions may result in denial.

Purchase Methods When Using Federal Funds
In some situations, the federal requirements pertaining to purchasing methods are more restrictive than state of Texas requirements. In other situations, the state requirements are more restrictive than the federal requirements. Therefore, when determining the method that must be used in a particular purchasing situation, the more restrictive method or requirement must be used in each case.

State Requirements Related to Purchasing Methods
Unless otherwise more restrictive in federal law for procurement with federal funds, the District complies with the purchasing methods prescribed in TEA’s FASRG and in state law for all purchases regardless of the funding source (i.e., state, local, or federal).

Texas Education Code § 44.031 (a) states that all school district contracts for the purchase of goods and services valued at $50,000 or more in the aggregate, for each 12-month period are to be made by the method that provides the best value to the district. This does not apply to contracts for the purchase of produce or vehicle fuel. Refer to the District’s Purchasing Manual for policies and procedures related to the District’s threshold.

The law enumerates several options for competitive procurement that are available to school districts. One of these options must be used for contracts expected to equal or exceed $50,000 regardless of the funding source (i.e., state, local, or federal):

1. Competitive bidding
2. Competitive sealed proposals
3. Request for proposals, for services other than construction services
4. Inter-local contracts
5. Design-build contracts
6. Contract to construct, rehabilitate, alter, or repair facilities that involve using a construction manager
7. A job order contract for the minor construction, repair, rehabilitation, or alteration of a facility
(8) Reverse auction procedure as defined by Section 2155.062(d), Government Code; or
(9) The formation of a political subdivision corporation under Section 304.001, Local
Government Code."

Professional and Consulting Services
Several exceptions to following one of these competitive procurement methods are identified in
TEC § 44.031. This section does not apply to a contract for professional services rendered, including
services of an architect, attorney, certified public accountant, or engineer (which must be
selected in accordance with Chapter 2254 of the Government Code.) A school district may, at
its option, contract for professional services rendered by a financial consultant or a technology
consultant in the manner provided by Section 2254.003, Government Code, in lieu of the methods
provided by this section.

The federal cost principles (specifically in 2 CFR § 200.459) broadly define professional and
consultant services as those services rendered by persons who are members of a particular
profession or possess a special skill, and who are not officers or employees of the District.
Professional services are further defined in the Handbook on Purchasing as “infrequent, technical,
and/or unique functions performed by independent contractors whose occupation is the
rendering of such services.” Finally, professional services as described in Attorney General Opinion
DM-418, referenced in the Handbook, includes not only the services of lawyers, physicians, or
theologians, “but also those members of disciplines requiring special knowledge or attainment
and a high order of learning, skill, and intelligence including guest speakers, consultants, writers,
and artists.” A professional is only one who “is a member of [a] discipline with widely accepted
standards of required study or specified attainments in special knowledge as distinguished from
mere skill.” Id. (quoting Wooddell, 230 S.E.2d at 470).

Certain professional services, specifically those covered under Chapter 2254, Subchapter A of the
Texas Government Code, (i.e., architects, CPAs, registered engineers, optometrists, physicians,
surgeons, land surveyors, landscape architects, registered nurses and state certified or state
licensed real estate appraisers) are not selected based on competitive bidding. Rather, they must
be selected based on demonstrated competence and qualifications obtained through a
Request for Qualifications or similar document. After the District makes its selection based on
demonstrated competence and qualifications, a fair and reasonable price for the services is then
negotiated and agreed upon.

Consulting services: According to FAR (Module 1 of TEA’s FASRG), consulting services
“refer to the practice of helping districts to improve performance through analysis of
existing problems and development of future plans. Consulting may involve the
identification and cross-fertilization of best practices, analytical techniques, change
management and coaching skills, technology implementations, strategy development, or
operational improvement. Consultants often rely on their outsider’s perspective to provide
unbiased recommendations. They generally bring formal frameworks or methodologies to
identify problems or suggest more effective or efficient ways of performing tasks.
Consulting services cover all functional areas such as instruction, curriculum, and
administration.
Consulting does not include a routine service/activity that is necessary to the functioning of a school district’s programs, such as hiring additional people on contract to supplement present staff. It also does not apply to services provided to conduct organized activities (such as training or other similar educational activities.)”

The District shall use a consultant only if the services of the consultant are necessary to accomplish the objectives of the particular program/project, the fees are reasonable in cost, and the District cannot meet the needs by using an employee. 34 CFR 75.515. For example, an employee may have the knowledge, skills, and capability to provide the consulting services, but the employee may not have the time in an already-busy schedule to provide the consulting services in the time required.

Under IRS rules, a person cannot work part of the time as an employee, and part of the time as a contractor/consultant. If an employee provides additional services above and beyond his or regular contracted hours and regular job responsibilities, the employee is paid extra-duty pay in accordance with the District’s employee compensation policy, and not a fee based on a contract.

Allowable Professional Service Costs
Professional and consultant services are allowable to be purchased with federal funds when reasonable and when the District considers the following factors:

- The nature and scope of the service rendered in relation to the service required;
- The necessity of contracting for the service, considering the District’s capability in the particular area;
- The past pattern of such costs, particularly in the years prior to federal awards;
- The impact of federal awards on the District’s business (i.e., what new problems have arisen);
- Whether the proportion of federal work to the District’s total business is such as to influence the District in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under federal awards;
- Whether the service can be performed more economically by direct employment rather than contracting;
- The qualifications of the individual or concern rendering the service and the customary fees charged, especially on non-federally funded activities; and
- The adequacy of the contractual agreement for the service (e.g., description of the service, estimate of time required, rate of compensation, and termination provisions).

Purchasing Goods or Services with Federal Funds
In accordance with 2 CFR Part 200, Subpart E, Cost Principles, all purchases made with federal funds, regardless of the method of purchase, must be determined to be:

- reasonable in cost (comparable to current fair market value)
- necessary to carry out the objectives of the federal program
- allowable under the federal cost principles and the terms and conditions of the award
- allocable (chargeable or assignable) to the grant program based on the relative benefits received
Prior to each purchase and for each proposed purchase, on each purchase order, purchase requisition, contract, invoice, receipt, travel voucher, or other documentation for obligations, encumbrances, or expenditures, the District documents these criteria are met in the following manner regardless of the purchase method used:

The grant manager assigned to the grant verifies the proposed purchase is necessary to accomplish the objectives of the grant program in that the expenditure is vital or required for the grant program to be successful verifying that the purchase is tied to a goal, objective and strategy in an approved campus improvement plan or the district improvement plan. The Purchasing Department verifies the appropriate procurement method for the purchase.

**Five Methods for Procuring with Federal Funds**

2 CFR § 200.320 provides for five methods that must be used when making purchases with federal funds. In some cases, these federal methods are less restrictive than state requirements; in other cases, the state requirements are more restrictive than these federal methods. Additionally, if local requirements are more restrictive than either state or federal, then local requirements must be followed. In all cases, the more restrictive requirements or methods must be followed when making purchases with federal funds.

The type of purchase method and procedures required depends on the cost (and type, in some cases) of the item(s) or services being purchased.

- Micro-purchase
- Small purchase procedures
- Sealed bids
- Competitive proposals
- Noncompetitive proposals (sole source)

Refer to the District’s Purchasing Manual for policies and procedures related to local procurement rules.

**Micro-Purchases (Purchases up to $10,000)**

Federal methods provide for procurement by micro-purchase. Micro-purchase is defined in 2 CFR § 200.320(a) as a purchase of supplies or services using simplified acquisition procedures, the aggregate amount of which does not exceed $10,000. The micro-purchase method is used in order to expedite the completion of its lowest-dollar small purchase transactions and minimize the associated administrative burden and cost.

In accordance with federal requirements, micro-purchases may be awarded without soliciting competitive quotations if the District considers the price to be reasonable. Also, when using federal funds, to the extent practicable, the District must distribute micro-purchases equitably among qualified suppliers. Because of the annual aggregate limit and the size of the District, micro-purchases will be used on an exception basis, and the small purchase procedure is recommended.

**Small Purchase Procedures (Purchases between $10,001 and $49,999 in the Aggregate)**

The federal threshold for small purchase procedures is $250,000. 2 CFR § 200.320(b). However, with some exceptions noted in TEC § 44.031, the state threshold for all school district contracts that do
not require competitive bidding is less than $50,000 in the aggregate. Therefore, the more restrictive state threshold of less than $50,000 must be followed.

Small purchase procedures (as defined in 2 CFR § 200.320[b]) may be used in those relatively simple and informal procurement methods for securing nonprofessional services, supplies, or other property that do not cost more than $50,000.

For purchases funded from state or local funds, to obtain the most competitive price, a district, may at its option, obtain price quotes for items costing less than $50,000. Per Module 5, the district’s purchasing procedures should clearly define the lower figure for which quotes are required and obtain and retain written verification of the prices quoted. Unlike the mandatory competitive procurement described for purchases over $50,000, if an item to be paid from state or local funds costs less than $50,000, a district may utilize price quotations to stimulate competition and to attempt to receive the most favorable pricing.

However, if using federal funds to purchase goods or services, price or rate quotations must be obtained from an adequate number of qualified sources for all purchases up to $49,999. Such price or rate quotations must be documented in writing, and the District must demonstrate that price or rate quotations were obtained from an adequate number of qualified sources.

The Purchasing Department recommends a minimum of three written quotes from awarded vendors for small purchases. Additionally, a federal fund compliance form must be used to:

1. Show compliance with EDGAR requirements
2. Provide justification if the lowest quote was not selected

The approved compliance form and price quotes shall be attached to the requisition in the District’s financial system for record keeping purposes. An awarded vendor is defined as a vendor that has completed the competitive procurement process for qualifications, discounts, and/or line-item type purchases. Awarded vendors and compliance forms can be found on the Purchasing Department’s SharePoint site.

**Purchases $50,000 or More in the Aggregate**

Categories and Commodity Codes

The term “aggregate,” as used in the TEC, § 44.031(a), can be defined as the total sum of demand for desired or “like” goods and services that in normal purchasing practices would be made in one purchase over a 12-month period for all campuses and departments within the school district. The District’s fiscal year falls September 1 – August 31. The District is able to track purchases within the finance system by a pre-determined set of categories which can be located on the District’s Approved Vendor List through the Purchasing department website.

According to Texas law, one of the following competitive methods must be used for purchases of $50,000 or more in the aggregate:

1. Competitive bidding
2. Competitive sealed proposals
3. Request for proposals, for services other than construction services
(4) Inter-local contracts
(5) Design-build contracts
(6) Contract to construct, rehabilitate, alter, or repair facilities that involve using a construction manager
(7) A job order contract for the minor construction, repair, rehabilitation, or alteration of a facility
(8) Reverse auction procedure as defined by Section 2155.062(d), Government Code; or
(9) The formation of a political subdivision corporation under Section 304.001, Local Government Code.

Each of these competitive methods is described more thoroughly in Module 5 of FASRG.

In addition, one of the three following methods must be used, depending on the circumstance described below, when purchasing with federal funds: sealed bids (formal advertising); competitive proposals; or noncompetitive proposals (sole source).

Sealed Bids (Formal Advertising)
Bids are publicly solicited, and a firm fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming to all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the following conditions apply:

- A complete, adequate, and realistic specification or purchase description is available;
- Two or more responsible bidders are willing and able to compete effectively for the business; and
- The procurement lends itself to a firm fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.

If sealed bids are used, the following requirements apply:
- Bids must be solicited from an adequate number of known suppliers, providing them sufficient response time prior to the date set for opening the bids. The invitation for bids must be publicly advertised.
- The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond.
- All bids will be opened at the time and place prescribed in the invitation for bids. The bids must be opened publicly.
- A firm fixed-price contract award must be made in writing to the lowest responsive and responsible bidder.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

Competitive Proposals
A competitive proposal is normally used with more than one source submitting an offer, and either a fixed price or a cost-reimbursement type contract is awarded. (A cost reimbursement contract...
reimburses the contractor for actual costs incurred to carry out the contract.) Competitive proposals are generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

- Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical.
- Proposals must be solicited from an adequate number of qualified sources.
- The District must have a written method for conducting technical evaluations of the proposals received and for selecting recipients.
- Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

When using federal funds, the District may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort. An evaluation will be completed by no less than three district employees that are familiar with the specifications. The Purchasing Department will maintain the scorecard/rubric for the evaluation committee. Upon review of the proposals and the evaluation criteria, evaluation committee members will grade the responses. If there is only one vendor response, a cost analysis must be conducted to prove cost reasonableness. EDGAR (2 CFR 200.323(b)). The District may conduct interviews/demonstrations as a second part of the evaluation process. Upon interviews/demonstrations, new criteria would be established by the Purchasing Department. All criteria should be presented in advance of the interviews/demonstrations to the participating vendors.

**Noncompetitive Proposals (Sole Sourcing)**

Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used when using federal funds only when one or more of the following circumstances apply:

- The item is available only from a single source and an equivalent cannot be substituted. This must be documented.
- The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation.
- TEA (or other federal awarding agency) expressly authorizes noncompetitive proposals in response to a written request from the District.
- After solicitation of a number of sources, competition is determined inadequate.

Additionally, state requirements related to sole source purchasing are, in some ways, more restrictive. In addition to the federal requirements above, sole source purchases must meet established criteria:
• Identification and confirmation that competition in providing the item or product to be purchased is precluded by the existence of a patent, copyright, secret process or monopoly;
• A film, manuscript, or book;
• A utility service, including electricity, gas, or water; and
• A captive replacement part or component for equipment.

According to state requirements, sole source does not apply to mainframe data-processing equipment and peripheral attachments with a single item purchase price in excess of $15,000.

In all cases, the District will obtain and retain documentation from the vendor which clearly delineates the reasons which qualify the purchase to be made on a sole source basis.

Refer to the District’s Purchasing Manual for policies and procedures related to when and how the District uses the noncompetitive proposal method.

Cost/Price Analysis for Federal Procurements in Excess of $150,000
In accordance with the requirements in 2 CFR § 200.323, the District will make independent estimates of the goods or services being procured before receiving bids or proposals to get an estimate of how much the goods and services are valued in the current market.

To accomplish this, after bids and proposals are received, but before awarding a contract, the District conducts either a price analysis or a cost analysis, depending on the type of contract, in connection with every procurement with federal funds in excess of $150,000. The method and degree of analysis is dependent on the facts surrounding the procurement situation; however, the District will come to an independent estimate prior to receiving bids or proposals. 2 CFR § 200.323(a). The cost analysis or price analysis, as appropriate for the situation, will be documented in the procurement files.

Accordingly, the District performs a cost or price analysis in connection with every federal procurement action in excess of $150,000, including contract modifications, as follows:

Cost Analysis ➔ Non-competitive Contracts: A cost analysis involves a review of proposed costs by expense category, and the federal cost principles apply, which includes an analysis of whether the costs are allowable, allocable, reasonable, and necessary to carry out the contracted services. In general,
• A cost analysis must be used for all non-competitive contracts, including sole source contracts.
• The federal cost principles apply.
• All non-competitive contracts must also be awarded and paid on a cost-reimbursement basis, and not on a fixed-price basis.
• In a cost-reimbursement contract, the contractor is reimbursed for reasonable actual costs incurred to carry out the contract.
• Profit must be negotiated as a separate element of the price in all cases where there is no competition.
When performing a cost analysis, the Purchasing Department negotiates profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor’s investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work. 2 CFR § 200.323(b).

**Price Analysis ➔ Competitive Contracts:** A price analysis determines if the lump sum price is fair and reasonable based on current market value for comparable products or services. In general,

- A price analysis can only be used with competitive contracts and is usually used with fixed-price contracts. It cannot be used with non-competitive contracts.
- Compliance with the federal cost principles is not required for fixed-price contracts, but total costs must be reasonable in comparison to current market value for comparable products or services.
- A competitive contract may be awarded on a fixed-price basis or on a cost-reimbursement basis. If awarded on a cost-reimbursement basis, the federal cost principles apply and costs are approved by expense category, and not a lump sum.

Costs or prices based on estimated costs for contracts are allowable only to the extent that costs incurred, or cost estimates included in negotiated prices would be allowable costs under the federal cost principles.

Refer to the District’s Purchasing Manual for policies and procedures related to determining which analysis will be conducted, how each analysis will be conducted, the timing, and the positions responsible.

**Purchase Cards (District-Issued Credit Cards)**
The use of district-issued credit cards or procurement cards is carefully controlled and monitored to prevent fraud, waste, and abuse. The District superintendent, business manager, human resources director, and procurement director work together to set and enforce policies and procedures. Misuse and abuse will not be tolerated.

In accordance with suggested procedures in Module 5 of FASRG, the District:

- Holds reviewers of credit card purchases to the same standards as cardholders.
- Applies the same set of rules to all card users, although spending limits may vary.
- Restricts card usage by spending limits, unauthorized merchant category codes, and time of use to business hours.
- Issues cards to employees only after they have completed training on the purchasing card program.

**Segregation of Duties**

- Identifies certain employees to be cardholders and others within the same department to be reviewers of the cardholders’ purchases.
- Does not allow the same employee to buy, receive, approve, and reconcile card purchases.
- Has different employees set up cardholders and reviewers in the P-card system and the banking system.
Cardholders

- Requires cardholders to turn in detailed receipts in accordance with policies and documenting the business reason. Restaurant receipts must include line-by-line detail of the order.
- Requires cardholders to complete training prior to receiving a card and acknowledge in writing receipt of the policy and procedure manual.

Reviewers

- Revokes a department’s card privileges if a departmental reviewer does not review and approve transactions according to policy.
- Requires the reviewers to call the employee immediately upon noticing a questionable transaction rather than waiting for the due date of receipts.
- Requires the reviewers to complete training prior to reviewing transactions and acknowledging in writing receipt of the policy and procedure manual.
- Reviewers are responsible for 4 to 10 cardholders at most in order to be effective.

Monitoring and Oversight

- Is selective when issuing cards—focus on repetitive, small-dollar purchases.
- Keeps limits as low as possible to accommodate normal business needs. If there is a need to allow for emergency purchases, certain employees can have a higher limit.
- Card reviewers must follow the same high standards applied to cardholders.
- The business office staff reviews the work of the card reviewers, and the list of P-card users is reviewed annually.
- Uses the software to review the average spent by cardholder, purchases from unauthorized suppliers, purchases shipped to the cardholder’s home, and purchase amounts slightly below purchase limits.
- Reviews reports provided by the p-card programs such as declined authorizations report, disputes report, and lost/stolen card report which can reveal employees in need of additional training or attempting to misuse the card.
- Reviews district-wide activity periodically to identify frequently used vendors or products to consider negotiating volume discounts in order to obtain best prices for the district.
- Encourages staff to contact the hotline used to report any fraud.

Each credit card transaction must be properly accounted for. Refer to Documentation Associated with Using District Credit/Pro Cards, for specific information related to the proper accounting of credit card purchases.

Refer to the District’s Purchasing Manual for policies and procedures related to the purchase card policy.

Contract Administration

The District maintains the following oversights to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. 2 CFR § 200.318(b). Refer to the District’s Purchasing Manual for policies and procedures related to monitoring contractor performance.
To ensure proper administration of contracts and any sub-grants that may be awarded by the District, the District uses the following guidelines to determine whether each agreement it makes for the disbursement of federal funds is a contract, whereby funds are awarded to a contractor, or a sub-award, whereby funds are awarded to a sub-recipient. The substance of the relationship is more important than the form of the written agreement. 2 CFR § 200.330

**Sub-awards/Sub-grants**

A sub-award/sub-grant is for the purpose of carrying out a portion of a federal award and creates a federal assistance relationship with the sub-recipient. The District determines who is eligible to receive what federal assistance, and a sub-recipient/sub-grantee:

- Has its performance measured in relation to whether objectives of a federal program are met
- Has responsibility for programmatic decision making
- Is responsible for adhering to applicable federal program requirements, and
- In accordance with the sub-grant agreement, uses the federal funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the District.

**Contracts**

A contract is for the purpose of obtaining goods or services for the District’s own use and creates a procurement relationship with the contractor. A contractor:

- Provides goods and services within normal business operations
- Provides similar goods or services to many different purchasers
- Normally operates in a competitive environment
- Provides goods or services that are ancillary to the operation of the federal program, and
- Is not subject to compliance requirements of the federal program as a result of the contract, though similar requirements may apply for other reasons.

The District complies with the following best practices recommended by TEA for all professional services contracts paid with federal funds:

1. The effective dates (i.e., beginning and ending dates) of the contract are within the effective dates of the federal award as stated on TEA’s NOGA. A contract may be negotiated prior to the effective date of the award, but it may not be signed or be effective until on or after the effective date stated on the NOGA.
2. The District may sign a letter of intent with the potential contractor prior to the issuance of the NOGA. The letter of intent must contain a provision that the pending contract is contingent upon receipt of the specific NOGA.
3. To ensure the potential contract is approved by TEA, the contract shall not be signed until after the NOGA is received by the District.

   a. All services will be completed during the effective dates of the contract.
   b. All services will be paid only upon receipt of a proper invoice that coincides with the contract upon verification that the services were satisfactorily performed in
accordance with the description in the contract. For ongoing services, payment may be made at the end of every month upon receipt of the invoice. Contractors will not be paid in advance.

c. The contract specifies that the invoice provided by the contractor will include the list of services provided, dates of services, and location(s) where services were provided during the billing period.

d. The District complies with the regulations pertaining to procurement in 2 CFR § 200.318 - .323.

e. The District complies with the provisions in 2 CFR § 200.459 pertaining to allowable professional service costs.

f. The contract identifies the funding source(s) that will be charged for the services provided, including the specific amount and/or percentage of the total contract amount to be charged to each funding source.

g. The contract identifies and lists only reasonable, necessary, and allocable services to be provided in accordance with the funding sources that will be charged.

h. The administrative costs charged to the grant in the contract must be reasonable and must comply with any statutory limitations for administrative costs specified in the federal program funding source.

Additionally, the District complies with the Standards of Conduct and Conflict of Interest policies and procedures related to procurement, including the mandatory disclosure of any potential or real conflicts of interest. (See section III. Procurement System, A. Conflict of Interest Requirements.)

**Documentation for Contracts**

The District maintains the following written documentation, at a minimum, for each contract paid with federal funds:

1. A copy of the written, signed contract/agreement for services to be performed
2. The rationale or procedure for selecting a particular contractor
3. Evidence the contract was made only to a contractor or consultant possessing the ability to perform successfully under the terms and conditions of the contract or procurement
4. Records on the services performed – date of service, purpose of service – ensuring that services are consistent and satisfactorily performed as described in the signed contract or purchase order
5. Documentation that the contractor was not paid before services were performed, and
6. Records of all payments made (such as a spreadsheet or report generated from the general ledger), including the total amount paid to the contractor.

**Payment Only After Services Are Performed**

For both state and federally funded contracts, it is not permissible under Texas law to pay a contractor or consultant in advance of performing services. Advance payment to contractors is considered “lending credit” to the contractor and is prohibited under the Texas Constitution, Article 3, §§ 40 and 52. For ongoing services that occur monthly, payment can be made at the end of every month (based on a proper invoice submitted by the contractor and verification of work performed) for services performed during the month, or some other similar arrangement. Consultants and contractors will not be paid without having a properly signed and dated contract or other written agreement in place which clearly defines the scope of work to be performed, the
beginning and ending dates of the contract, and the agreed-upon price. The contract should also include a description of the payment procedures.

Upon performance of services (monthly or upon completion of services), the contractor is required to submit an invoice to the District that contains at a minimum the following:
- a clear identification of the contractor/consultant, including name and mailing address
- a corresponding contract (or written agreement) number, if applicable
- the dates (beginning and ending date) during which the services were performed (i.e., billing period)
- a description of the services/activities completed during the billing period
- the total amount due to the contractor for the billing period

By submitting a properly prepared invoice, the contractor is certifying that it is true and correct.

**Verification of Receipt of Goods and Services Provided by Contractors**
If the purpose of the contract or purchase order is to deliver goods, the Director of Purchasing will verify that the quantity and quality of goods were received as specified in the contract/purchase order. The receiving report and procedures used in all other state/local purchases will be used for all federal purchases. Refer to the District’s Purchasing Manual for policies and procedures related to verifying receipt of goods in accordance with the contract/purchase order.

If the purpose of the contract is to purchase services, the Director of Purchasing will verify that the quality and scope of services were received as specified in the contract.

**Prompt Payment to Vendors/Contractors**
The District pays all vendors/contractors within 30 days of receipt of a proper invoice and the receipt of the goods or services in accordance with the Texas Prompt Payment Act, Government Code, Chapter 2251, Subchapter A, for all contractors, and Property Code, Chapter 28 for Construction Contractors.

**Submission of Procurement System**
In accordance with 2 CFR § 200.324(b), the District will make available upon request from TEA all procurement documents for pre-procurement review, such as requests for proposals or invitations for bids, or independent cost estimates.
In addition, the District may request (in accordance with the process established by TEA) that its procurement system be reviewed by TEA to determine whether the system meets federal standards in order for the system to be certified. The District may also self-certify its procurement system in accordance with the provisions in 2 CFR § 200.324(c), which does not preclude TEA’s right to survey the system.

**Property Management Systems**

**Property Classifications**
Equipment means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the
lesser of the capitalization level established by the District for financial statement purposes, or $5,000. 2 CFR § 200.33. The District’s capitalization level is $5,000.

Supplies means all tangible personal property other than those described in §200.33 Equipment. A computing device is a supply if the acquisition cost is less than $5,000, regardless of the length of its useful life. 2 CFR § 200.94.

Computing devices means machines used to acquire, store, analyze, process, and publish data and other information electronically, including accessories (or “peripherals”) for printing, transmitting and receiving, or storing electronic information. 2 CFR § 200.20.

Capital assets means tangible or intangible assets used in operations having a useful life of more than one year which are capitalized in accordance with GAAP. Capital assets include:

- Land, buildings (facilities), equipment, and intellectual property (including software) whether acquired by purchase, construction, manufacture, lease-purchase, exchange, or through capital leases; and
- Additions, improvements, modifications, replacements, rearrangements, reinstallations, renovations or alterations to capital assets that materially increase their value or useful life (not ordinary repairs and maintenance). 2 CFR § 200.12.

Inventory Procedure
All District assets are received and processed by the Distribution center. The Distribution center warehouse personnel inspect the assets and ensure the items match the purchase order. The Distribution center is responsible for maintaining all receipt records associated with the assets received. All controlled and capitalized assets are separated and property management is notified. The property management coordinator or the property book custodian will verify the assets and place barcodes on the assets. Transportation personnel pick up the assets from the warehouse and deliver them to the campuses and departments. Authorized representatives from each campus or department sign for the controlled and capitalized assets. The property book custodian updates the asset record in TEAMS, confirms the asset, and adds the asset to the organization’s inventory. A copy of the signed customer receipt is placed in the organizational record folder.

Inventory Records
All assets purchased with federal funds will follow the same receiving process as other assets. The only difference is the federally funded assets will be barcoded with a green barcode that identifies the equipment as federally funded. The assets will also be identified in TEAMS by a “Y” code for federal and the account code will reflect that the asset was purchased with federal funds. The property book custodian updates the following relevant data into TEAMS when the asset is created.

- Serial number or other identification number
- Source of funding for the property
- Who holds title*
- Acquisition date and cost of the property
- Percentage of federal participation in the project costs for the federal award under which the property was acquired
- Location, use, and condition of the property, and
- Any ultimate disposition data including the date of disposal and sale price of the property.
  *Pursuant to federal regulations, the District holds a conditional title for equipment purchased with federal funds unless a statute specifically authorizes a federal agency to vest title in the District without further obligation to the federal government. Title will vest in the District as long as:
  - the District uses the equipment for the authorized purposes of the project until funding for the project ceases, or until the property is no longer needed for the purposes of the project
  - the District does not encumber the property without approval of TEA or other awarding agency, and
  - the District uses and disposes of the property in accordance with federal rules.

Refer to Administrative Procedures Section 3 Z. Any asset that is identified as not repairable, or of no further value to the district, will be processed for disposal. Organizations will submit a School Dude work order to property management requesting the turn in and disposal of all district property. The request is verified by the asset inventory control lead and approved by the department head for that type of property. If the item is identified as being federally purchased, then the Special Programs Department is notified for approval prior to turn in of the item. If any property is lost or stolen, the organization must submit a loss report to risk management. Risk management will process the report and send a copy to property management for inventory adjustment. Once all property has been approved for disposal, the Coordinator for Property Management will process the disposals in TEAMS.

**Physical Inventory**
Refer to Administrative Procedure Section 3 BB. The District conducts inventories on all controlled and capitalized assets annually. The asset inventory control lead and the property book custodian work together to accomplish this task. The inventories are exported to Excel spreadsheets and sent to each campus and department inventory specialist. The inventories are completed by the organization and returned to property management for review and reconciliation. Once all assets are reconciled, the inventory is signed by the principal, returned to property, and filed in the organizations record folder.

**Equipment Insurance and Maintenance of Equipment**
The District insures equipment acquired or improved with federal funds at the same levels and in accordance with the same policies as provided to equipment purchased with state or local funds unless required to be insured by terms and conditions of the federal grant. 2 CFR § 200.310.

In accordance with 2 CFR § 200.313(d)(4), the District maintains adequate maintenance procedures to ensure that property is kept in good condition. Refer to Administrative Procedure Section 3 AA for Accountability of Real and Personal Property. For broken technology equipment the organization submits a “Heat Call” ticked to technology services for inspection and repair.

**Lost or Stolen Items**
The District maintains a control system that ensures adequate safeguards are in place to prevent loss, damage, or theft of the property. Any loss, damage, or theft is investigated in accordance with the following procedures. 2 CFR § 200.313(d)(3). See Administrative Procedures III-AA, III-BB, II-F, III-Z and District policy CI (Local).
Use of Equipment
Equipment will be used in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by the federal award. The District will not encumber the property without prior approval of TEA and the federal awarding agency. When no longer needed for the original program or project, the equipment may be used in other activities supported by the federal awarding agency, in the following order of priority: (1) activities under a federal award from the federal awarding agency which funded the original program or project; then (2) activities under federal awards from other federal awarding agencies. All requests for transfers must be requested through a School Dude work order and approved by Technology Services. Any transfer of assets purchased with federal funds must be approved by the Special Programs Department prior to equipment being moved. Technology Services has the final approval to transfer any excess operational equipment within the District. Once the transfer is approved, then property management will verify with the gaining organization and update the inventory.

During the time equipment is used on the project or program for which it was acquired, the equipment will also be made available for use on other projects or programs currently or previously supported by the federal government, provided that such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use must be given to other programs or projects supported by the federal awarding agency that financed the equipment. Second preference is given to programs or projects under federal awards from other federal awarding agencies. Use for non-federally funded programs or projects is also permissible. However, the original purchase of any equipment to be used in other programs will be properly allocated (i.e., prorated) among the applicable funding sources.

Disposal of Equipment and Supplies

Equipment
In accordance with 2 CFR §200.313(e), when it is determined that original or replacement equipment acquired under a federal award is no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, the Special Programs Department Funding Compliance Specialist will contact the TEA Chief Grants Administrator or other awarding agency for disposition instructions.

Generally, disposition of equipment is dependent on its fair market value (FMV) at the time of disposition.

- An item that has a current FMV of $5,000 or less, may be retained, sold, or otherwise disposed of with no further obligation to TEA or other federal awarding agency. However, TEA must still approve disposition in accordance with specified procedures.
- If an item has a current FMV of more than $5,000, TEA or other federal awarding agency is entitled to the federal share of the current market value or sales proceeds. Pursuant to the provisions in 2 CFR § 200.313(d)(5), the District uses procedures to ensure the highest possible return. TEA must approve the disposition.

If acquiring replacement equipment, the District may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property.
Disposition of equipment will be properly recorded in the fixed asset inventory. If any assets are used for trade in, it is the organization’s responsibility to notify property management and provide a barcode and serial number listing of all assets being traded in. The replacement assets will be received by the Distribution Center and follow the same receiving process.

Additionally, TEA’s General Provisions and Assurances for all grants (state and federal) administered by TEA contain the following provision:

**Capital Outlay**

If the Contractor purchases capital outlay (furniture and/or equipment) to accomplish the objective(s) of the project, title will remain with the Contractor for the period of the Contract. The Agency reserves the right to transfer capital outlay items for Contract noncompliance during the Contract period or as needed after the ending date of the Contract. This provision applies to any and all furniture and/or equipment regardless of unit price and how the item is classified in the Contractor's accounting record.

See Administrative Procedure III-Z for disposal instructions. Property management is responsible for the disposal of all District property.

**Supplies**

Supplies are all tangible property other than equipment. This includes computing devices. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate value upon termination or completion of the project or program, and the supplies are not needed for any other federal award, the District will compensate the federal government for its fair share in accordance with procedures established by TEA. The Special Programs Department Compliance Specialist will contact the TEA Chief Grants Administrator or other awarding agency for disposition instructions of supplies. 2 CFR § 200.314

### Written Compensation Policies

**Allowable Compensation**

Compensation for employees paid from federal funds will be in accordance with the established written policy for compensation for all employees, and the written policy will be consistently applied among all employees, whether paid from state, local, or federal funds. Compensation includes all remuneration, paid currently or accrued, for services of employees rendered during the period of performance under the federal award, including but not necessarily limited to wages and salaries. Compensation for personal services may also include fringe benefits. See KISD Board Policies DEA Legal and DEA Local.

Costs of compensation are allowable to be charged to a federal award to the extent that they satisfy the following requirements as specified in 2 CFR § 200.430 and that the total compensation for individuals:

1. Is reasonable for the services rendered and conforms to the established written policy of the District consistently applied to both federal and non-federal activities;
2. Follows an appointment made in accordance with the District’s rules or written policies and meets the requirements of federal statute; and
3. Is determined and supported by documentation that meets the federal *Standards for Documentation of Personnel Expenses*.

**Reasonable Compensation**

Compensation for employees engaged in work on federal awards will be considered reasonable to the extent that it is consistent with that paid for similar work in other activities of the District. In cases where the kinds of employees required for the federal awards are not found in the other activities of the District, compensation will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor market in which the District competes for the kind of employees involved.

**Professional Activities Outside the District**

Unless an arrangement is specifically authorized by TEA or other awarding agency, the District must follow its written policies and practices concerning the permissible extent District employees may provide professional services outside the District for non-District compensation. If a policy does not exist or does not adequately define the permissible extent of consulting or other non-District activities undertaken by an employee for extra outside pay, the federal government may require that the effort of professional staff working on federal awards be allocated between:

1. District activities and
2. Non-district professional activities.

If TEA or other awarding agency considers the extent of non-District professional effort excessive or inconsistent with the conflicts-of-interest terms and conditions of the federal award, appropriate arrangements governing compensation will be negotiated on a case-by-case basis.

Therefore, the District’s policy which governs employees obtaining payment for performing professional services outside the District is incorporated into the District’s written employee compensation policy. Any employee wishing to perform professional services outside the District and receive payment for such services by another entity must complete, sign and submit the *Conflict of Interest* form prior to agreeing to perform professional services outside the District. The purpose of the *Conflict of Interest* form is to disclose the nature of the professional services to be performed outside the district to ensure a conflict of interest does not exist for the District. The completed, signed form will be submitted to the Chief Human Resources Officer for review and determination of whether a potential conflict of interest exists.

The District complies with other requirements pertaining to allowable and unallowable costs as specified in 2 CFR § 200.430(d), (e), and (f), including:

1. Compensation for certain employees of cost-reimbursement contracts covered under 10 USC 2324(e)(1)(P); 41 USC 1127; and 41 USC 4304(a)(16);
2. Changes in compensation resulting in a substantial increase in the District’s employees’ level of compensation; and
3. Incentive compensation based on cost reduction, efficient performance, suggestion awards, safety awards, etc.
Where practical, the District also adheres to the Suggested Areas for Consideration of Internal Control Structure for areas of employee compensation that could require internal control procedures. TEA’s Module 1 – FAR, 1.5.4.7 of FASRG

**Job Descriptions**

Each employee paid with federal funds must have a current job description on file. These job descriptions must be approved by the KISD Human Resources Department. The job description must describe the employee’s job responsibilities as well as delineate all programs or cost objectives under which the employee works.

Job descriptions must be updated as new assignments are made. The supervisor must review the job description with the employee upon hiring and as the job description is updated. The employee must sign and date that he or she has read and understands the job description and the programs under which he or she is working. The immediate supervisor also signs the job description.

The job description must be immediately available upon request by an auditor or monitor. The Special Programs Department Compliance Specialist monitors this process for ESSA funded staff while the Special Education Department Coordinator for Data Management monitors the process for IDEA funded staff. Both the Specialist and the Coordinator ensure that all required documentation is on file. Documents are kept as electronic pdf files on the Special Programs Department Server. An automated weekly report which lists all staff paid with federal funds is used to keep all files up-to-date.

**Documentation of Personnel Expenses**

**Standards for Documentation of Personnel Expenses**

Charges to federal awards for salaries and wages must be based on records that accurately reflect the work performed. In accordance with 2 CFR § 200.430, these records must:

- Be supported by a system of internal controls which provides reasonable assurance that the charges are accurate, allowable, and properly allocated
- Be incorporated into official records
- Reasonably reflect total activity for which the employee is compensated, not exceeding 100% of compensated activities
- Encompass both federally assisted and all other activities compensated by the District on an integrated basis
- Comply with the established accounting policies and practices of the District, and
- Support the distribution of the employee’s salary or wages among specific activities or costs objectives if the employee works on:
  - More than one federal award
  - A federal award and a non-federal award
  - An indirect cost activity and a direct cost activity
  - Two or more indirect activities which are allocated using different allocation bases, or
  - An unallowable activity and a direct or indirect cost activity.
[Note: Pursuant to the provisions in 2 CFR § 200.430(i)(8), where the records do not meet the standards described in this section, the USDE or TEA may require personnel activity reports (PARs), including prescribed certifications, or equivalent documentation that support payroll charges to federal grants.]

All employees who are paid in full or in part with federal funds must keep specific documents to demonstrate the amount of time they spend on grant activities. This includes an employee whose salary is paid with state or local funds but is used to meet a required match or cost share for a federal program.

These documents, known as time-and-effort records, are maintained in order to charge personnel costs to federal grants. In addition, current and up-to-date job descriptions for each employee are maintained.

**Time and Effort Procedures**

All District employees who are paid in whole or in part with federal funds will maintain documentation in accordance with the requirements listed in this section. All time and effort documents for ESSA funded positions are maintained by the Special Programs Department Funding Compliance Specialist. IDEA funded staff submit time and effort documentation to the Special Education Department Coordinator for Data Management. Documentation is stored electronically on the Special Programs Department server.

All charges to payroll for personnel who work on one or more federal programs or cost objectives must be based on one of the following, depending on the circumstances:

**Semi-annual Certification** (See Appendix 3)

Semi-annual certification applies to employees who do one of the following:

- Work 100% of their time on a single grant program and/or single cost objective
- Work 100% of their time under a single cost objective funded from eligible multiple funding sources. A Title I, Part A, schoolwide program is a single cost objective. Refer to TEA’s page on Schoolwide Programs for further guidance.

The semi-annual certification must:

- be executed after the work has been completed, and not before
- state that the employee worked solely (i.e., 100% of the time) on activities related to one particular grant program or single cost objective
- identify the grant program or cost objective
- specify the 6-month reporting period
- be signed and dated by the employee and/or a supervisor with first-hand knowledge of the work performed

“Cost objective” means a program, function, activity, award, organizational subdivision, contract, or work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capital projects, etc. A cost objective may be a major function of the District, a particular service or product, a federal award, or an indirect cost activity.
These employees are not required to maintain time-and-effort records; i.e., personnel activity report or an employee schedule and substitute system certification form developed by TEA. However, each employee must certify in writing, at least semi-annually, that he/she worked solely on the program or single cost objective for the period covered by the certification. The certification must be signed by the employee and/or by the supervisor having first-hand knowledge of the work performed and should reference the employee’s signed and dated job description. Charges to the grant must be supported by these semi-annual certifications.

Charges to the grant must be supported by these semi-annual certifications. All certifications are retained for audit and monitoring purposes and are stored electronically on the Special Programs Department server.

**Personnel Activity Reports**

Employees who work on more than one program and/or more than one cost objective and who do not have a set schedule, must complete a personnel activity report which provides a detailed record of activities performed in 15 minute increments. Such reports must reflect an *after-the-fact* distribution of 100% of the actual time spent on each activity and must be signed by the employee. Quarterly reports are submitted to the Special Programs Department Funding Compliance Specialist for ESSA funded positions and to the Special Education Department Coordinator for Data Management for IDEA funded staff. The Specialist and the Coordinator review the PARs to ensure that the time documented equals 100% and that time has been equitably distributed between cost objectives. Documents are kept electronically. Charges to payroll are adjusted as needed.

**Substitute System of Time and Effort Reporting**

TEA issued guidance in a letter dated December 12, 2012, pertaining to Substitute System of Federal Time-and-Effort Reporting for Employees Supported by Multiple Cost Objectives. Pursuant to this guidance, employees who work on multiple cost objectives (i.e., more than one federal grant award or more than one cost objective) and who meet certain conditions may complete a schedule at the beginning of the reporting period and a certificate (similar to the semi-annual certification) at the end of the reporting period in lieu of traditional time-and-effort records.

To qualify for this substitute system in lieu of traditional time-and-effort reports, the employee must work on multiple activities or cost objectives (i.e., more than one federal grant award) based on a predetermined, set schedule, which is most likely applicable to classroom teachers or instructional aides. In order for any employees to use this system, the LEA must also submit a Management Certification form to TEA by the specified deadline date each year.

**Daily Class Schedules**

Daily class schedules for classroom teachers and instructional aides may be used in lieu of time-and-effort reports for these personnel. Daily class schedules may qualify as a suitable “substitute system” because they provide a “quantifiable measure of employee effort.” However, to avoid an audit exception, daily class schedules should be documented as a substitute system in accordance with the procedures described above for TEA’s substitute system.
Reconciliation and Closeout Procedures
It is critical for payroll charges to match the actual distribution of time recorded on the monthly certification documents. Grantees may initially charge payroll costs based on budget estimates. Budget estimates or other distribution percentages determined before the services are performed do not qualify as support for charges to federal awards, but may be used for interim accounting purposes provided that the system for establishing the estimates produces reasonable approximations of the activity actually performed.

If using budget estimates, the District will periodically, at least quarterly, reconcile payroll charges to the actual time and effort reflected in the employees’ time-and-effort records. If the quarterly (or more frequent) reconciled difference between the actual and budgeted amounts is 10% or greater, two things will occur:

- The District will adjust its accounting records to reflect the costs based on the actual time and effort reported.
- To minimize future differences, the District will revise the budget estimates for the following quarter to reflect the actual distribution, if necessary.

If the reconciled difference is less than 10%, the District will adjust the accounting records annually. But in all cases, the accounting records will be adjusted to reflect actual time-and-effort records. Please note that the 10% variance only governs how often the reconciliation will occur. It does not govern whether or not the reconciliation will occur.

Employee Exits
Notification of Separation for Federally Funded Employees
- The department/campus supervisor of a federally funded employee must notify the Special Programs Department or the Special Education Department and Human Resources of any changes regarding the job position of an employee.

Time and Effort Documentation for Federally Funded Employees
- If an employee worked 100% of their time under a single cost objective funded from eligible multiple funding sources and is no longer employed in that position, a supervisor with first-hand knowledge of the work performed must sign and date a semiannual certification form and indicate that the employee is not available for signature. This document must be submitted to the Funding Compliance Specialist for ESSA funded staff and to the Coordinator for Data Management for IDEA funded positions.

- If an employee worked under multiple grant programs or multiple cost objectives and did not have a set schedule, a PAR must be maintained until the exit date and submitted to the Funding Compliance Specialist Funding Compliance Specialist for ESSA funded staff and to the Coordinator for Data Management for IDEA funded positions.
**Human Resources Policies**

All employees, including those paid with federal funds and those not, will adhere to the District’s written leave policy. District human resources policies are defined and maintained in School Board Policy Section D – Personnel. If the District institutes any mass or abnormal severance pay, the District will request prior written approval from TEA in accordance with 2 CFR § 200.431(i)(2)(ii).

**Record Keeping**

**Record Retention**

In general, records document the use of funds, compliance with program and fiscal requirements, and the performance of the grant. In accordance with 34 C.F.R. §§ 76.730-.731 and §§ 75.730-.731, the District maintains all records that fully show (1) the amount of funds under the grant or sub-grant; (2) how the District uses those funds; (3) the total cost of each project; (4) the share of the total cost of each project provided from other sources; (5) other records to facilitate an effective audit; and (6) other records to show compliance with federal program requirements. The District also maintains records of significant grant project experiences and results. 34 C.F.R. § 75.732. These records and accounts must be retained and made available for programmatic or financial audit.

Pursuant to the provisions in 34 C.F.R. § 81.31(c), the USDE is authorized to recover any federal funds misspent within 5 years before the receipt of a program determination letter. Consequently, in accordance with TEA’s General Provisions and Assurances and the statute of limitations, the District retains records for a minimum of five (5) years from the date on which the final expenditure report is submitted or the ending date of the grant, whichever is later, unless otherwise notified in writing to extend the retention period by TEA or other awarding agency. However, if any litigation, claim, or audit is started before the expiration of the record retention period, the records will be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken. 2 C.F.R. § 200.333

Local governments in Texas, including all school districts, open-enrollment charter schools, and ESCs, are required to implement a Records Management Policy, designate a Records Management Officer to oversee the policy, and comply with a Records Retention Schedule. The Texas State Library and Archives Commission (TSLAC) administers the records management requirements pursuant to the Local Government Records Act, Local Government Code, Chapters 201-205, and Chapter 441, Subchapter J, published as Local Government Bulletin D on TSLAC’s website.

The District retains and destroys records in accordance with these requirements. Failure to produce a program or fiscal record for an auditor or monitor during the 5-year retention period will most likely result in an audit or monitoring finding and the repayment of funds for the missing documentation.

**Destruction of Records**

Because records establish compliance with the use of funds and with program and fiscal requirements, failure to retain the proper records or to dispose of them prematurely can result in monumental problems for the District, including the repayment of all funds associated with the
activity, event, decision, or transaction for which the records are missing. In addition, destroying or disposing of a record improperly or prematurely constitutes a Class A Misdemeanor under state law. The District cannot destroy any record that is involved in an ongoing:

- Litigation
- Claim
- Negotiation
- Public information request (PIR)
- Audit or investigation
- Administrative review or hearing

The District’s Records Management Policy includes policy and procedures for disposing of records. Records can only be destroyed in accordance with the Records Retention Schedule adopted by the District. Records that are not on the Records Retention Schedule may require written permission from the TSLAC prior to disposing. Procedures include maintaining a “records disposition log” that identifies the disposition date and method of disposal of each record.

According to Local Government Code, §202.003, confidential records must be burned, shredded, or pulped. Open records can be burned, shredded, pulped, recycled, or buried in a landfill. If a contractor is hired to destroy records, the contractor must comply with all of the state and local government laws pertaining to the destruction of records as if it were the District.

See KISD Administrative Procedures Section 3 GG Records Management Plan and Procedures.

**Records That Must Be Maintained**

A record is any recorded information that documents school business; it serves as evidence that an activity, event, decision, or transaction occurred. A record must be retrievable at a later date (i.e., for 5 years after the ending date of the grant or after submittal of the final expenditure report, whichever is later).

Not every piece of paper or every piece of data is an official record. Materials used for reference are just that – reference materials; they are not records. District personnel must use some judgment in determining whether a record constitutes an “official business record” by looking at the content of the record to determine its value in serving as evidence. A good place to start is by consulting the District’s Records Management Officer and Records Management Policy. The Coordinator for Property Management serves as the District’s Records Management Officer.

Records are created by the District to support a grant activity and they are retained as evidence of that activity. Records may come in a variety of different forms and may be created by the District or be received by the District in any medium, including hard copy paper or electronic, audio, or video. Whether the District creates it, or receives it from someone outside the District, if it documents school operations, it’s a record and must be retained according to the records retention schedule.

Most e-mails are records; telephone messages can be records. The record can be on a computer’s hard drive, on a USB, on a DVD, in a filing cabinet, or on someone’s desk. Even if the
record contains confidential information and may be exempt from release under a Public Information Request (PIR), it is still a record and must be retained using proper security procedures to safeguard the confidential data.

Records generally include but are not limited to
- General correspondence, including letters and e-mail
- Handwritten notes and electronic notes
- Completed forms and reports and the data used to complete the reports
- Personnel documentation
- Websites created by the District
- Audio tapes and video tapes
- Final, complete, and signed (if applicable) documents
- Plans, photographs, or drawings
- Data in spreadsheets and databases
- Financial records, including but not limited to budgets, accounting ledgers, all supporting documentation for expenditures, copies of checks, bank statements, etc.

Records generally do NOT include
- Convenience copies (extra identical copies created only for convenience of reference or research)
- Drafts of documents
- Copies of documents furnished to the public to fulfill a PIR
- Blank forms/stocks of publications (keep at least one copy for archives to demonstrate compliance or proof of program activities)
- Library or museum materials
- Dispute resolution working files (the final written finding or report is a record)
- Personal or junk e-mail
- Ccs of e-mails (or letters) or convenience copies of e-mails (or letters) (the recipient in the “To” line is the keeper of the official record)

Collection and Transmission of Records
It is becoming more common to store records electronically to conserve storage space. Storing records electronically is acceptable and is encouraged. In accordance with the provisions in 2 CFR § 200.335, whenever practical, the District will collect, transmit, and store federal grant-related information in open and machine readable formats rather than in closed formats or on paper. However, TEA or other awarding agency must always provide or accept paper versions of grant-related information to and from the District upon request.

When original records are electronic and cannot be altered, there is no need to create and retain paper copies. When original records are paper, electronic versions may be substituted through the use of duplication or other forms of electronic media provided that they are subject to periodic quality control reviews, provide reasonable safeguards against alteration, and remain readable.

The retention period is the same whether the record is paper or electronic. However, a few precautions are in place.
It is permissible to scan hard copies of records and then store them electronically. The District must comply with Electronic Records Standards and Procedures (Local Government Bulletin B on TSLAC’s website) when scanning records. The District’s designated Records Management Officer is aware of these standards. The Coordinator for Property Management is responsible for performing or overseeing the scanning of all records to ensure the following procedures are properly carried out.

Prior to scanning, the employee must ensure that the original document has not been altered in any way. It is permissible to have additional hand-written notes on an original record, but the hand-written notes cannot obscure the contents of the original document in any way.

When scanning records, the employee must conduct visual quality control on each page of each document to ensure the scan is high quality and that it is entirely legible. Even one illegible line, word, or number on a scanned document can render the scanned document as unacceptable by auditors, monitors, TEA, and other oversight agencies.

Once the original has been scanned and the employee has conducted a thorough visual quality control on each page of each document, the scanned version becomes the official record and the originals can be destroyed. However, before destroying any documents, the employee must check with the District’s designated Records Management Official. He or she may wish to confer with legal counsel or the auditor. There may be legal reasons for not destroying the originals. Also before destroying the originals, the employee will want to consider if there is any historical value to retaining the original, and if so, perhaps retain the original for historical purposes.

The employee must also ensure that each scanned document is properly indexed (labeled) so that a specific document can be easily searched and retrieved at a moment’s notice. Failure to properly index a scanned document can result in the inability to retrieve it in a timely manner for audit or monitoring purposes, which could ultimately result in an audit or monitoring finding and the repayment of grant dollars.

The District must also ensure that scanned versions can be preserved over the long term as technology becomes obsolete. The District considers archival quality microfilm for some records.

Records that are available only in electronic format are stored on District servers in another physical location and are backed up nightly. If the original electronic records are destroyed or lost due to any reason, the backup location will have a duplicate copy of the records.

**Access to Records**
All grant records are government records and are the property of the District; they are not the personal property of an individual. Records should be easily accessible by all personnel in the District who may need to refer to the documentation for program management, accounting, compliance, audit, or monitoring purposes. With the exception of confidential personnel hiring records, proprietary information of contractors, and confidential student information, all grant information is public information.
Pursuant to the provisions in 2 CFR § 200.336, the District provides TEA or other awarding agency, Inspectors General, the Comptroller General of the United States, the Texas State Auditor’s Office, the Texas Attorney General’s Office, and the US Department of Education staff or their contracted monitors or any of their authorized representatives, the right of access to any documents, papers, or other records of the District which are pertinent to the federal award, in order to make audits, examinations, excerpts, and transcripts. The right also includes timely and reasonable access to the District’s personnel for the purpose of interview and discussion related to such documents.

Protecting the True Names of Victims of a Crime
Only under extraordinary and rare circumstances would such access include review of the true name of victims of a crime. Routine monitoring would not necessitate access to this information, as it is not considered extraordinary and rare circumstances. When access to the true name of victims of a crime is necessary, appropriate steps to protect this sensitive information must be taken by both the District and the awarding agency. Any such access, other than under a court order or subpoena pursuant to a bona fide confidential investigation, must be approved by the head of the awarding agency or delegate.

The rights of access in this section are not limited to the required retention period but last as long as the records are retained. 2 CFR § 200.336(b)

Privacy
The District takes reasonable measures to safeguard protected personally identifiable information and other information designated as sensitive. The KISD Employee Handbook, section XI, informs staff about FERPA requirements. In addition, the District uses several layers of protection for sensitive data which include:

- The use of 15 character password phrases
- Encryption and filtering
- Security software, security patches, antivirus software,
- Limited network connectivity
- Monitoring servers for hacking attempts
- Properly vetting apps

Monitoring
Self-Monitoring
The District is responsible for oversight of the operations of the federal award-supported activities. The District is responsible for monitoring its activities under federal awards to assure compliance with applicable federal requirements and to ensure performance expectations are being achieved. This process is known as self-monitoring. Monitoring by the District must cover each program, function, or activity. 2 CFR § 200.328. Additionally, the District must directly administer or supervise the administration of each project. 34 CFR § 76.701

Ongoing monitoring occurs in the course of operations. It includes regular management and supervisory activities and other actions personnel take in performing their duties. The scope and frequency of self-monitoring depends primarily on an assessment of risks and the effectiveness of ongoing monitoring procedures.
Implementing the appropriate and required internal controls and monitoring for compliance with internal controls is one of the District’s tools for self-monitoring. Any discrepancies or deficiencies detected or discovered will be immediately corrected and processes or systems put into place to ensure such discrepancies or deficiencies do not occur again.

Additionally, the District will develop a self-monitoring assessment that will be administered at the end of every year. Corrective actions, including the actions required, the persons responsible, and the target date for completion, will be developed to address any deficiencies. Each summer, KISD undergoes an internal audit. Federal programs are included in this process. Procedures are updated or created based on the results of this audit.

**TEA Monitoring Risk Assessment**

Pursuant to the provisions in 2 CFR § 200.331(b), TEA, as a pass-through agency, is required to evaluate each sub-recipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the award for purposes of determining the appropriate sub-recipient monitoring. Accordingly, the risk assessment may include:

- The District’s prior experience with the same or similar awards;
- The results of previous audits including whether or not the District receives a Single Audit in accordance with Subpart F of 2 CFR, and the extent to which the same or similar award has been audited as a major program;
- Whether the District has new personnel or new or substantially changed systems; and
- The extent and results of USDE monitoring if the District also receives federal awards directly from the USDE.

**Special Conditions**

Based on the evaluation of risk, TEA must consider imposing one or more of the following specific conditions upon the District if appropriate:

- Requiring payments as reimbursements rather than advance payments
- Withholding authority to proceed to the next phase until receipt of evidence of acceptable performance within a given period of performance
- Requiring additional, more detailed financial reports
- Requiring the District to obtain technical or management assistance
- Establishing additional prior approvals. 2 CFR § 200.207(a)

TEA is required to notify the District as to:

- The nature of the additional requirements
- The reason why the additional requirements are being imposed
- The nature of the action needed to remove the additional requirements, if applicable
- The time allowed for completions the actions, if applicable, and
- The method for requesting reconsideration of the additional requirements imposed.

TEA must promptly remove any special conditions once the condition that prompted them have been corrected.
Identification as a High-Risk Grantee

In accordance with the provisions 2 CFR § 3474.10, TEA has the authority to identify the District as a high-risk grantee:

- Based on the results of the risk assessment;
- If the District has a history of failure to comply with the general or specific terms and conditions of a federal award;
- If the District fails to meet expected performance goals;
- If the District is not otherwise responsible.

TEA may impose one or more special conditions as needed to bring the District into compliance.

Monitoring

TEA must monitor the activities of the District as necessary to ensure that the award is used for authorized purposes, in compliance with the federal statutes, regulations, and the terms and conditions of the award; and that the award performance goals are achieved. 2 CFR § 200.331(d). Monitoring must include:

- Reviewing financial and programmatic reports required by TEA;
- Following up and ensuring that the District takes timely and appropriate action on all deficiencies pertaining to the award provided to the District from TEA detected through audits, on-site reviews, and other means; and
- Issuing a management decision for audit findings pertaining to the award.

Depending on the District’s assessment of risk by TEA, TEA may use the following monitoring tools (not all-inclusive) to ensure proper accountability and compliance with program requirements and achievement of performance goals:

- Performing desk reviews of certain information;
- Providing the District with training and technical assistance on program-related matters;
- Performing on-site reviews of the District’s program operations; and
- Arranging for agreed-upon procedures engages as described in 2 CFR § 200.425 Audit services.

TEA will also consider taking any enforcement action (i.e., remedies for noncompliance) against the District if it is found to be in noncompliance.

Remedies for Noncompliance

If the District fails to comply with federal statutes, regulations, or the terms and conditions of the award, the USDE (for direct grants) or TEA (for state-administered grants) may impose one or more of the conditions described in Special Conditions. In addition, TEA may take one or more of the following actions, as appropriate in the circumstances:

- Temporarily withhold cash payments pending correction of the deficiency by the District or more severe enforcement action by the USDE or TEA.
- Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.
- Initiate suspension or debarment proceedings as authorized under 2 CFR Part 180 and USDE regulations (or in TEA’s case, recommend such a proceeding be initiated by the USDE).
• Withhold further federal awards for the project or program.
• Take other remedies that may be legally available.

2 CFR § 200.338

The District does not award sub-grants as a regular course of action.

Audits

Annual Independent Audit
Section 44.008 of TEC requires that each school district have its fiscal accounts audited annually at district expense by a certified or public accountant (independent of the district) holding a permit from the Texas State Board of Public Accountancy (CPA). No portion of the independent audit may be paid from state or federal grant funds. The cost to conduct the annual independent audit must be paid from state or local funds.

The audit must meet at least the minimum requirements and be in the format prescribed by the SBOE and the commissioner. Audits must be conducted in accordance with generally accepted auditing standards (GAAS) and Government Auditing Standards (GAS), also referred to as the Yellow Book. Audit requirements are also provided in TEA's FASRG, Module 4 – Auditing.

The itemized accounts and records of the district must be made available to audit. The independent audit must be completed following the close of each fiscal year and must be submitted to TEA within 150 calendar days of the close of the fiscal year.

During the annual independent audit, the auditor examines whether the district has complied with financial management and reporting requirements and with internal controls. The annual audit is organization-wide and includes an examination of all fund types and account groups.

The audit reports are reviewed by TEA audit staff, and TEA notifies the local board of trustees of any objections, violations of sound accounting practices or law and regulation requirements, or of any recommendations concerning the audit report that the commissioner wants to make. If the audit report reflects that penal laws have been violated, the commissioner must notify the appropriate county or district attorney and the state's attorney general.

TEA must be permitted access to all accounting records, including vouchers, receipts, fiscal and financial records, and other school records TEA considers necessary and appropriate for the review, analysis, and passing on audit reports.

Single Audit
In addition to the state-mandated annual audit, federal regulations require that grantees obtain audits in accordance with 2 CFR Part 200, Subpart F – Audit Requirements. (Note: The requirements in 2 CFR Part 200 apply for fiscal years that begin after December 26, 2014, (i.e., in most cases, for fiscal years that begin July 1 or September 1, 2015, and end June 30 or August 31, 2016, respectively. The requirements in OMB Circular A-133 are in effect for the fiscal years that end June 30 or August 31, 2015, respectively.) The audits must be made by an independent auditor in accordance with generally accepted government auditing standards (GAGAS). Awarding
agencies, including TEA, are required to determine whether their grantees have met the audit requirements.

State agencies such as TEA are required to follow their own procedures to determine whether the District spent federal funds in accordance with applicable laws and regulations. This includes reviewing an audit to determine if the District had a single audit conducted in accordance with 2 CFR § 200.514, or through other means if there was no single audit.

TEA as a state agency must also

- ensure that the District takes appropriate corrective action within six months after receiving a report with an instance of noncompliance with federal laws and regulations
- consider whether the audit necessitates an adjustment of TEA’s own records

**Who Is Required to Have a Single Audit?**

School districts that expend $750,000 or more total in federal awards (i.e., all of the expenditures added together for all of the federal grants) during the fiscal year are required to have a Single Audit conducted in addition to and in conjunction with the annual independent audit.

The Single Audit must be completed in accordance with 2 CFR Part 200, Subpart F and the Audit Compliance Supplement (see link below), normally updated around March of each year. The Audit Compliance Supplement outlines specific requirements and corresponding audit procedures for each major federal program.

For federal programs not covered in the Compliance Supplement, the auditor is directed to use the types of compliance requirements contained in the Supplement as guidance for identifying compliance requirements to test, and to determine the requirements governing the federal program by reviewing the provisions of grant agreements and the laws and regulations applicable to those federal programs.

The cost to conduct the Single Audit can be prorated among the federal programs being audited in proportion to the total award amount of each program.

**What Happens During a Single Audit?**

During a Single Audit, the auditor examines

- the District’s financial statements and schedule of expenditures of federal awards
- compliance with laws, regulations, and the provisions of contract or grant agreements that have a direct and material effect on each of the District’s federal programs
- the effectiveness of internal control over federal programs in preventing or detecting noncompliance

Auditors are required to classify and select federal programs for audit using a risk-based approach. Where a District receives only one federal program, the auditor may conduct a program-specific audit rather than a Single Audit.

Auditors use the suggested audit procedures in the Audit Compliance Supplement to test general compliance requirements for each federal program selected for audit during the Single Audit or
program-specific audit process. Program and fiscal managers should be aware of the requirements and what the auditor may look for so they can be properly prepared. Auditors may potentially interview program managers and fiscal managers to solicit evidence of compliance with certain requirements.

As the auditor is reviewing the compliance requirements, he or she identifies any significant deficiencies in internal control and any noncompliance with laws, regulations, or grant agreements. The auditor also identifies any known questioned costs which are greater than $25,000. Auditors must present the findings in a written report in sufficient detail for the District to prepare a corrective action plan and take corrective action, and for TEA or other awarding agency to arrive at a management decision.

The auditor assembles the report in accordance with 2 CFR Part 200, Subpart F and submits the audit package to the local board of directors for approval. A copy of the full audit report, including the required annual audit, and the Single Audit or program-specific audit, is submitted to TEA as the pass-through entity. The auditor must also complete a data collection form that includes certain prescribed information about the District and the results of the audit. The District must submit the data collection form and a copy of the complete audit package to the Federal Audit Clearinghouse operated on behalf of OMB.

TEA audit staff review the audit report and issue a management decision within six months of receiving the package. The management decision (written letter) must inform the District whether or not the finding by the auditor is sustained, the reasons for the decision, and the expected action to repay disallowed costs, make financial adjustments, or take other corrective action. The District is responsible for follow-up and must prepare a corrective action plan for all audit findings, along with the anticipated completion date for each action and who is responsible.

TEA is required to follow up to ensure the District resolved the corrective actions. The audit in the subsequent year will include a follow up to ensure the District implemented the corrective actions.

TEA also uses the results of the report as a monitoring tool and may use the results to identify the District as high-risk and impose special conditions on federal awards.

The Budget Analyst prepares expenditure reports for each grant for the fund year. The Director of Financial Reporting prepares the annual worksheet for the federal awards, reconciling our general ledger to amounts reported to TEA. This worksheet is provided to the auditors. Any findings are corrected immediately.

**Audits and Special Investigations Conducted by TEA or By Another Regulatory Agency**

A review of the annual independent audit report and/or the Single Audit report may prompt TEA to schedule a subsequent desk audit or on-site audit or investigation. Additionally, TEA may schedule an audit or investigation on the basis of legitimate complaints received by TEA about the District’s use of federal funds.

Federal regulations require that sub-grantees, including school districts, also cooperate with the Secretary of Education and the Comptroller General of the United States or any of their duly authorized representatives in the conduct of audits authorized by federal law. This cooperation
includes access without unreasonable restrictions to records and personnel of the District for the purpose of obtaining relevant information.

The Comptroller General of the United States is the Director of the U.S. Government Accountability Office (GAO). GAO is an independent, nonpartisan agency that works with Congress. GAO ensures fiscal and managerial responsibility of the federal government by investigating how the federal government spends taxpayer dollars.

In addition, the Office of Inspector General (OIG) at the USDE may conduct an audit, investigation, or other activities to promote the efficiency, effectiveness, and integrity of the Department’s programs and operations. Anyone knowing of fraud, waste, or abuse of federal education funds is able to contact the OIG Hotline to make a confidential report.

TEA also has a procedure for reporting fraud, waste, or abuse of state and federal resources. In addition, TEA has a procedure for filing a complaint with regard to federal programs when it cannot be resolved at the local level following district policies and procedures.

**District Procedures for Reporting Fraud, Waste, or Abuse**

See KISD Administrative Procedures Section 3 DD Fraud, Waste, and Abuse Hotline.

### Programmatic Fiscal Requirements

**Supplement, Not Supplant**

Most federal education grants contain the supplement, not supplant provision. In most cases, the expenditure of grant funds for a particular cost or activity must supplement, and not supplant, state or local funds. Therefore, supplement, not supplant is a crucial factor in determining whether a particular cost is allowable, and it must be understood by program and fiscal managers.

**What Does Supplement, Not Supplant Mean?**

The intent behind supplement, not supplant, is that federal funds are not meant to substitute for state or local funds, but rather to provide for an additional layer of support for students who need extra academic assistance in order to succeed in school. Districts must demonstrate that federal funds are used to purchase additional academic and support services, staff, programs, or materials the state or district would not normally provide.

The supplement, not supplant provision means, in general, that

- Federal funds may not be used to replace activities normally funded from state or local funds.
- State and local funds may not be diverted for other purposes due to the availability of federal funds.
- Federal funds may not be used to support activities that are required by state law, State Board of Education or Commissioner’s rule, or local policy.
- All students must receive the same level and quality of services from State and local resources. In other words, State and local sources cannot be used to provide services to only some of the students, while Federal funds are used to provide services to the remaining students. (Schoolwide programs may be an exception.)
• Federal funds must be used to supplement activities already being provided by the District, meaning they must be used to expand, enhance, or improve existing services and activities or to create something new.

Rebutting the Presumption of Supplanting
Violations for supplanting with federal funds can be quite severe. If a grantee is determined to be supplanting with the entire program, the penalty could be as great as repaying 100% of the funds expended. Federal regulations require that a grantee repay funds in proportion to the harm to the federal government.

Districts may be able to rebut the presumption of supplanting by an auditor or monitor. To determine compliance with the supplement, not supplant requirement, the District must determine what services would have been provided to students in the absence of federal funds. Generally in a situation where the District used Title 1 funds, for example, to provide services that it provided with non-Federal funds in the prior year(s), an auditor or monitor will presume supplanting occurred.

The USDE provides excellent guidance on supplement, not supplant with regard to Title I, Part A in their Non-Regulatory Guidance on Title I Fiscal Issues, Revised February 2008. In addition, TEA’s Supplement, Not Supplant Handbook (under Handbooks) discusses supplement, not supplant as it applies to NCLB programs and other programs, including IDEA-B and Perkins. Both documents contain excellent information and examples as it pertains to rebutting the presumption of supplanting.

In any case, due to different experiences and knowledge level of independent auditors and federal oversight personnel, the independent auditor or federal oversight agency may still consider it supplanting.

Supplement, Not Supplant on Schoolwide Programs
The fiscal requirements for supplement, not supplant are slightly different for Title I schoolwide programs than for Title I Targeted Assistance schools. In a Title I Targeted Assistance school, the District must identify low-achieving students and provide additional, supplemental services only to those identified students. In no case can federal funds replace state and local funds. (Refer to the archived USDE guidance on Targeted Assistance Schools for more information.)

Unlike a Targeted Assistance program, however, a schoolwide program is not required to select and provide supplemental services to specific children identified as in need of services. A school operating a schoolwide program does not have to
• show that Federal funds used with the school are paying for additional services that would not otherwise be provided
• demonstrate that Federal funds are used only for specific target populations
• separately track Federal program funds once they reach the school

A schoolwide program school, however, must use Title I funds only to supplement the amount of funds that would, in the absence of the Title I funds, be made available from non-Federal sources for that school, including funds needed to provide services that are required by law for children
with disabilities and children with limited English proficiency. In other words, the same amount of state and local resources must still be spent on the school in order to conduct the regular academic program, and the amount of Title I funds must supplement, or be in addition to, the amount of state and local funds normally provided to that school [Title I, Part A, Section 1114(a)(2)].

The USDE provides helpful non-regulatory guidance on supplement, not supplant with regard to both Targeted Assistance schools and schoolwide programs. TEA also provides excellent guidance related to NCLB and other programs in a Supplement, Not Supplant Handbook: A Guide for Grants Administered by the Texas Education Agency.

Again, it is important that District personnel involved in federal programs understand supplement, not supplant. School districts are frequently cited for a supplant violation. On the surface, a particular cost may seem allowable in that it is reasonable, allowable under the federal cost principles, allocable, and appropriate under a federal program such as Title I, Part A. However, if the cost is not supplemental, all of the other factors do not counteract. All costs associated with a supplant violation would be required to be repaid to TEA or other federal awarding agency. KISD has developed a Supplement/Not Supplant Methodology. These documents may be accessed on the State & Federal Programs Internal Documents SharePoint site.

How to Document Compliance for an Auditor

Any determination about supplanting is specific to the individual situation, and general guidelines cannot be provided to meet the particular details of any situation. Examples of the types of documentation auditors may request from the District to demonstrate that the expenditure is supplemental to other federal and/or non-federal programs include the following:

- Fiscal or programmatic documentation to confirm that, in the absence of federal funds, the District would have eliminated staff or other services in question
- Board minutes/agendas with discussion of elimination of staff due to lack of state funds
- State or local legislative actions
- Itemized budget histories from one year to the next and information
- Planning documents
- Actual reduction in state or local funds
- Decision to eliminate position or services was made without regard to the availability of federal funds, including the reason the decision was made
- Class-size data from previous years and upcoming year
- Specific policies and procedures related to supplement, not supplant requirements
- Supplement, not supplant methodology

Procedures for Complying with Supplement, Not Supplant

Supplement, not supplant methodologies are in place for each grade span: elementary, middle, and high school. These documents demonstrate how state and local funds are allocated to campuses in the same manner without regard to whether the campuses receives Title I funds. For other ESSA funds, the Campus Improvement Plan and the District Improvement Plan provide documentation that funds, staff, and programs are supplemental. If an instance of supplanting is discovered, steps are taken by the grant manager to remedy the situation as soon as possible.
**Maintenance of Effort (MOE)**

MOE is one of the fiscal requirements, similar to supplement, not supplant, that ensures that federal funds are used to provide services that are in addition to the regular services normally provided by a District. If MOE is a requirement, it will be included in the authorizing program statute. For example, for most NCLB programs, the MOE requirement is included in Title IX, General Provisions, Part E, Subpart 2, § 9521.

MOE means the District must maintain its expenditures for public education from state and local funds from year to year. A district cannot reduce its own state and local spending for public education and replace those funds with federal funds.

For most federal programs for which MOE applies, such as Title I, Part A, the District’s combined fiscal effort per student, or the aggregate expenditures of the District with the respect to the provision of a free public education for the fiscal year preceding the fiscal year for which the determination is made, must be not less than 90% of the combined fiscal effort or aggregate expenditures for the second fiscal year preceding the fiscal year for which the determination is made. (Note: The MOE requirements are different for some grant programs, such as IDEA-B [Individuals with Disabilities Education Act, Part B]).

MOE is based on actual expenditures from State and local funds, not on budgeted amounts. The District is responsible for maintaining effort and for documenting compliance with MOE. TEA will verify the District’s MOE using fiscal information obtained through the Public Education Information Management System (PEIMS) database.

**Expenditures Included in the Determination of MOE**

In determining whether the District has maintained fiscal effort, TEA must consider the District’s expenditures from State and local funds for free public education. These include expenditures for:

- administration
- instruction
- attendance services
- health services
- pupil transportation services
- operation and maintenance of plant
- fixed charges
- net expenditures to cover deficits for food services
- net expenditures to cover deficits for student body activities

34 CFR § 299.5(d)(1)

TEA calculates MOE for school districts and open-enrollment charter schools. TEA includes expenditures for the following functions (specified in FAR) in determining whether the District has met the MOE requirement:
**Expenditures Excluded from the Determination of MOE**

The following expenditures are excluded from the determination of MOE:

- community services
- capital outlay
- debt service
- supplemental expenses made as a result of a Presidentially declared disaster
- any expenditures made from federal funds

34 CFR § 299.5(d)(2)

**“Preceding Fiscal Year” Defined**

For purposes of determining MOE, regulations specify that the “preceding fiscal year” is the federal fiscal year, or the 12-month fiscal period most commonly used in a State for official reporting purposes, prior to the beginning of the federal fiscal year in which funds are available. TEA calculates MOE using State and local expenditures for the **state** fiscal year, or September 1 through August 31. 34 CFR § 299.5(c)

**Failure to Meet MOE**

If the District fails to meet MOE for NCLB programs for any given fiscal year, the award amount is reduced in the exact proportion by which the District did not meet MOE. The Secretary of Education may waive the requirements for one year due to exceptional or uncontrollable circumstances, such as natural disaster, or a precipitous decline in the financial resources of the District.

**Procedures for Complying with MOE**

The District complies with guidance provided by TEA pertaining to MOE for ESSA and for IDEA-B. The Budgetary Services Department in conjunction with the Chief Financial Officer review expenditures on a regular basis to ensure that KISD meets MOE. If a waiver were to be required, the grant manager for the specific grant, the Assistant Superintendent of Curriculum and Instruction, the Chief Financial Officer and Budgetary Services Department personnel would

collaborate to write the waiver and to reduce the proposed grant application if the allocation were to be reduced.

**Programmatic Requirements**

**Private Nonprofit School Participation**

If the authorizing federal program statute provides for private nonprofit school participation, the District must comply with certain requirements. Before completing and submitting the application, the District must contact private nonprofit schools located in and around the District, notifying them of the opportunity to participate in the program. The Private Nonprofit School Participation schedule in the applicable federal grant application must be completed and submitted with the application.

Generally, in accordance with the specific program statute, private nonprofit schools must be consulted in the planning and development of the project. Both children and teachers from private nonprofit schools must be assured equitable participation in all services, materials, equipment, and teacher training.

Prior to completing any federal grant application, the District ensures that private nonprofit schools have been consulted in accordance with the provisions of the statute and in accordance with the guidelines specified in TEA’s [General and Fiscal Guidelines](#) and Program Guidelines. The Compliance Specialist is responsible for ensuring that all requirements with regard to the participation of private nonprofit schools are carried out.

**Equitable Access and Participation**

Provisions for equitable access and participation apply to all federally funded grants administered by the US Department of Education. As such, Equitable Access and Participation is a required schedule in the application for any federally funded grant. The application will not be approved in the absence of this schedule.

In accordance with the General Education Provisions Act (GEPA), Section 427, applicants must develop and describe the procedures they will use to ensure equitable access to and equitable participation in the grant program. The barriers to such participation should be identified for all participants and potential participants during the needs assessment phase of the program planning and development.

All applicants, including the District, must address the special needs of students, teachers, and other program beneficiaries to overcome barriers to equitable participation, including those based on gender, race, color, national origin, disability, and age.

The District complies with the requirements for completing the Equitable Access and Participation schedule in each federally funded grant application. The District completes a comprehensive needs assessment each year. During that process barriers to equitable participation are reviewed and evaluated. At this time, KISD has no barriers identified that would prevent equitable access and participation. If barriers were to be identified in the future, the District Site-Based Decision Making Committee and the departments supervised by the Assistant Superintendent for
Curriculum and Instruction would work together to ensure strategies were implemented and barriers were eliminated.

Civil Rights and Prohibition of Discrimination

Several federal civil rights laws prohibit discrimination in programs or activities that receive federal funds from the USDE. These laws prohibit discrimination on the basis of race, color, and national origin; sex; disability; and age. The civil rights laws extend to all state educational agencies, elementary and secondary school systems, colleges and universities, vocational schools, proprietary schools, state vocational rehabilitation agencies, libraries, and museums that receive USDE funds.

The four primary civil rights laws are as follows:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Statute</th>
<th>Regulation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discrimination on the basis of race, color, or national origin</td>
<td>Title VI of the Civil Rights Act of 1964 (45 USC §§ 2000d-2000d-4)</td>
<td>34 CFR Part 100</td>
</tr>
<tr>
<td>Discrimination on the basis of sex</td>
<td>Title IX of the Education Amendments of 1972 (20 USC §§ 1681-1683)</td>
<td>34 CFR Part 106</td>
</tr>
<tr>
<td>Discrimination on the basis of handicap</td>
<td>Section 504 of the Rehabilitation Act of 1973 (29 USC § 794)</td>
<td>34 CFR Part 104</td>
</tr>
<tr>
<td>Discrimination on the basis of age</td>
<td>The Age Discrimination Act (42 USC §§ 6101 et seq.)</td>
<td>34 FR Part 110</td>
</tr>
</tbody>
</table>

The District must comply with the provisions pertaining to all four of these civil rights statutes and their implementing regulations to be eligible to receive any federal education funds. GEPA requires the Secretary of Education to reduce an allotment to a state for any Districts not in compliance with any of these four civil rights laws, Title 20 USC, Chapter 31 – General Provisions Concerning Education, § 1231e

Other federal laws that prohibit discrimination include Title II of the Americans with Disabilities Act (ADA) of 1990, which prohibits discrimination on the basis of disability by public entities, whether or not they receive federal funding. The Boy Scouts of America Equal Access Act prevents public schools from discriminating against patriotic youth societies, including Boy Scouts of America, by insuring equal access to meet on school premises and in school facilities. Each civil rights law is discussed in more detail below. These laws require that all recipients of federal funds ensure their educational programs are administered in a manner that prohibits discrimination in the participation of federal programs. The USDE Office for Civil Rights (OCR) enforces these laws and their implementing regulations.

Prohibition of Discrimination on the Basis of Race, Color, or National Origin

Title VI of the Civil Rights Act of 1964 prohibits discrimination in the participation of federal programs on the basis of race, color, or national origin. No person shall be excluded from participation in, be denied the benefits of, or be subjected to any form of discrimination in, any federal program on the basis of race, color, or national origin.

Specific discriminatory actions that are prohibited include:
- denying an individual any service or other benefit provided under the program.
• providing any service or other benefit to an individual which is different, or is provided in a
different manner, from that provided to others under the program
• subjecting an individual to segregation or separate treatment in any matter related to his or
her receipt of any service or other benefit under the program
• restricting an individual in any way in the enjoyment of any advantage or privilege enjoyed
by others receiving any service or other benefit under the program
• treating an individual differently from others in determining whether he or she satisfies any
admission, enrollment, quota, eligibility, membership or other requirement or condition
which individuals must meet in order to be provided any service or other benefit provided
under the program
• denying an individual an opportunity to participate in the program through the provision
of services or otherwise or afford him or her an opportunity to do so which is different from
that afforded others under the program
• denying a person the opportunity to participate as a member of a planning or advisory
body which is an integral part of the program

Every federal grant application includes an assurance that the District complies with these
provisions. The assurance is included in the TEA General Provisions and Assurances.

The District may be required to submit to the USDE OCR records that demonstrate compliance
with the provisions. The District must also permit on-site access to records by USDE OCR staff to
verify compliance.

Any person who believes to have been the subject of discrimination may file a written complaint
with the USDE OCR not later than 180 days following the alleged discrimination. OCR staff will
promptly investigate the complaint and attempt to resolve it informally. If the complaint cannot
be resolved informally, the USDE has the right to suspend or terminate federal funding for the
program affected. The USDE must provide an opportunity for a hearing prior to suspension or
termination of the program.

The regulations that implement Title VI of the Civil Rights Act for educational institutions are in 34
CFR Part 100. 34 CFR §§ 75.500 and 76.500 and Title VI of the Civil Rights Act of 1964

The Professional Standards Administrator is responsible for coordinating and ensuring compliance
with this Act.

Prohibition of Discrimination on the Basis of Sex

Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex in any
federal program. No person shall, on the basis of sex, be excluded from participation in, be denied
the benefits of, or be subjected to discrimination under any academic, extracurricular, research,
occupational training, or other education program or activity.

The regulations in 34 CFR Part 106 implement the provisions of Title IX. These regulations require that
• the District designate at least one employee to coordinate its efforts to comply with and
carry out its responsibilities under Title IX, including investigating any complaint
communicated to the District alleging its noncompliance with Title IX. The District must
notify all its students and employees of the name, office address, and telephone number of the employee or employees appointed to carry out the requirements of Title IX.

- the District adopt and publish grievance procedures providing for prompt and equitable resolution of student and employee complaints alleging any action which would be prohibited by Title IX.
- the District implement specific and continuing steps to notify students, parents and employees that it does not discriminate on the basis of sex in the educational programs or activities which it operates, and that it is required by Title IX and 34 CFR Part 106 not to discriminate in such a manner. The District must publish in any document used to recruit students or employees the policy that states that the District does not discriminate on the basis of sex.

There are certain exceptions, such as allowing boys and girls to be separated in physical contact activities, such as football, soccer, basketball, boxing, etc.

The District must not discriminate on the basis of a student’s pregnancy. The District must also not discriminate on the basis of sex in the employment of personnel, compensation, fringe benefits, or work assignments under any federal programs.

Every federal application includes an assurance that the District complies with these provisions. The assurance is included in the TEA General Provisions and Assurances, Title IX of the Education Amendments of 1972; 34 CFR Part 106; and 34 CFR §§ 75.500 and 76.500

The KISD District Hearing Officer is responsible for coordinating and ensuring compliance with this Act.

**Prohibition of Discrimination on the Basis of Age**

The Age Discrimination Act of 1975 prohibits discrimination based on age in programs or activities that receive federal financial assistance. The regulations in 34 CFR Part 110 implement the Age Discrimination Act and describe conduct that violates the Act.

No person in the United States shall, on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. The District may not, in any program or activity receiving federal financial assistance, directly or through contractual, licensing, or other arrangements, use age distinctions or take any other actions that have the effect, on the basis of age, of

1. excluding individuals from, denying them the benefits of, or subjecting them to discrimination under a program or activity receiving federal financial assistance
2. denying or limiting individuals in their opportunity to participate in any program or activity receiving Federal financial assistance

These regulations do not apply to

1. an age distinction contained in that part of a federal, state, or local statute or ordinance adopted by an elected, general purpose legislative body that
   (i) provides any benefits or assistance to persons based on age
   (ii) establishes criteria for participation in age-related terms
(iii) describes intended beneficiaries or target groups in age-related terms

(2) any employment practice of any employer, employment agency, labor organization, or any labor-management joint apprenticeship training program, except any program or activity receiving federal financial assistance for employment under the Job Training Partnership Act (29 U.S.C. 1501 et seq.).

The regulations do not apply where age is a factor in conducting normal operations of the District. For example, where the District is operating a program or activity that provides special benefits to children, the use of age distinctions is presumed to be necessary to the normal operation of the program or activity.

Age discrimination in employment is covered under the Age Discrimination in Employment Act. Complaints of employment discrimination based on age may be filed with the U.S. Equal Employment Opportunity Commission.

The District must take steps to comply and maintain records demonstrating compliance. The District may be required to submit to the USDE OCR records that demonstrate compliance with the provisions and must also permit on-site access to records by USDE OCR staff to verify compliance. The District must:

- Designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under the Age Discrimination Act, including investigating any complaint communicated to the recipient alleging its noncompliance with the Act. The District must notify all its students of the name, office address, and telephone number of the employee or employees appointed to carry out the requirements of the Act.
- Adopt and publish grievance procedures providing for prompt and equitable resolution of student complaints alleging any action which would be prohibited by the Age Discrimination Act.

The USDE may conduct compliance reviews, pre-award reviews, and other similar procedures to investigate and correct violations of the Act and of the regulations, even in the absence of a complaint against the District. The review may be as comprehensive as necessary to determine whether a violation of the regulations occurred.

If a compliance review or pre-award review indicates a violation of the Act or of the regulations, the USDE attempts to achieve voluntary compliance with the Act. If voluntary compliance cannot be achieved, the USDE arranges for enforcement.

Any person who believes to have been the subject of age discrimination may file a written complaint with the USDE OCR not later than 180 days following the alleged discrimination. OCR staff is required to promptly refer the complaint for mediation. If the complaint cannot be resolved through mediation, the USDE will conduct an investigation and attempt to achieve voluntary compliance by the District. If the District does not comply, the USDE has the right to suspend or terminate federal funding for the program affected. The USDE must provide an opportunity for a hearing prior to suspension or termination of the program.

The Act prohibits retaliation for filing a complaint with OCR or for advocating for a right protected by the Act. An assurance that the District complies with these provisions is included in the TEA.
General Provisions and Assurances. Age Discrimination Act of 1975; 34 CFR Part 110; and 34 CFR §§ 75.500 and 76.500

The Professional Standards Administrator is responsible for coordinating and ensuring compliance with this Act.

Prohibition of Discrimination on the Basis of Disability

In addition to the Individuals with Disabilities in Education Act (IDEA), there are two other laws pertaining to non-discrimination on the basis of disability:

- Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of disability in programs or activities that receive federal financial assistance from the USDE
- Title II of the Americans with Disabilities Act (ADA) of 1990, which prohibits discrimination on the basis of disability by state and local governments, including school districts, regardless of whether they receive any federal financial assistance

Section 504 of the Rehabilitation Act of 1973, effective May 1977, is widely recognized as the first civil-rights statute for persons with disabilities. Because it was successfully implemented over the next several years, it helped to pave the way for the 1990 Americans with Disabilities Act. The Americans with Disabilities Act Amendments Act of 2008 (Amendments Act), effective January 1, 2009, amended the Americans with Disabilities Act of 1990 (ADA) and included a conforming amendment to the Rehabilitation Act of 1973 (Rehabilitation Act) that affects the meaning of disability in Section 504.

Section 504 and Title II of ADA are both unfunded mandates with which all school districts [as well as ESCs and open-enrollment charter schools] must comply. It is important to recognize that while a specific child enrolled in the District may not be eligible for services under IDEA, the child may be eligible for protection under Section 504. Failure to comply with Section 504 could result in costly hearings and potential lawsuits.

Section 504

Section 504 states that no otherwise qualified individual with a disability in the United States shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

Section 504 defines individuals with disabilities as “persons with a physical or mental impairment which substantially limits one or more major life activities.” However, a student protected under Section 504 may also have a record of such an impairment or be regarded as having such an impairment.

Physical or mental impairment means, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions. It includes any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more body systems, as well as any mental or psychological disorder.
Major life activities were expanded in the Amendments Act and now include:
- caring for oneself
- performing manual tasks
- seeing
- hearing
- eating
- sleeping
- walking
- standing
- lifting
- bending
- speaking
- breathing
- learning
- reading
- concentrating
- thinking
- communicating
- working

The regulations implementing Section 504 in the context of educational institutions appear at 34 CFR Part 104. These regulations require a school district to provide a “free appropriate public education” (FAPE) to each qualified student with a disability who is in the school district’s jurisdiction, regardless of the nature or severity of the disability. Under Section 504, FAPE consists of the provision of regular or special education and related aids and services designed to meet the student’s individual educational needs as adequately as the needs of nondisabled students are met.

Determining whether a child is a qualified disabled student under Section 504 begins with the evaluation process. Section 504 requires the use of evaluation procedures that ensure that children are not misclassified, unnecessarily labeled as having a disability, or incorrectly placed, based on inappropriate selection, administration, or interpretation of evaluation materials.

School districts must establish standards and procedures for initial evaluations and periodic re-evaluations of students who need or are believed to need special education and/or related services because of disability. The Section 504 regulations require districts to individually evaluate a student before classifying the student as having a disability or providing the student with special education. In addition, evaluation and the provision of appropriate accommodations are required regardless of any methods the student might be using to mitigate the impairment.

Costs related to provisions under Section 504 must come from state or local funds. Such expenditure must not be paid from federal grant funds.

**Title II of ADA**

Title II of the Americans with Disabilities Act of 1990 extends this prohibition against discrimination to the full range of state and local government (including public schools) services, programs, and activities regardless of whether they receive any federal financial assistance.

However, “for purposes of employment”, Qualified Individuals with Disabilities must also meet “normal and essential eligibility requirements”, such that:

“Qualified Individuals with Disabilities are persons who, with Reasonable Accommodation, can perform the essential functions of the job for which they have applied or have been hired to perform.”
"Reasonable Accommodation means an employer is required to take reasonable steps to accommodate [one’s] disability unless it would cause the employer undue hardship."

That is, Qualified Individuals with Disabilities must be able to perform the job duties (with reasonable accommodation) associated with the job for which they will be hired.

**Enforcement of Section 504 and Title II of ADA**

The USDE OCR enforces the provisions of Section 504 and the provisions of Title II of ADA as it applies to LEAs. An assurance that the grantee complies with these provisions is included in the TEA General Provisions and Assurances.

Although the implementing regulations for Title II of ADA in 28 CFR Part 35 are enforced by the U. S. Department of Justice (DOJ), the USDE Office of Civil Rights is designated by DOJ to resolve complaints filed against SEAs and LEAs.

The Director for Employee Relations coordinates and ensures compliance with the requirements under Section 504. The Director of Employee Relations coordinates and ensures compliance with the requirements of Title II of ADA.

Section 504 of the Rehabilitation Act of 1973; 34 CFR Part 104; 34 CFR §§ 75.500 and 76.500; Title II of the Americans with Disabilities Act of 1990; Americans with Disabilities Act Amendments Act of 2008; and 28 CFR Part 35

**Prohibition of Discrimination of Groups Affiliated with Boy Scouts of America**

Under ESSA PL 114-95 Section 8525, Districts must not discriminate against any group affiliated with Boy Scouts of America or any other patriotic youth society or deny equal access to, or fair opportunity to meet in, school facilities or on school premises. Patriotic youth societies include, among others, Big Brothers Big Sisters, Boys and Girls Clubs of America, Girl Scouts of the U.S.A., and Little League Baseball, Inc. This does not require that the District sponsor a group affiliated with Boy Scouts of America or similar patriotic youth society.

The U.S. Supreme Court has ruled that the Boy Scouts have the right to set their own standards for leadership. Schools must respect that right and not exclude the Boy Scouts because of its membership and leadership policies and oath of allegiance to God and country.

Any group officially affiliated with the Boy Scouts or officially affiliated with any other patriotic youth society that requests to conduct a meeting in the District’s facilities or on school grounds must be given equal access to school premises or facilities to conduct meetings. Such groups must also be given equal access to any other benefits and services provided to other groups that are allowed to meet on school premises or in school facilities. These benefits and services may include, but are not necessarily limited to, school-related means of communication, such as bulletin board notices and literature distribution, and recruitment.

Any decisions relevant to the provision of equal access must be made on a nondiscriminatory basis. Any determinations of which youth or community groups are outside groups must be made
using objective, nondiscriminatory criteria, and these criteria must be used in a consistent, equal, and nondiscriminatory manner. The USDE OCR enforces the requirements of the Act.

School Prayer
The Elementary and Secondary Education Act of 1965, as amended by Public Law 114-95, the Every Student Succeeds Act of 2015 Section 8524(b) applies to constitutionally protected prayer in public schools. As a condition of receiving ESSA funds, the District must certify in writing that no policy of the District prevents, or otherwise denies participation in, constitutionally protected prayer in public elementary and secondary schools. Per statute, the certification must be provided to TEA by October 1 of each year. However, TEA includes the certification in the federal ESSA Consolidated Application each year in the ESSA Provisions and Assurances, Section N, thus eliminating the need for LEAs to submit a separate certification. In addition, KISD is in compliance with Texas Education Code Section 25.901

The Professional Standards Administrator coordinates and ensures compliance with the requirements of this Act.

Program Reporting
Federal regulations require that grantees cooperate in any evaluation of the program. 34 CFR § 76.591. States may require sub-grantees to furnish reports that the state needs to carry out its evaluation and performance reporting duties. 34 CFR § 76.722. Evaluation reports must include:

- the District’s progress in achieving the objectives in its approved application
- the effectiveness of the project in meeting the purposes of the program
- the effect of the project on participants being served by the project

Federal regulations also require that grantees, in this case, TEA, submit, at a minimum, annual performance reports to the federal awarding agency. 2 CFR § 200.328. The federal awarding agency may also require quarterly or semi-annual reports. Performance reports must contain, for each grant, brief information on the following:

- a comparison of actual accomplishments to the objectives established for the project period
- the reasons why established objectives were not met, if applicable
- additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs

Grantees must adhere to the same standards in prescribing performance reporting requirements for sub-grantees.

In addition, events may occur between the scheduled performance reporting dates which have significant impact upon the grant activities. 2 CFR § 200.328(d). In such cases, the regulations require the District to inform TEA, and TEA to inform the USDE or other federal awarding agency, if appropriate, as soon as either of the following conditions become known:

- problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.
favorable developments which enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more beneficial results than originally planned.

The USDE or TEA may make site visits as warranted by program needs. Program reporting requirements are specified in the Program Guidelines accompanying each RFA published by TEA. The program manager/director assigned to the program is responsible for ensuring mechanisms and systems are in place for collecting and analyzing any and all required data and/or information and for reporting such data and/or information in accordance with TEA’s requirements.

Legal Authorities and Helpful Resources

The following documents contain relevant grants management requirements. Staff should be familiar with these materials and consult them when making decisions related to the federal grant.

- Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (2 CFR Part 200)

Appendices

Appendix 1: KISD Organizational Chart
Appendix 2: CIP Amendment Process

Do NOT contact the Director of Federal & State Programs when:
Changing the planned amount for a specific resource. This does not require an amendment. You may change amount of funding for a resource to best meet your campus needs provided that the changes are reasonable and maintain an alignment with Frontline. Before completing a BCR, the related change must first be documented in the CIP.

Contact the Director of Federal & State Programs when:
You add a budget code, resource needed, strategy, problem statement/root cause, and/or data to either the CIP or CNA. These are substantive changes that will require review to determine alignment and allowability.

TO AMEND CIP FOR "STUFF"

To add a resource needed and/or budget code:
1. Add the new resource to an aligned strategy in Plan4Learning.
2. Email the Director of Federal and State Programs asking for a review of the new resource. Include the GOS that has been amended. Funds may not be spent on the new resource until the amendment is approved.
3. If a new budget code is needed, provide enough information that Budgetary Services is able to determine the correct code to set up. See example below.

   Example: 166 Webinar for professional development-teachers
   GOS = 1-5-2
   Fund = 166 State Comp Ed
   Who = Teachers
   What = Maker Space webinar
   Resource = PD on how to use Maker Space
   Budget Code from Funding Summary = 166.13.6299.OL.XXX.30.AR0

4. Once approved, the Director of Federal & State Programs will forward your budget code request to Budgetary Services. This lets Budgetary Services know that the resource is allowable and has been approved.
5. Budgetary Services will set up the code, email campus and cc Coordinator for State & Federal Programs.
6. Campus completes BCR to move funds to the new code. The Amended Budget column in Frontline should match the amounts in your CIP funding summary.

To add a new strategy:
1. Campus must first determine that the new strategy aligns to an approved problem statement/root cause and that the strategy offers a solution to the root cause.
2. Add the new strategy to an aligned objective in Plan4Learning. Be sure to link at least one aligned problem statement. Add any needed resources that will support the new strategy.
3. Email the Coordinator for State & Federal Programs asking for a review of the new strategy and resources. Include the GOS that has been added. Funds may not be spent on the new strategy and resource until the amendment is approved.

If there is NOT a problem statement in the CNA that aligns to the strategy or resources needed:
1. If there is NOT an aligned problem statement in the CNA to support a resource or strategy, then the CNA must be revised prior to amending the CIP. Additional data to support a new need must
be written into the summary section. Use the new data to write a problem statement and root cause.

2. Once there is an identified problem statement, add or revise a strategy in the CIP designed to address the need. Include any new resources needed to address the strategy. Email the Director of Federal & State Programs to review the changes. Identify the area(s) in the CNA and CIP that have been amended.

**Strategies that do not have an aligned problem statement will cause expenditures that are linked to them to be denied/voided/rejected in Frontline.**

If at any time you have a question about the allowability of a resource, contact the Director of Federal & State Programs. **Resources that do not directly support the strategy are considered unallowable and will be denied/voided/rejected in Frontline.**

**TO AMEND CIP FOR “PEOPLE”**

1. Personnel pages in Plan 4 Learning under State Compensatory and ESSA Title I must be kept up-to-date.

2. When a staff member is no longer in a grant-funded position, the campus must:
   - Email the Director of Federal & State Programs
   - Update the appropriate personnel page in Plan4Learning

3. In the "Program" field for that person, type "ended MM-DD-YY". The date should be the last day the person worked in that position. See example below.

4. When a new staff member is hired or moved to a grant-funded position:
   - Email the Director of Federal & State Programs
   - Enter the following information on the appropriate personnel page in Plan4Learning:
     - Name = Last name, first name
     - Position = Aide, Teacher, Parent Liaison, CIT, or CIS
     - Program = "began xx-xx-xx replaced Boales" (xx-xx-xx = first day on the job) See example below.

5. Email the Director of Federal & State Programs about all changes in Personnel. Include the Director of HR Operations in the email as well. Include fund and name of staff member who is ending or beginning.
