How to Setup Find My iPhone

Find My iPhone lets you remotely track your lost, stolen, or misplaced Apple device — be it an iPhone, iPad, iPod touch, or Mac — from virtually anywhere, as long as the device in question has some kind of internet connection. Not only can Find My iPhone help you locate a stolen or a lost device, it can also assist in remotely wiping your private information so your device data doesn't fall into the wrong hands.

**These setting must be set prior to you losing your device.

How to turn on Find My iPhone for your iPhone or iPad

1. Launch the **Settings app** on your iPhone or iPad.
2. Tap on **your Apple ID** at the top.
3. Tap **iCloud**.
4. Scroll down and tap **Find My iPhone**.
5. Tap the **switch** to enable it.
