

Principals/Campus Instructional Specialists

Principals and Campus Instructional Specialists are asked to assist clinical teachers, interns and observers. Campuses will provide classroom support that values teamwork, quality, integrity, a caring attitude, maximum effort and innovation.

The Principal and Campus Instructional Specialist's responsibilities include identifying and approving effective cooperating teachers, authorizing placement of clinical teachers and scheduling an initial meeting with the university supervisor to ensure proper supervision of clinical teacher.

The University of Mary Hardin-Baylor and Texas A&M–Central Texas will work directly with the Principal and Campus Instructional Specialist in placement of clinical teachers from their institute.

Human Resources will work directly with the campus principal and campus instructional specialist in placement of clinical teachers from any other university, college, alternative certification program or teacher preparation program.

Clinical teachers must be cleared and confirmed through the volunteer application.

All campuses are responsible for verifying names of clinical teachers/observers in the volunteer database.

Clinical teachers must wear an identification badge at all times while on a campus.

We appreciate all the assistance you provide in helping with the continued success of placing clinical teachers.

For more information on the clinical teacher placement and/or its process, please contact:
