Killeen Independent School District
Job Description

Job Title: Supervisor for Transportation Support
Reports To: Transportation Support Specialist
FLSA Status: Exempt

SUMMARY
Administers district bus-video monitoring program and coordinates with district disciplinarians to maintain a safe school bus environment. Serves as the coordinator for all transportation information systems within the department. Supervises activities of individuals engaged in bus servicing, basic safety inspections, and operations of automation systems and databases.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following:

Administers district bus video program including installation, maintenance, and daily operations of video equipment.

Supervises fleet service and automation personnel in the performance of operations to include maintaining office automation systems and bus video systems and databases and conducting automation systems training.

Maintains inventory of all video recording and playback equipment, office computers, and printers.

Procures new and replacement items supporting the office automation systems and bus video systems and information systems.

Maintains a library of digital videos and delivers videos to transportation administrative personnel, school principals, and assistance principals upon request to include converting digital videos to acceptable media as needed.

Ensures that technology, audio visual, fueling and bus wash equipment are operational, properly distributed, installed, and configured to enable optimal performance. Troubleshoots problem areas in a timely and accurate fashion and provides end-user training and assistance where required.

Identifies and reports any technology or maintenance concerns that are beyond the capability of in-house expertise.

Serves as primary administrator for video and storage of transportation systems.

Oversees fleet service fuelers in the performance of daily fueling and systems inspection operations.

Maintains all district-owned fuel servicing facilities, including pump islands and automated fuel delivery and environmental monitoring system.

Ensures safety standards for fleet service teams during the performance of daily fueling and bus washing activities.
Administers transportation services fuel contract; orders fuel as required to ensure continuing fuel availability and maintains fuel records in accordance with Texas Commission Environmental Quality standards.

Inventories and accounts for all district-owned video equipment.

Operates two-way radio equipment and communicates information required for continuing operation of all transportation functions.

Makes presentations during driver in-service training and small group meetings and assists in department-wide staff development programs, as needed.

Assists in accident and incident investigations, as required.

Assists with enforcement of administrative policies, procedures, safety rules, and governmental regulations.

Assists with equipment procurement process by reviewing specifications and conducting product evaluations.

Performs other duties as assigned.

SUPERVISORY RESPONSIBILITIES
Supervises all individuals engaged in fleet and automation technology support functions (fueling, bus washing, and technology). Carries out supervisory responsibilities in accordance with organizational policies and applicable laws. Responsibilities include interviewing and training employees; planning, assigning, and directing work; appraising performance; rewarding and disciplining employees; addressing complaints and resolving problems.
